

DEMOCRATS

*If you're looking for the headline of the week -- consider this one. "Goldwater supports -- Kennedy." Another Goldwater, however. It was at the meeting of the New York Democrats in New York to select a nominee for Senator. Which meant -- as almost everyone knew -- to nominate Robert Kennedy.*

*Congressman Samuel Stratton was contesting the right of the Attorney General to run in New York. "Not a bona fide resident of the State" -- was the way Stratton put it.*

*Whereupon he was challenged by Monroe Goldwater -- legal advisor to the State Committee. The legal advisor, point out -- that Robert Kennedy meets all the requirements, including residence -- which he will have in New York by election time.*

*The assembled Democrats -- agreed with that argument. And so the Democratic candidate for Senator from New York is the brother of the late Pres*

KEATING FOLLOW KENNEDY

*Meanwhile* The Republican who will oppose Robert Kennedy in November - is making a strong bid to capture the vote of organized ~~labor~~ labor. Senator ~~Ken~~ Keating, appearing before the A F L - C I O convention - in New York - and reminding the men of the unions - that their own watchdog committee has okayed his voting record in Congress. Okayed it on ~~eight~~ eight out of ten key issues - concerning labor.

"A batting average of eight hundred is better than the average of - Babe Ruth or Mickey Mantle," *was the way Sen. Keating put it* ~~So said Ken~~ Keating - to the A F L - C I O.

## JOHNSON

And, back at the White House after the weekend at the ranch - President Johnson met with members of Congress on legislative matters. Calling in his advisors - for briefings, and -- signing bills.

One bill -- in behalf of the original Americans. Compensation for the Seneca Indians who were evicted from their reservations -- in New York and Pennsylvania, evicted by the palefaces -- who wanted to build a dam on redskin territory. Now -- to the dispossessed -- fifteen million dollars -- that much wampum for the Senecas, one of the historic six nations. Warriors who once ruled from Lake Erie to the Mohawk Valley -- before the white man. The Senecas -- one of the Iroquois Nations.

## CYPRUS

The U N is facing a familiar problem - ~~over~~  
Cyprus. The problem of - money. Or rather - no money.  
The peace-keeping operation has already run two million  
dollars - into the red. And the figure will be much larger -  
if the operation continues for an extra three months. As  
it must - according to the Secretary General - if a  
peaceful solution is to be arrived at.

But can the U N arrange - such a solution? U Thant  
- says "no". He thinks that the Cyprus issue - is strictly  
a three-cornered affair. To be decided by Greece, Turkey  
and Cyprus.

## TURKEY

*That anti-American demonstration in Ankara -  
was permitted by the Turkish government. A use of -  
the safety-valve technique. Allowing the students to  
parade through the streets - with a permit. In preference  
to a possible outbreak of violence - if they were forbidden  
to demonstrate.*

*The technique - seems to have succeeded.*

*Much vehement oratory - about Cyprus, And - America's  
attempted mediation. But - no real violence. ~~tion in~~  
Ankara.*

GILLIGAN

One thing that no one denies about the case of Lieutenant Thomas Gilligan - is that the Grand Jury went into it exhaustively. Duration of the hearings - one month. Number of witnesses - forty-five. Pages of testimony - one thousand, seven hundred.

Why so much care - with regard to one New York police lieutenant? Because when Gilligan shot James Powell - the incident triggered the ~~the~~ Harlem riots. Ever since, many negroes have been ~~and~~ demanding - that the policeman be found guilty.

The verdict of the grand jury "not guilty". The jurors, deciding - on the evidence - that Gilligan should be exonerated. No reason to question his conduct when, as he says - he had to shoot because <sup>young</sup> Powell attacked him with a ~~knid~~ knife.

## HURRICANE

The weather picture for the southeast - features the gyrations of "cleo" and "Dora".

"Cleo" you already know. The hurricane that battled Florida - and then moved up into Georgia and the Carolinas. Losing force - but still potent. Meeting a cold front from Virginia - and touching off the heaviest rain in a century. Dousing Virginia Beach with almost fourteen inches - ~~inside of~~ twenty four hours. Water four feet deep - in some of the streets.

Then After "Cleo" - "Dora" - a new storm - building up in the Atlantic, <sup>with</sup> ~~Gathering strength as it moves~~  
~~West~~ Hurricane warnings ~~are~~ up ~~in~~ the Leeward and Windward Islands. ~~And ships are beginning to skirt~~  
~~the area where "Dora" is going into her act,~~

## JESSE OWENS

One of the greatest track stars of all time -  
still knows how to run. Jesse Owens proved that today -  
when he sprinted across New York City Hall Plaza,  
Carrying a lighted torch on the first lap - of a relay  
across the country.

The cause?<sup>?</sup> - ~~most appropriate~~ A drive to raise  
<sup>a</sup> ~~one~~ million dollars - for Uncle Sam's Olympic Team. The  
committee probably will find <sup>will they</sup>  
~~well, they may get~~ ~~the~~ million, ~~But,~~ ~~doubt~~ that  
~~they'll be able to~~ find - another Jesse Owens.

## GUAM

The following will stir a lot of memories - among those of you who served in the Pacific during World War Two. The U.S. Marines are probing the jungles - of Guam. Looking for - Japanese soldiers.

Could be a reference back - to the campaign through the Marianas in Nineteen Forty-Four. Actually, the search is going on ~~xxixg~~ right now. Objects of the search - two bedraggled Japanese who were spotted near the city of Agana. Apparently - incredibly - survivors of the battle of Guam. <sup>Another</sup> A pair of the Mikado's men who escaped into the jungle - when the Americans captured the island.

~~Two may~~ <sup>Two may</sup> ~~if so these two~~ Japanese ~~have been~~ hiding out on Guam - for twenty years.

## LADY DRIVERS

In London, lady drivers are being asked to obey - a special set of rules. No - bare shoulders. No - plunging necklines, And - so on.

Reason for the rules - accidents on the streets of the British ~~empire~~ capital.

Now, I know what you're thinking - and you're wrong. The lovely ~~kar~~ ladies of London are not distracting - the masculine drivers. At least, not enough <sup>of that</sup> to show up in the ~~men~~ actuarial tables. This story refers - to the ladies themselves. A series of accident reports indicating that serious cuts from ~~sky~~ flying glass can be reduced - if women wear high dresses that cover their shoulders - when they <sup>are at</sup> ~~take~~ the wheel.

Are the new rules - being obeyed? A spot check shows the bare shoulders and plunging necklines - still whizzing around London. The gals - like them. ~~Some~~  
~~and~~ <sup>And</sup> the men, Dick?

GOLDWATER FOLLOW JOHNSON

*And there's an Indian motif - - in tonight's story about Barry Goldwater. The Republican flies in a plane called "Ya Be Kin." Indian for "House in the sky." But the language is not -- Iroquois. Barry Goldwater comes from the southwest -- where the Navajo gave him that name for his plane -- "Ya Be Kin."*

*We'll be meeting those Navajo words more frequently -- as the white man proceeds with the rituals of political campaigning. Senator Goldwater, on Runway b, coming in in Ya Be Kin.*
