

L. T. Thurs. Sept. 3, 1970

**GOOD EVENING EVERYBODY:**

*At the peace table in Paris - America's David Bruce and North Vietnam's Xuan Thuy - face to face today for the first time. The new U.S. peace negotiator telling his Communist counterpart - just back from Hanoi: "Let us set aside pre-conditions to serious discussions - let us set aside demands for one-sided action." "Let us work instead" - he went on - "to achieve the earliest possible negotiated settlement - which takes into account the legitimate concerns of both sides." Thuy, in turn, pledging to "listen carefully" to U S proposals.*

*Later though - Bruce making it plain the U S will continue to insist - that South Vietnam must have freedom of choice in the selection of its own government. Whereupon Thuy asserted: "After nearly twenty months with more than eighty sessions - it is now clear that the United States is not showing a serious attitude and good will." This setting the*

*tenor for a five hour session. The conference finally  
breaking up with both sides - on the surface, anyway, just  
as far apart as ever.*

**STATE**

*Turning next to the Arab-Israeli impasse - a burst of excitement today in Washington; where the U S publicly accused Egypt and the Soviet Union - of deliberately violating the current stand-still <sup>agreement</sup> ~~agreement~~ in the Middle East. An official U S statement saying that such violations - must be stopped. Adding: "We are continuing to watch the balance closely" in the Middle East - "and, as we have said previously, have no intention of permitting Israel's security to be adversely affected."*

**TEL AVIV FOLLOW STATE**

*Meanwhile the Israelis cabinet was meeting in super-secret session in Tel Aviv, with more reports that Defense Minister Moshe Dayan - was seeking to scuttle the cease-fire as "ineffective and unworkable."*

*However, Dayan himself, later, on nationwide radio - asserting there were differences in the Israeli cabinet. Adding of that cease fire - "I don't like it one bit" - because said he, "the other side does not abide by the agreement." In response to a question, though- Dayan said he is not resigning from the Cabinet.*

**CAIRO FOLLOW TEL AVIV**

*Now the latest - from Cairo - an article tonight - in the semi-official newspaper Al Ahram; an article saying - there can be no military settlement in the Middle East. Al Ahram adding - "a political agreement is the only way."*

## **CORONADO**

### ***Mexico's President Gustavo Diaz Ordaz***

***a guest tonight on American soil. Arriving by jet to meet with President Nixon at Coronado, California where an official State Dinner is scheduled for later this evening.***

***Mr. Nixon in his welcoming remarks, noting that the two men had met just two weeks before - at Puerto Vallarta in Mexico, and that it's unprecedented for a head of state to pay a return visit so soon. "But, this is as it should be," said he - "because the friendship between our two governments is unprecedented."***

TOKYO

~~The U S and Japan - by vent of industrial  
might - two of the nations held chiefly responsible for  
polluting our earth environment; a fact which accounts  
for a~~ <sup>An unusual</sup> bilateral agreement <sup>was</sup> signed today in Tokyo.

The U S and Japan pledging a joint battle - against the  
inroads of pollution. This by means of a free exchange  
of information - on the developing techniques and  
technology of ~~pollution control~~ effective pollution control.

President Nixon - in a message to Japanese  
Premier Sato - observing that "the impact of a  
deteriorating environment - now extends beyond national  
borders." Sato - in a return message agreeing that  
"the problem could be effectively ~~dealt~~ dealt with  
only through international cooperation."

WASHINGTON

Here at home again - on the economic front - something of a turn around. The Treasury Department reporting ~~today~~ that ~~the~~ U S Savings Bonds sales exceeded redemptions last month - for the first time since December Nineteen Sixty Eight. This ending - at least - temporarily - an economic drain totalling nearly three billion. Government officials hoping - what's more - the turn around will now become permanent; especially in view of a government decision last last month - making savings bonds interest rates still higher.

**DENVER**

*From Denver the story of a suit filed by the tribal Indian Land Rights Association; a suit attempting to declare null and void - the so-called Taylor Grazing Act which was passed back in the thirties. Indian spokesman A. A. Hopkins-Dukes -- a full blooded Kiowa - arguing that the Taylor act deprived Indians of the right to claim up to one hundred <sup>and sixty</sup> acres of public land. This - under the general Indian allotment act of eighteen eighty-seven.*

*In the end though - federal judge Alfred Arraj turning down the Indian's request. The Judge agreeing that "the white man behaved as an Indian giver," to use his own words. Adding, in effect, however: " That which Congress has the right to give - it also has the right to take away."*

OTTAWA

~~Here's one - a story reported today from~~

Ottawa, Kansas. The Ottawa Journal complain<sup>S</sup>~~ing~~  
editorially - about Paris efforts to popularize a new  
longer hem line. The article noting that "short dresses  
have everything in the world in their favor - the long  
dresses nothing." Further demanding: "Was there ever  
a more shocking outrage - perpetrated in the name of  
fashion?"

All of which is hardly news - except that  
the <sup>Kansas</sup>~~Ottawa~~ editorial was originally published April Twenty-  
Eight~~th~~, eighteen seventy! -- more than a hundred years  
ago. An article coming to light - via the research  
efforts of Bea Birginal of Bee-line fashion incorporated  
Bensenville, Illinois. <sup>Bea</sup>~~Bea~~ Birginal thus consoling us  
with the thought that in womens fashions - "what goes  
down must come up again." Ever thought of that Warren?

## **LOMBARDI**

*For one of the greatest coaches in the history of American football - the final whistle today, in the nation's capitol. Rough, tough, Vince Lombardi - who founded one dynasty in Green Bay and was well on his way to founding another in Washington - succumbing at last to a month-long battle with cancer.*

*As a young coach he had been trained by Red Blake who built championship teams at Dartmouth and Army.*

*Vince Lombardi perhaps best summing up his own coaching philosophy when he said that winning was "not a some time thing" but rather an "all-time thing." "There is no room for second place here" - he went on. Adding: "There's only one place in my game - and that's first place."*

*Vince Lombardi - he was only fifty-seven.*
