PALESTINE L.J. P. J. Thursday, July 1, 1940.

The Arab League political committee has turned down Count Bernadotte's proposals for a Palestine peace. The decision unanimous; so reported from Cairo. The Arab leaders now are said to be debating whether to send the Count a flat rejection of his peace terms, or perhaps reply with some counter-proposals. They are to announce their decision on Saturday, so we are told. An Arab spokesman in Cairo today said that (the Arab states are standing on the proposition that the Arabs must have complete sovereignty in the Holy Land. They will not recognize a separate Jewish state. So they say.

The assumption in Cairo is that United
Nations (Mediator Bernadotte favors a Palestine
federation, with Israel as an autonomous state, with
the same status is as the Arab states.

Only eight days of the truce remain.

Eight days; with both sides announcing that they
expect to resume the shooting war on July Ninth;
unless an agreement can be reached.

Late word from Jerusalem: that the Arabs are moving heavy artillery into the Judean hills, ready to set up a wall of fire around the Holy City.

From Tel Aviv we hear of an atmosphere of disillusionment, a belief that the fighting will start again, in eight days.

From the island of Rhodes word that Count Bernadotte left for Jerusalem today, by air, to settle a dispute as between Jews and Arabs over the water supply for the Holy City. The Count going in person to try and settle this ticklish problem. Also to look into the question of Jewish food trucks using the road between Tel Aviv and Jerusalem, which is said to be frequently blocked by Arab patrols.

The cause of yesterday's blockade was a latter lost camel. The Arabs held up a Jewish convoy, until they got their camel back; although the animal had strayed away in the night, as camels will. The United Nations supervisor instituted an all night search for the roving camel. They finally found it, grazing

PALESTINE - >

in the garden of a trappist monastery. It may mx not have been the camel that escaped, but it was a camel. So the men handed it over to the Arab; whereupon the Jewish food convoy was allowed to go on to Jerusalen.

TEL AVIV FOLLOW PALESTINE

A dispatch from Tel Aviv gives us a colorful story of modern D'Artagnans - soldiers of fortune - gathering at the Gat Rinnon Hotel, all set to fight for Israel. Many are said to be Americans, rangy sons of Texas in sombreroes and high heeled cowboy boots, New Englanders, and soft spoken adventurers from the deep South. Also, British, Russians, swedes and Latin Maxiat Americans. Most of these are ex-flyers. If war is resumed they'll fly the war surplus fighter planes that Israel recently has purchased from somewhere, British spitfires, German Messerschmitts, and a few U.S. Thunderbolts.

and while these chaps are waiting, these soldiers of fortune spend most of their time in bull sessions, each man his own General, each sure the war'll be in the bag once they take the air. Every few hours new men are arriving, we hear. Some m in their world War uniforms, with wings and rows of medals, decorations won in the air over -Germany, at Anzion Beach, and at Guadacanal.

Sirens too, would-be Mata Haris; slim
lovelies arriving as mysteriously as these soldiers of
fortune. Where from? Mobody knows. Nor can anyone tell
you how the fighting men got to Tel Aviv. But, everyone
there says they are being paid in American dollars, which
they spend freely, on American cigarettes, canned
foodstuff, and so on, which is appearing by magic on
the shelves of the stores in Tel Aviv.

Many of these soldiers of fortune are mysterious gents. Une a giant Micaraguan, nearly seven feet tall, with a triple row of medals. He says he has fix fought in every war anywhere since he he was fifteen.

And, now he's asking for more.

And there are two Russians at the Gat Minnon Hotel. One a Bolshevik, an early revolutionary who was kicked out by the Communists over twenty m years ago. The other a veteran of Allenby's Army that captured Jerusalem who became a British brigadier in world war Two.

