

L.T.-DELCO. WEDNESDAY, OCTOBER 1, 1958.

GOOD EVENING EVERYBODY:

Watching the world series today I was impressed, for a while, by the brain work - of Yankee pitcher Whitey Ford. Keeping the ball low - his best pitch being a sinker.

The Milwaukee hitters - trying to wait him out. And - striking out a lot. But, then, they finally got to him - getting three hits in a row. Going ahead, to score - two to one.

After which, Whitey changed his tactics and, the next thing you know, the Yankees were ahead, three to two. But, finally, in the clutch crisis-brain gave way to brawn.

Rhyme Duren - throwing the ball past the batters with blazing speed, but, in the tenth the Braves got to him and won the game - four to three.

Bill Bruton, whom Duren struck out in the eighth came up again - and lined out the game winning single. A real thriller.

QUEMOY

President Eisenhower, today, stated that one possible solution of the China coast crisis might be - to "demilitarize" those off-shore islands. It was the strongest official declaration thus far to ~~xxx~~ that effect.

The President - giving his own professional opinion as a military man, General Ike = Saying - that Quemoy and Matsu are not ~~xxx~~ of much importance. He put it in these words:

"Fundamentally, anyone can see that the two islands, as two pieces of territory - are not vital to Formosa."

He said he thought - the Chinese Nationalists should not have put eighty-five thousand troops on Quemoy, in the first place.

However, the President admitted that a formula of "demilitarizing" the islands might not satisfy all concerned. He didn't say - just who might fail to be satisfied. But, Chiang Kai-Shek has declared himself - ~~again~~ against any proposal to remove nationalist forces from Quemoy and Matsu. His opposition

- reiterated again today, by a spokesman for the Nationalists.

Well, if I were to make a guess - it would be what you too, most likely are guessing at this moment. That, in the negotiations between the United States and the Chinese Reds - a compromise may be under discussion, providing for - "demilitarization."

At the Quemoy Islands, today, a thundering barrage - one-hundred-and-fifty-one shells a minute. In spite of which, however - the Nationalists were able to get in ~~with~~ with another supply convoy.

The heaviest blast - hurled at Little Quemoy, ~~Island~~. Where the word is - that the garrison and civilian population have only about three weeks food supplies left.

CONFERENCE

Soviet Russia proposes - a conference of the Foreign Ministers of the Big Three, ~~For~~ the purpose - of ending atomic testing. A ban - "for eternity", says the Soviet note. Delivered in Moscow, today - to the British and American Ambassadors.

All of which comes - as the Soviets have resumed nuclear testing. With two explosions of moderate size - in the Arctic. So reported - by the U S Atomic Energy Commission.

JORDAN

Simultaneous announcement - in London and Amman,
the capital of Jordan, today: - The British - to begin the
withdrawal of their troops from Jordan, on October Twentieth.
So stated - by King Hussein in addressing the Jordanian
parliament. The Foreign office in London - confirming it.

You may
~~Well, I certainly~~ remember what a news day it was
two-and-a-half months ago, when the U S Marines - landed in
Lebanon, *and* British paratroopers *dropped down in* ~~in~~ Jordan. Now, the
Americans are withdrawing - the British following suit.

BURMA

In Burma - a denial that the ~~Am~~ Army seized control. Which had been reported - ~~in~~ when Premier U Nu turned over his office to General Ne Win. The change of Premiers called - a military coup de-etat.

Today, however, General Ne Win, the Premier Designate, said- the political power was turned over to him personally, as an individual. Not, in any way, to the armed forces. He promises free elections in Burma, six months after he assumes office.

I, myself, was out in Burma a few months ago. And, from what I could see, the likelihood of orderly democratic government looked remote. Fighting and ^{raiding going on} ~~travel disturbances~~ all over Burma.

tribal

SUBMARINE

A new world record - for a submarine cruising submerged. The announcement made - by President Eisenhower, at his news conference today, When ~~xxx~~ he said - that, yesterday, the atomic submarine sea wolf completed its fifty-fourth day under water, Without - ever having come to the ~~xxx~~ surface.

That's not all. The Sea Wolf - still staying down there in the ocean depths of the North Atlantic. To continue that record - until next Monday.

LITTLE ROCK

Little Rock - planning another scheme for segregated schools. Using private buildings - for classrooms. Teaching-financed by private contributions.

Which is much like the scheme in Virginia - where classes are being held in homes and ~~YMCA~~ club rooms. Substituti for the schools that have been ~~is~~ closed under state segregation laws.

Little Rock - intending to do much the same thing if a federal court upholds the restraining order - Which now - prevents the leasing of public school buildings for private, segregated use. ~~This the court, seems likely to do.~~

At his news conference, today, President Eisenhower made another appeal to the south - to abide by the racial integration rulings of the Supreme Court.

COLD

A medical prediction, today - forecasting the conquest of a disease. The mysterious malady - that prevails throughout the world. Medical science, not knowing even the cause. Let alone - the cure. In other words, the sickness we all get - the ~~xx~~ common cold.

At a medical conference in Ohio, Toledo, Dr. C. N. Christensen expressed hope that in time, they'll be able to find out what a cold really is.

But he didn't predict a cure. He thinks medical science may be able to prevent - the sniffles and sneezing, coughing and general misery.

~~(Sound effects - good loud cough)~~

PRESLEY

German teen agers - about the same as their American counter parts. Anyway, so far as Elvis Presley is concerned. Hysterical German girls - climbing over high wire fences around a U S Army post in West Germany, for a look at an American G I, arriving at the post. Private Elvis Presley, in uniform, without guitar. Inciting an uproar - Don - of screaming German madchens schoene Deutchen madchens, we hope.

EISENHOWER

President Eisenhower had a good laugh, today - and so

did a lot of reporters ~~at~~ at his news conference. The President

speaking
spoke in grim, ~~severe~~ terms - about the menace of Red China,

— from Anchorage, Alaska —
When a girl reporter *^* changed the subject. Asking the President,

would he
~~could he~~ visit Alaska for the statehood celebration? The

President replying - it was a tempting ~~ixx~~ idea. He'd sure

like to go. Then asking the lady - the date of the celebration.

"Oh dear" she exclaimed, embarrassed. She didn't
know, grew flustered, vainly trying to remember. "Oh dear",

Meanwhile, the President was doubled up, ~~ix~~ laughing.

The whole news conference - in an uproar of mirth, "Oh dear!"
