

REFUGEE

L.T.-Calds. Wed. Aug. 3rd. '60.

The defection of Cuba's Major Raul Chibas - has an ironic twist. Major Chivas, responsible for the military code - under which Castro ~~took care of~~ so many of his opponents.

The Major - one of Castro's oldest supporters. Joining Castro in Oriente Province - in Nineteen Fifty Seven. Chibas - a lawyer. So Castro ~~gix~~ gave him the job - of drawing up the laws to be used by Castro's revolutionary tribunals. The Chibas Code - leading to that notorious blood bath in Cuba. Castro, calling six hundred Cubans - "war criminals". Hauling them before firing squads. Chibas himself presiding over - the first trials in Havana.

Later, Minister of Agriculture - and supervisor of the railroads. Becoming disillusioned - by the course of the revolution, in which he played so big a part, Major Raul Chibas, escaping to Florida - in a small boat. Declaring he can't take any more of Castro's Communism.

NIXON

Tonight Vice President Nixon is in a state - that could go either way in November. Our fiftieth state - beautiful, romantic Hawaii. The Vice President isn't interested in the postcard aspects - this time. Oh yes, Mr. and Mrs. Nixon - love Hawaii. Appreciating today's traditional welcome - leis, hula girls, island music, and all its charm.

Dick Nixon of course is out in the Pacific paradise - to win votes. Although Governor Quinn is a Republican; the vote for the Senate was split in the last election. And, the Democrats polled more votes - than the Republicans.

Both parties predict - victory in November. Hence the Vice President is under the palm trees trying to - win votes.

KENNEDY

The Eisenhower administration is accused of

"deflationary policies". ~~who says so?~~ Senator ~~John~~ Kennedy -
said so today after conferring *Gov.*
~~speaking after a conference,~~ with Walter Reuther, and, Mike

DiSalle, ~~Governor~~ of Ohio. The three Democrats, discussing

our economy - especially the chance of another recession.

To nobody's surprise, they agree that *the present* ~~this~~ administration
hasn't pushed America's economic growth \nearrow fast enough. ~~Senator~~
Kennedy, using the phrase - "deflationary policies."

EISENHOWER

President Eisenhower, cutting short his vacation - returning to Washington on Sunday. The President, anxious to be back at the White House - during the post-convention session of Congress. The session that promises to produce - some fireworks. Republicans and Democrats, politicking at a furious rate - with their eyes on the November campaign.

President Eisenhower hoping to make Capitol Hill stay closer to - political reality. Warning Congress, not to play with "budget busting" - in this election year.

CONGO

The big question in the Congo!- ~~is~~ how far the Premier of Katanga Province intends to go. Premier Tshombe, announcing - a general mobilization. Threatening to fight United Nations troops - if ~~and when~~ they enter Katanga, Tshombe, calling for a mass rebellion- by the people of Katanga

But Tshombe has only a few Congolese troops - *led* ~~by~~ by Belgian officers. And the Belgians are promising to let the U N take over in Katanga. At the same time, it's not clear how the people of the province - feel about secession.

DOMINICAN REPUBLIC

The presidency of the Dominican Republic ~~has just~~ passed^s out of the hands of the Trujillo family - for the first time in twenty years. The resignation of President Hector Trujillo - catching the island by surprise. The dictator's brother alleging - illness. Refusing to stay on - in office.

But Generalissimo Rafael Trujillo - shows no signs of resigning. The dictator of the Dominican Republic - clinging to power.

FLYER

Lieutenant Chung Nak Hyun, of the North Korean Air Force, said today: "I was yearning for freedom." The Lieutenant, piloting a Mig fighter for the Communists. Taking off today with his squadron - on a routine flight. But it wasn't at all routine - when Chung Nak Hyun turned his plane toward South Korea. Zooming across the armistice line-landing at a South Korean air field. Asking for - political asylum.

R B - 47

British experts on the Soviet Union believe -
the Russians are testing a new weapon in ^{the} Barents Sea. Maybe
- an underwater missile. London saying that was the reason -
for the shooting down of the American R B -47.

Our plane, over international waters - getting
too close to the Russian test site. So the Russians ordered
it shot down - and later fabricated the story about it being
a spy plane inside Soviet air space.

PLANE

The Army announces - another new weapon. The

S D - 5. A pilotless plane designed to keep our commanders informed - about what is happening on the ~~XX~~ battlefield.

The S D - 5, a drone - armed with radar and photographic equipment, ~~/~~ Able to pin point targets - for tactical missiles, ~~/~~ Report on - enemy troop movements, ^{and} ~~/~~ Even map - enemy terrain.

WEATHER

The tides of the Great Lakes are pounding ashore tonight - with waves six feet high. Lashed by torrential rains - and hurricane winds. Tearing small boats from anchor - smashing breakwaters from Detroit to Duluth.

The mid-west hit by tornadoes. In Wisconsin, all major highways blocked - by landslides and falling trees. In Minnesota, power lines down - California still fighting forest fires.

BASEBALL

In Baseball, it's ~~an~~ expansion - instead of a third league. Branch Rickey's pet project, the Continental League - never getting off the ground. Instead, the two existing major leagues - will expand. Adding - four more teams. Which, incidentally, means - ^{a new} a national league team for New York. With three more cities -- to be brought in.

These, we guess
~~The best bets~~ [^] Toronto, Dallas, and Minneapolis.

Where does that leave Branch Rickey - baseball's Mahatma? He's been one of the most powerful influences in baseball - for half a century. At seventy-nine it could be time for the old gentleman to call it quits. He even says he'll retire - at least for a while. But it sounds a lot more like Branch Rickey ~~when~~ when he adds: "If another league is needed ^{in 20 yrs} ten years from now, I will apply for the job."

~~I guess~~ [^] None ~~of us~~ who ~~know~~ know Branch Rickey will be surprised - if we see him back in baseball, soon. Still a power - in America's national past time. One of the

2. BASEBALL

most colorful ~~in~~ figures in the history of American sports.

The Mahatma - Branch Rickey.

BETTING

Australia's "gambling dean" has stirred up a storm in the church - all because he won. The Very Reverend William Baddeley - out at the Brisbane Track, on Saturday, decided to wager - a few bob. In fact he backed the bang tails in seven races. Hitting six winners - on the nose. Lor' blimey!

All of which touched off a controversy - in the Anglican church, Down Under. One Bishop, calling the Very Reverend William Baddeley - "a disgrace to the cloth." To which the sporting cleric answers that "moderate betting never hurt anyone." In fact he says he'll be out there at the track - again next Saturday.

But the Brisbane railbirds aren't so sure - the "gambling dean" really knows how to gamble. You see although he picked six winners - and all he won was 2 quid thirteen - two pounds, thirteen shillings. Less than six bucks. Still, he got a thrill out of playing