Leeping a weather eye on this motley crew

TEL AVIV FULLOW PALESTINE -3

are the Jewish Security Police. For there a persistent rumor that Communists have infiltrated into the new Jewish Army. So they are keeping a close lookout for Reds. Also, the soldiers of fortune have come to fight for Israel - if Israel has to fight again - are talking too much to the beautiful spies. All of which is keeping the anti-espionage men in Tel Aviv busy evertime.

BERLIN

(In Berlin today, Russia ended all four-power cooperation for Germany. The Russian Delegation walked out of the Kommandatur, the four-power council which governs Berlin.) Soviet Colonel Boris Kalinin said his side was quitting because of the attitude of Colonel Frank Howley; our Commander in the German capital. Kalinin was referring to Howley's walking out of the Aommandatur meeting on June seventeenth. But General Clay says that Colonel Howley was within his rights and had the permission of the Chairman to withdraw.

And now what's going to happen in Berlin is anybody's guess. The Allied control Council is still operating, but has not met since March twentieth, when the Russians walked out. The guessing is that the Russians may call a new meeting of the Council. But there is nothing definite on this yet.

Meanwhile, the U.S. Britain and France, today authorized a separate government for Western Germany. However, the new government has very limited powers. This, we are told, because of strenuous opposition from France to any possibility of a strong Germany.

General Pierre Koenig, the French
representative in Frankfurt, test today informed a
meeting of German officials, that the three big powers
will control Western Germany's Foreign melations,
foreign trade and allied funds. The western Allies also
to have the right to approve all test laws and
regulations drawn up by the new government.

of the German states -- they are called Minister

Presidents, and there are eleven of them -- that the

new currency of Western German; will be coupled with

the Marshall Rm Plan, to improve Germany economy, and

assist individual freedom.

And how are we faring in that Cold war in Berlin? General Lucius Clay today described the situation there as serious, very serious, he says, with tempers strained on both sides. As American, British and French officials are getting together in London to complete the draft of protest to be sent to the Kremlin over the Russian starvation blockade of Berlin.

But there are signs that the mussians are weakening. why? They are getting short of food and necessities which our people and the British are funning into Berlin in the biggest air transport operation ever known. An American spokesman in Berlin today discloses that the Russians are making feelers to our people to see whether they can engage in some barter - to help them out. They want wheat, pencillin, insulin, streptomyon, the new wonder drug that is used in the cure of tuberculosis. So they are asking us what weeks we can do about it. - Which m may mean they'll let up on the blockade soon.

Here's the latest from Jugoslavia. The

Tito regime is not only in the doghouse with the Kremlin.

It has also fallen out with the former satellite,

Albania; and, with its neighbor, Bulgaria. Tito's

Communists are now surrouned as all sizes by hostile

members of the Cominform, the Communists of Bulgaria,

Romania, Hungary and staty. Albania.

But the Tito Regime is not worried, we Learn. LThe official Jugoslav news agency today began an all-out attack on Albania, at charged the Albanians with insulting Tito, and indulging in hostile and brutal acts. One of these, the remeal of pictures of Tito from public places; another, the erasure of the dis dictators name from all Albanian school books.

As for Bulgaria, well the Juoslavs had a word for it today. Liars and cheats howled the annual Jugoslav News Agency, at their Med neighbors and the Bulgars that the Tito Regime is not going to be changed, just because a "bunch of Marxists wants it that my way."

Meanwhile, in Belgrade, the Jugoslav Army, the Communist Party, and the public, have been making demonstrations and the public of Tito.

On the soviet side of the iron curtain,

Communist spokesmen are supporting the Cominform in

equally vigorous language. The Tito Megime branded as

opportunist and obstructionist. From Russian Occupied

Germany, a Communist manifesto accuses Tito of underground

activity in Germany. Hungarian Communists have also

joined in the cry, they are calling for the Kremlin to

immunize the party against indoctrinated disease germs.

of the hated Tito.

A dispatch from Prague, Czechoslovakia says that regular Communist leaders there were taken completely by surprise by the Tito "infidelity." They, the Red leaders, have issued an appeal for the Kremlin to purge the party of Tito adherents, claiming that hostile elements are at work in Germany and Hungary, 22 well as in Jugoslavia.

