HOUSTON

Houston Doctors today were reporting the first isolation of a human cancer virus in laboratory experiments. This said to provide "a tool of great potential for investigation of the role of viruses in human cancer - and perhaps even for vaccination studies."

CAUSE FOLLOW MOSCOW

Non-Soviet Communist sources report tonight that the three Cosmonauts died of embolisms, the result of air bubbles in their blood caused by a sudden depressurization of their spacecraft; which probably occurred when their descent module separated from their service module. This indicating they were not wearing space suits at the time but only coveralls. If true, a fatal error. The guns of mourning resounded across packed Red Square today as the ashes of Russia's three Salyut cosmonauts - were enshrined forever in the Kremlin wall, the Soviet Pantheon of heroes.

Soviet Communist Party leader Brezhnev - Premier Kosygin and President Podgorny - were the three who bore the funeral urns to their final resting place. Passing them along to Russia's nineteen surviving cosmonauts - also to US Astronaut Tom Stafford - who helped set them in place. Observers noting it was clearly Brezhnev who

scemed almost overcome. As he turned at last from the wall - weeping openly. It had been he who guided Russia's space program from the first Sputnik right up to the present.

PENTAGON

By order of Defense Secretary Laird - a Pentagon crack down today on security practices; starting out with the withdrawal of all classified documents still held by the Rand Corporation of Santa Monica, California. This on the grounds that apparently it was Rand where those celebrated Pentagon papers were leaked.

Secretary Laird also revoking Rand's right of "special access" - to cryptographic material, intelligence data and other "special files." Asserting that "lax security practices among defense contractors - can no more be tolerated than lax security within the Pentagon itself? All of which is said to presage a general tightening up of security checks - at all non-government locations where classified materials are held.

STATE FOLLOW PENTAGON

Elsewhere in Washington - the Dex State Department announced today the start of a new mid-east peace offensive; with two U S diplomatis scheduled to fly to Cairo this weekend; to present a series of proposals to Egypt's President Anwar Sadat. This - we are told - marking "a definite new initiative by the U S - to play a more active role in trying to bring the two sides together. UNEMPLOYMENT

On the US economic front - a sharp, dramatic drop in the nation's unemployment rate; according to government figures announced today - for the greatest single month's decline in the jobless rate - in nearly a decade.

But the Labor Department says it could be because the survey was taken very early in June - when many potential job seekers were still in school.

The figures show an increase in total employment of some seven hundred and seventy thousand jobs. DALLAS follow UNEMPLOYMENT

In the same optimistic vein - Treasury Secretary Connolly today was telling a Dallas audience: "There is evidence that the inflation which peaked in the late Nineteen Sixties is now easing." "We have every reason to be pleased - with the progress we are making," said Connolly. CALCUTTA

From India's West Bengal State comes a report that

cholera is spreading. Now averaging more than three

hundred and fifty new cases a day; and the death rate - about

sixty a day. Most of the victims refugees from East

Pakistan. Doctor Pandet Saha saying: "The need of the hour

is not innoculation now - but tarpaulins; in fact any type

of cover to protect the refugees from the monsoon rain."

MONTEREY

In the skies over Texas - another airliner hi-jacking today; with a man and a woman - taking over a Braniff seven oh seven; forcing the pilot to fly to Monterey, Mexico -- where they collected a hundred thousand ransom after setting free a hundred passengers. Next stop: Trinidad. FORT WORTH

At Fort Worth, Texas a youth evangelism conference held in conjunction with the State Baptist convention. Speakers including the seventeen year old son of the Baptist President - a prominent San Antonio clergyman; who told his fellow teen agers how he had used marijuana, mescaline and LSD - tried to commit suicide twice, and later was sent to a school for unmarried pregnant girls and drug addicts. The youth saying: "I was happy as long as I was stoned -I loved L S D." But then came the light - said he - and "I blew off L S D and turned on Jesus."

Former Pro football player Bill Glass, chairman at the meeting, told the crowd: "If you don't think sin is fun you just don't know the right sin."

WEDDING

Fort Worth again - the wedding of Mr. and Mrs. Gary Lucas - with the ceremony barely over when the groom slipped out a pair of handcuffs; clamping one end on his wife's wrist the other on his own; later announcing he had thrown away the key.

The handcuffed newlyweds attending their own reception and wedding party - and then off to Acapulco, still inseparable, Warren.

HOUSE OF LORDS

It happened in London - in the British House of Lords. At first, a mere trickle of water from the ceiling. And then - a sudden torrent; practically flooding the public galleries drenching tourists - and also, dampening a few Peers of the

Realm.

All because someone on the roof turned on a fire hydrant. Said his lordship Admiral Earl Jellicoe - "I'm all at sea about this."
