VIET NAM

American troops today launched their first
major combat offensive -- of the war in Viet Nam.

Some Two thousand U.S. Paratroopers -- joining the
same number of Australian and South Vietnamese
in a giant pincers movement, Aimed at wiping out a

Communist stronghold -- about Thirty miles north of
Saigon. The same jungle area -- blasted by our

B-Fifty-Twos last week.

U.S. Marines also in action today, Marine
another massive search-and-destroy mission -- near the
big U.S. Air Base at Da Nang. While in the air -American jets struck today -- to within Sixty-five
miles of Red China. Blasting a supply depot at
Thuan Chau -- in their deepest penetration of the war
so far.

Republican National Chairman Ray C. Bliss -- today presented his formula for a political come-back in Nineteen Sixty-Six. Reyed to a resurgence of the GOP -- in big cities and their suburbs.

The Bliss plan calls for an immediate workshop -
Republican

for big city chairmen. To implement at last the recommendations

of a "Big City" planning committee -- which Bliss headed four

years ago.

He also wants a school for Republican campaign
managers -- a new program for recruiting the most able
candidates -- and a strengthening of GOP programs -- to win the
support of minority groups, senior citizens and new voters.

IKE FOLLOW BLISS

Meanwhile, the Republican National Committee today created a special study group; to report back on possible ways -- of "reforming and modernizing" presidential conventions. This in response to former President Eisenhower's recent suggestion of a thorough overhaul of the convention system -- in his speech yesterday before the Republican leaders.

EXPLOSION

Hearings continued today in Washington -- on the first public legislative attempt to prevent a world population explosion. Senate hearings on a bill-that would set up special agencies in the federal government, To collect and distribute birth control information to those who request it -- both at home and abroad.

Today's chief witness --, Dr. George

Kistiakowsky -- White House science adviser in the

Who

Eisenhower Administration, The Horocal chemist

warning that prevention of a world population

explosion -- is entwined irrevocably with the prevention

of war. Unless the population crisis can be solved -
said he -- "war is inevitable."

A Senate Sub-committee today approved a major sports bill. One that would grant professional football, basketball and hockey -- virtually the same anti-trust exemptions -- as those now permitted baseball.

The bill proposing official government approval -- of the controversial player draft, Mong with permission for the various leagues -- to establish the terms and conditions of player contracts -- as well as non-raiding agreements.

The Sub-Committee also sent to the Senate -- a bill to establish a Federal czar over boxing. But, this enealmost sure to fade in the stratch. Since it was sent along -- without recommendation, it may fade out this time.

INDIA

In New Delhi -- the Indian government today voted officially to accept that British proposal -- for a formal cease-fire in the disputed Rann of Kutch. India and Pakistan next expected to sign the agreement -- in simultaneous ceremonies tomorrow in New Delhi and Karachi. Ending for now at least -- the border dispute that only last month -- threatened to engulf both nations in a major war.

Crown Princess Beatrix of Holland today won the plaudits of her Parliament -- and, more important, the plaudits of her people.

The Princess and her West German fiance thered cheered lustily in the Dutch parliament. The lawmakers later joining in singing -- "long live the Princess."

As for the people -- they nearly mobbed the happy couple -- on their way both to and from the Parliamentary reception. Thousands upon thousands -- cheering the Princess and her fiance. Heaping flowers on their open car -- until the same.

SKYDIVERS

Aviation Agency -- to get skydivers out of the nation's airways.

The airlines noting that there has never been a collision -between a skydiver and an airliner. At least -- not yet.

Warning, however, they the sport is mushrooming so fast -- they
there have been a number of near-accidents. Any one of which -could have had tragic results.

At present -- a skydiver can jump anywhere he wants-just as long as he notifies the FAA of his intentions. The
airlines urging now that the sport be confined entirely to
areas of free scales -- outside the commercial air routes.

DUTY

Just as the House had done earlier -- the Senate today rejected that Administration proposal to limit tourists returning from abroad -- to just fifty dollars' worth of duty-free goods.

Defeat of the measure -- leaves the exemption of a hundred dollars -- same as before; except that the exemption will be based henceforth -- on the retail value of such goods -- rather than wholesale.

BIRDS

Two giant prehistoric birds -- were on the missing list today here in New York Vanished -- without a clue.

One -- probably the world's first bird; an Archaeopteryx -- about two feet tall. The other -- a sort of turkey-like bird -- six feet tall.

Both were part of an outdoor exhibit -- at the World's Fair, an exhibit featuring replicas of nine prehistoric monsters -- so lifelike that they've apparently -- flown the coop. Dick: -- Any of you have a clue?

SMOKING

Governor Rockefeller today signed into law -- a bill to require all cigarette packages sold in New York -- to have the following on them: -- "Warning -- excessive use is dangerous to health." This the first state measure -- of its king.

The Agriculture Department talls us that Americans are smoking more than ever. The increase blamed in part -- on those who quit smoking for reasons of health, but are now back at their coffin nails -- smoking 'em more than ever.