In Washington today, a leading New York

Department store executive hm told a House Labor

Sub-Committee that his employees belong to a union

headed by an individual whom he described as a "notorious

Communist". A Communist who keeps his store clerks in

line by strong arm methods. He describes it as a

reign of terror.

The Department store executive produced one of his personnel managers to back up the story. The latter told the committee members how one woman employee was dragged from the door of a church, and forced into a picket line, against her will; and how another was told she would get her head cracked if she crossed the picket line.

And, another revelation: When new
management took over a prominent department store in

New York City, the union decided that it would be

"disloyal" to give good service to the customers.

And told their members to behave accordingly. The
management in checking at two stores, found that seventy-

COMMUNISTS - 2

two percent of all customers who came in, left without buying a thing. All because of the brusk way they were treated. They were given the works - the Party Line special treatment.

should not be forced to tolerate. Our political influence throughout the world would be done away with, and we would become a laughing stock, where the signed an injunction banning the strike.

SPECULATION

In Washington this evening the House Investigating

Committee revealed that eight hundred and twenty-three

federal employees played the Commodity market to the tune

of more than two hundred and twelve million dollars during

nineteen forty-six and nineteen forty-seven. But the

Committee found no evidence that any of them used inside

information.

The Committee turned up one financial wizard on the Federal payroll. A nameless girl clerk, who on her salary of three thousand three hundred dellars a year, traded in more than ten million dollars worth of futures. Naturally every one wanted to know more about this feminine wizard of finance. Who is this modest genius who successfully parleyed her meagre salary into a multimillion dollar operation? Did she work single-handed. How did she manage?

The House Committee Report merely identifies her as "a female clerk in the Navy Department". Adding

SPECULATION - 2

that she speculated in wheat, corn, oats, rye, lard, cottonseed oil, cotton, and carloads of eggs; Commodities of which the market price exceeded ten million dollars. Says the Report "It is estimated that this employee realized substantial profits".

congressman Andreson -- who headed the investigating group -- was pressed for further details. All he would say about this financial wizard in the "avy Department was that she was about thirty-five, well-mannered and "pretty reticent about the whole thing". As you can well imagine.

When asked whether she had other resources other than her federal salary Andreson replied dryly, "If the President signs the federal pay-raise bill she will get a ten percent increase on he working capital". The inference being that the young lady had only her salary to invest, when she first ventured into the market.

At his press conference today, President
Truman was asked if Mrs. Roosevelt, meaning Meanor
would be acceptable to in him as a running mate for the
Vice-Presidency on the Democratic ticket. "Of course,
Mrs. Roosevelt would be acceptable," replied the
gallant Missourian. Added Mr. Truman, "What else would
you expect me to say?"

Whereupon Clare Booth Luce, who had originally suggested Mrs. Roosevelt for the second epet, jubilantly agreed with the President. "I think it's a wonderful idea" she said. "Wonderful to have a woman as a Vice-Presidential nominee. I'm sure the Democrats cannot find a woman nore able than Mrs. Roosevelt," said the ex-Congresswoman from Connecticut.

But Democratic leaders in Washington, polled by the press, show no enthusiasm for the idea.

We hear they are as unenthusiastic about the suggestion as they are over the hint that Mr.

Trunan as step down for General Eisenhover.

That has Mrs. Roosevelt to say about it. Through her and secretary at Hyde Park, today,

POLITICS - 2

she said: "I have no intention whatsoever of running for any public office."

Meanwhile, in New York, a group of young Democrats are reported to be conferring with leaders of the Democratic Party on a plan to put the name of Supreme Court Justice William Douglas before the Democratic Convention. The Young Democrats claim to have support for Douglas in thirty-eight states; and they insist they are going to lobby 'round the clock at the convention, for Justice Douglas.
