

GOLDWATER

L.I. - Olds-Fisher, Wed. June 24-'64,

Here's a puzzle - reflecting the latest news.

What is common to ~~Providence~~, Rhode Island, - ~~Charleston~~,  
West Virginia, - and ~~Saigon~~, South Viet Nam. ~~Answer~~ <sup>?</sup> ~~It~~

<sup>In</sup> all three ~~cities~~ <sup>they</sup> are discussing Barry Goldwater and  
Civil Rights.

As for Providence - Goldwater himself is doing  
much of the talking. Phoning his Rhode Island backers  
to say - that he'll enforce the Civil Rights Bill, if  
he is elected. The Arizona Conservative, to do so -  
because Congress has passed the measure. Not - because  
he agrees with it.

Charleston, West Virginia - speaker, William  
Scranton. The other G.O.P. candidate, telling a news  
conference - that Goldwater's attitude to Civil Rights  
"disqualifies him for the Republican nomination."

Saigon - that refers to Cabot Lodge. Our  
retiring Ambassador, preparing to return home - to aid

GOLDWATER - 2

General Harold Johnson must have articulated  
Scranton. Asking this question - in the Vietnamese  
his stars - as rapidly as my Army man. He got his  
capital. "If you have supported Civil Rights all your  
third star - Lieutenant Colonel - 1 year then 2 year  
life - how can you support Goldwater?"  
ago... Now he gets his fourth star - full General -  
because the President has tapped him to be the new  
Army Chief of Staff.

General Johnson, moving past a number of four-  
star Generals - into the Army's top spot. Chief -  
of Staff.

## GENERAL

General Harold Johnson must have accumulated his stars - as rapidly as any Army man. He got his third star - Lieutenant General - less than a year ago. Now he gets his fourth star - full General - because the President has tapped him to be the new Army Chief of Staff.

General Johnson, moving past a number of four-star Generals - into the Army's top spot. Chief - of Staff.

## MISSISSIPPI

The finding of the car belonging to three Civil Rights demonstrators in Mississippi - was both ominous and hopeful. Ominous - because the vehicle was burned out. Hopeful - because ~~XXXXX~~ there were no signs of violence to the three men who had been riding in it.

But - what had become of them? The search went on all day - on direct orders from the White House. And Allan Dulles arrived to add his expert knowledge - to the case. Meanwhile, Civil Rights groups marched - in Washington. Calling for stronger Federal measures - in Mississippi.

48

return of the old underground leader...  
he says he's back in...  
Army - but to help reach a...  
both sides.

## CYPRUS

At the White House - Greek follows Turk. We've already had the story about Turkish Premier Inonu - discussing Cyprus with President Johnson. Now, Greek Premier Papandreou is in Washington - for the same purpose. Why shouldn't Inonu and Papandreou - get together? Because the Greeks insist that Cyprus - is an independent state. Not subject to negotiations - between Ankara and Athens. But both sides are willing to talk to - the President of the United States.

Meanwhile, more fighting - on the island. A gunbattle between Greek and Turkish Cypriots - in the mountains outside Nicosia. One # hopeful note - the return of the old underground leader, George Grivas, <sup>who</sup> ~~he~~ says he's back in Cyprus - not to lead another army - but to help reach a settlement satisfactory to both sides.

TSHOMBE

A figure out of the past - is wandering into the present. His name - Moise Tshombe. I suppose that most of us thought Tshombe was gone for good - when he fled from the Congo almost two years ago. His drive to make Katanga Province independent - defeated by the Congolese government in Leopoldville. With the help of - the U.N.

The U.N. is about the pull out - of the Congo, And Tshombe thinks ~~that~~ he can assist Premier Adoula - in maintaining Congolese unity. He says that Adoula - wants his help. So, its off from Spain - back to the Congo - for Tshombe.

## PHYSICIST

The Cuban physicist who defected to the United States - really went the long way round to get here. Castro sent him to Czechoslovakia - to learn science from the Comrades in Prague. The bearded dictator, ordering him back to Havana - when he finished the course.

The physicist and his wife boarded the Soviet plane in Prague - for the flight to the Caribbean. But they never got beyond - Shannon, Ireland. <sup>They</sup> They gave their Castro guards the slip at the airport - when the jetliner touched down. And tonight <sup>they</sup> are in Dublin - waiting to come to America.

~~Yes,~~ The long way road to freedom - for this Cuban scientist, Havana, Shannon, Prague, Shannon - and New York.

## ECLIPSE

The moon will suffer an unusual eclipse tonight - because a volcano erupted on Bali last year. Remember how Mount Agung - blew its top? And shook the romantic island - in the East Indies? Remember the dancing girls of Bali - in flight from the molten lava of their sacred fire mountain?

A volcanic eruption of that magnitude - always pours out clouds of dense black smoke, smoke that rises into the sky - and generally disintegrates in a few weeks. But the volcanic ash from Mount Agung was so thick - its been clinging together in the sky for all these months, And tonight will play havoc - with astronomy. Turning the moon black - as it passes into the shadow of the earth.

A lunar eclipse affected by - the fire gods of Bali.

## REMBRANDT

In London, they've just knocked down - another Rembrandt. The place - Sotheby's Auction Gallery, of course. The painting - Rembrandt's "Apostle Reading." It went for - two-hundred-thousand pounds sterling. Nearly half a million - American dollars.

Here's - an oddity. The high bid - a disappointment. Only two-thirds of what Sotheby's expected to realize - on this old master. The anonymous buyer - got it dirt cheap. Rembrandt's "Apostle Reading" - for only <sup>five</sup>~~two~~ hundred thousand <sup>dollars!</sup> <sub>1</sub> pounds.

## AMAZONS

~~I'm sure you all~~ Remember the Amazons - of Greek mythology, The militant ladies who marched off to war - leaving the men behind? ~~We got~~ Our word <sup>Amazon</sup> ~~came~~ from the myth, Amazons - meaning muscular gals, Like - lady wrestlers.

Indonesia has some Amazons - that are neither mythological nor metaphorical. A unit of feminine warriors - just graduated from a combat training school. Their specialty - guerrilla warfare. Their assignment - to infiltrate into the Federation of Malaysia, And begin - terror tactics; Assassinations, bombings, arson - and so on.

Do They sound ~~rather~~ formidable - those Amazons of Indonesia? As formidable as the Amazons - of ancient times?

## INDIANS

Drums - along the Mohawk. The palefaces may be hearing them again - say the braves of the Six Nations, if - the Great White Father <sup>in</sup> Washington doesn't reach for the peace pipe.

Sounds - historical. Except that the subject - is rather modern. Namely - taxes. The Mohawks are deadly serious in claiming - that they shouldn't have to pay exise duties. Because the treaty their ancestors made with George Washington - expressly exempts them from taxation of any kind.

That's why Dan Kirby of Somerville, Massachusetts - is refusing to fork over fifty bucks to the city. Dan, a full-blooded Mohawk - says he'll go on the warpath. ~~XXXXXXXX~~ Rather than violate the Mohawk treaty - with § George Washington.
