

L.T. - OLDS. MONDAY, APRIL 10, 1961

GOOD EVENING EVERYBODY:

Do you ever wonder whether television is worthwhile?

It sure was this afternoon. I hope you all saw the finish of The Masters Golf Tournament at Augusta. I wonder if there was ever a more dramatic finale to a big golf classic? Four interesting days of it - 5 if you include yesterday and that storm. The first, caught by - Jim Rivers of the Chicago White Sox. The second, by - Hal Woodeshick of the Washington Senators. Took the President settled back with the crowd - to watch the game. Arnold Palmer of the U.S.A. and Gary Player, of South Africa, in an epic battle - all the way. Player winding up the winner by one stroke.

They'll be talking and writing about this one - for a long time. To see that finish - and I almost missed it - made it worthwhile to own a TV set.

## BASEBALL

Today the nation learned a bit more about the chief executive. That President Kennedy pitches a baseball - without a wind-up. Today - when he threw out the first ball, to open the season, he also threw a second - symbolic of a new era in our national pastime; era of ten teams in the American League - instead of eight, as we've had these many years.

The President was bi-partisan - in his two tosses. The first, caught by - Jim Rivera of the Chicago White Sox. The second, by - Hal Woodeschick of the Washington Senators. Then the President settled back with the crowd - to watch the game.

A game the Senators lost, on errors. The White Sox, picking up two unearned runs - winning four-to-three.

CUBA

The significant thing about today's anti-Castro raid in Cuba - is that it took place in the Sierra de Escambray. The mountains that the dictator claims to have - pacified. ~~Well, things weren't very peaceful - when~~ <sup>T</sup> the rebels attacked a Castro militia camp at Sancti Spiritus. <sup>a</sup> hit-and-run thrust -- that caused many casualties. The raiders, blazing away with their guns - then ~~disappearing back into the Sierra~~ <sup>withdrawing into the</sup> ~~Mountains.~~ <sup>de Escambray.</sup> Back, to smile grimly a few hours later - as they listened by radio to Castro making his violent marathon speech.

Meanwhile, sabotage is being stepped up - as D-day for the anti-Castro invasion of Cuba draws near. Havana is without water for the third straight day - following sabotage of the city reservoir. Many factories are behind schedule - because of broken machinery. And Castro is said to be arresting workers en masse - for crippling production with deliberate slow-downs.

## VIET NAM

There's some mystery about Communist strategy - in South Viet Nam. The Reds made no attempt to start riots in Saigon - during the election. They stood by, as pro-Western Premier Diem rode back into power - with a big majority.

But out in the jungle - the Red guerrillas appear anxious to prevent a final count. Today, they attacked the polling places - of the Viet Nameese hinterland. Burning - ballots. Destroying the primitive shacks - used as voting booths. Overturning the jeeps - carrying the returns to central headquarters.

So there's a paradox - in South Viet Nam. The Reds, disrupting the election - out where it doesn't make any difference. Allowing the election to proceed in Saigon - where the victory of the pro-Western government was assured.

EICHMANN

*evidently is all set*

*far the most horrible*  
~~and the biggest~~

In Jerusalem, everything ~~is prepared~~ for tomorrow -  
murder indictment ever presented in a court of  
law. In fact, no one is quite sure how many human beings were  
killed because of - Adolf Eichmann, the mass executioner of  
Nazi Germany. But the toll of Jews alone - runs into the  
millions.

*is*

*it runs to*

The indictment so involved ~~it runs to~~ fifty thousand

words. And, thousands of documents will be presented during the  
trial - which is ~~sure~~ *almost certain* to be a long one. ~~Also revolutionary~~ *and most unusual*

because of the circumstances. Eichmann, kidnapped in Argentina  
tried in a nation that did not exist when he committed his  
crimes. His lawyer will argue that these points - make the  
trial invalid. But the lawyer has already been answered by the  
Israeli government - which holds that Eichmann's unprecedented  
crimes call for unprecedented legal procedures.

CHANNEL

Tonight the English Channel, ~~is~~ <sup>hidden in</sup> filled with fog.

A real pea souper - cutting down visibility to a few yards.

Holding up traffic - between Dover and Calais. Grounding -

planes. Forcing the boat-trains -- to run behind schedule.

~~And~~ The boats ~~are~~ late, too.

Several accidents - reported. Nine miles off Beachy

Head - an American tanker collided with ~~the~~ <sup>a</sup> Spanish tanker.

Both, shipping water - but proceeding to port under their own power.

Three miles off Dungeness - a British liner collided with a Swedish freighter. The liner, springing a leak - in the engine room. Dungeness tugs - racing to the scene.

Sheperding the vessel - into port.

No casualty ~~is~~ <sup>is</sup> reported - in these two accidents at sea.

But they point up - a well known fact. The Channel is not a safe place to sail - when a pea soup fog covers it like a shroud.

## SHIP

The final toll in the Persian Gulf - five hundred and sixty rescued; two hundred and twelve missing, ~~and~~ believed drowned. They were aboard the British ship "Dara" - when she was rocked by explosions and fire. Tugs took the five thousand ton vessel in tow - intending to salvage her at Bahrein.

But - she sank in the Persian Gulf *so famous for storms and tragedies.*

## PLANE

The men aboard the B-52 that was shot down on Friday - never saw what hit them. Tail-gunner Ray █████ Singleton of Havre de Grace, Maryland - says the F-100 was plainly visible. But the "sidewinder" missile accidentally launched by the fighter - was never picked up aboard the bomber.

The first thing ~~that~~ the tail-gunner knew -- was that the plane was on fire. Turning into - a steep dive. Shuddering - as if it would fall apart in the air. Sergeant Singleton, bailing out - coming down with serious burns. Five others of the crew - also bailing out safely. Three more - killed in the crash.

front door - over the hedge. Munning for dear life until he met a couple of Carabinieri - and scrambled behind them. The Carabinieri, collaring Giovanni as he rushed up - taking the bread knife away from him.

The explanation all quite simple. Alberto, why he was a telephone repair man. On his way to a wedding, his boss asked him to stop by Gina's house - and see what was wrong with her phone. Alberto merely discussing the problem with Gina - when Giovanni appeared. When the repair man took one look at that bread knife Dick, he decided he'd explain - later.
