

ELECTION

*L.T. Alden Fri. Nov. 11 - '60,*

Echoes of the election can still be heard - in the news. The counting of returns - still going on. Nixon still having a slim chance - to win a popular majority. And even yet - he's not mathematically beaten. Republican chairman Thruston Morton is pushing for recounts in several places.

Down in Mississippi - they have <sup>their</sup> ~~a~~ special problem. The state's eight electors - ~~are~~ unpledged, ~~meaning - they~~ ~~are~~ free to vote as they see fit, <sup>and</sup> Today they met, and decided to postpone their choice - until the final election tabulation is in. They say they <sup>a</sup>re especially anxious to see the final result - in Illinois and California.

## KENNEDY

President Elect Kennedy spent most of his time today answering congratulatory messages - before leaving for Florida. More than thirteen thousand telegrams have been pouring into the Western Union Office - at Hyannis; signed by - some of the great names of this era: Dwight D. Eisenhower, Prime Minister MacMillan, President DeGaulle, Chancellor Adenauer, Prime Minister Menzies of Australia, Pope John, Richard Nixon and so on, and so on, and so on.

The Kennedy office today released his answer to Adenauer. The President-elect pledges to work for controlled disarmament - stressing the word "controlled", and adds that he intends to cooperate with the West German Chancellor as far as possible.

After getting his formal replies out of the way - Mr. Kennedy went to the airport with Mrs. Kennedy and their daughter Caroline. They flew directly to Washington - where

Mrs. Kennedy got off to consult her doctor.

The President elect, continuing on to Florida -  
and a two weeks' vacation.

## NIXON FOLLOW KENNEDY

And, Vice President Nixon is in Florida - resting up after his strenuous bid for the presidency. What will his future be? Will it lie in the realm of politics, or law? Or both? He merely says he'll announce his decision when he makes it.

Meanwhile, some California Republicans are hoping he will stay in politics. In fact they are asking him to run for Governor of their state - in Nineteen Sixty-Two.

They point out that as Governor of California - he would be in just about the right spot again to go after presidential nomination in Nineteen Sixty Four.

U N

The U N has agreed to postpone the ~~ix~~ elections to the Security Council. The vote is - a defeat for the West. A victory - for the African and Soviet blocs. The point is that the new African states ~~xxx~~ want to marshall support for - a security council seat for Africa.

Meanwhile, from the Congo - more reports of jungle fighting between the Balubas and U N troops. While in Leopoldville, U N guards had to fire warning shots - to break up a battle ~~gx~~ between Congolese civilians and the Congolese army.

## ALGERIA

The latest rioting in Algiers - was expected. Armistice Day is traditionally the time when Right Wing Frenchmen demonstrate - in favor of a French Algeria. Now they've got a special motive - agitating against DeGaulle and his plan for an Algerian Algeria.

So ~~no~~ what happened today - came as no surprise. Least of all - to DeGaulle.

The President of France ordered riot police and special army units into Algiers - to maintain order during the Armistice Day parade. They succeeded - but not without a lot of violence. Thousands of French settlers flocked to Algiers - and began to scream, "Algeria is French - DeGaulle to the gallows!"

They surged against the police line - and battles erupted all over the square, and in the side streets. Scores are reported injured tonight - and ~~so~~ many under arrest. Algiers, tense - with the authorities on the lookout for more trouble.

One casualty of today's fighting - the American information center in Algiers. A mob burst into the building, wrecked the interior, smashed furniture, burned books and pamphlets - and left a mass of ~~no~~ debris behind.

In Paris, DeGaulle is standing firm. Saying- he won't be deterred from pushing ~~ahead~~ ahead with his plan for Algeria. He still intends to settle this problem by a free vote -- of all the people in that great North African territory.

VIET NAM

The news from Viet Nam and Laos - emphasizes the critical condition of southeast Asia. The reason - Red China, supporting Communist revolutions throughout the area. ~~As~~ Mao Tse-Tung, menacing free governments - through his puppet guerrillas. The revolts in both Viet Nam and Laos - are intended to forestall Communist take-overs of those two countries.

The coup in Viet Nam was led by paratroop Colonel Nguyem Chan Thi - who ~~is~~ accuses Premier Diem of weakening the Viet Nam economy, *and paving the way for* ~~Leading to the threat of~~ ~~a~~ ~~successful~~ Red revolution. The Colonel led his ~~own~~ men into Saigon - where they occupied the city after savage fighting, and besieged Diem in the Royal Palace. Diem still could rely on his palace guards - and he sent orders to his armored columns outside Saigon to come to his aid. The tanks - were too far away. The palace guards - too few. With all of Saigon in the hands of his enemies - Diem had no alternative but to surrender. *And* Tonight Viet Nam has a new strong man - Nguyem Chan Thi.

MARILYN

The marriage of Marilyn Monroe and Arthur Miller  
- lasted just over four years. Some of their friends call  
it - a good record. Because the blond beauty of the films -  
didn't always see eye to eye with the famous dramatist.  
But Arthur Miller wrote parts for Marilyn - and she played  
them very well. She seemed anxious to continue, until she  
stunned the theatre world today - by indicating her  
intention of getting a divorce. The end of one of the most

spectacular marriages, of recent years. <sup>Playright</sup> Arthur Miller <sup>and</sup>  
~~the~~ <sup>the</sup> spectacular beauty - the most famous beauty of our day,  
~~and~~ Marilyn Monroe.

BRITAIN

Our British cousins, as we know - aren't<sup>not</sup> given to whooping it up. They prefer the clipped understatement - and all that. Two incidents in London - underscor<sup>e</sup>~~ing~~ the staid attitude that goes with the bowler hat and the rolled umbrella.

First, a British judge has ~~for~~ forbidden a former footman of the Queen Mother - to publish his memoirs. David Payne used to work - at Clarence House. Recently he began to describe his experiences - in a Paris newspaper. And rather piquant experiences - they turned out to be. Result - the Queen Mother took ~~in~~ her ex-footman into court. The Judge, going along with Her Royal Highness - ordering Payne to stop telling all about the Royal Family.

The other London incident - a crack down on night clubs. London is usually regarded - as the staid old lady on the Thames. Recently, a rather un-British crowd moved in - with liquor, gambling, and floor ~~is~~ shows <sup>that</sup> ~~where the~~ ~~ladies don't burden themselves with too much clothing~~

caused eyebrows to be raised. Now Parliament has passed a new law, Dick, that may put a check on such goings on.

Owner Ben Friedman, telling newsmen - he's quite serious about his new work force.

Well, the news wires carried the story of the chimps - around the world. And tonight we have a reaction - from a Rome newspaper, which proposes - putting the other animals in the zoo to work. For example - giraffes to direct traffic. Elephants to clean streets. Bears to driving taxis. Kangaroos - deliver the mail.

Dick, nor would you put the members of the animal kingdom to work in our society, now that the three chimps, Fudgie, Fudgie, and Bobby are on the assembly line at that furniture factory in Houston?

## CHIMPS

Here's a follow up - to that story we had last night, about Pudgie, Fudgie and Bobby - the three chimpanzees now employed by a Houston furniture factory. Owner Ben Friedman, telling newsmen - he's quite serious about his new work force.
