OFFICIAL PROGRAM
PRICE TWENTY-FIVE CENTS

BANKING SERVICE

for

COLLEGE MEN

College and University graduates will find congenial banking connections offered by this company in four conveniently located centers.

Checking accounts are welcomed and interest credited each month on daily balances. In addition to the usual banking services are those of our Trust, Foreign, Mortgage, Credit and other departments, which are especially equipped to be of assistance to the individual. We assume the care of securities; furnish investment information, stock and bond quotations; assist in the preparation of income tax returns and act for customers in various business and financial matters.

Safe Deposit Boxes and Storage Vaults at all offices.

Fifty-five Cedar Street Madison Ave. at 74th St.
Broadway at 73rd Street 125th St. at Eighth Ave.

STEINWAY

THE INSTRUMENT OF THE IMMORTALS

HENRY STEINWAY
making his first piano

To the early masters, who were keenly handicapped by existing instruments, the Steinway was a consummation which had been devoutly wished. Liszt and Wagner proclaimed it the ideal grand piano. "A Beethoven sonata can only be fully appreciated when rendered upon one of your pianofortes," wrote Richard Wagner.

Today the Steinway is as much a personal product of the Steinway family as it was in the beginning. Four generations have contributed their genius to its onward march of power and perfection. Rachmaninoff, Hofmann, Friedman, Levitzki, Lhevinne—many pianos awaited them—but they found the Steinway still supreme.

In their devotion to the making of so great a piano the family of Steinway have not contributed solely to the requirements of the masters. In addition to the concert grand there is the upright the miniature grand, baby grand, parlor grand, and other styles and sizes. Each of these presents a separate problem in piano manufacture. Each calls for a separate adjustment of creative effort and structural requirements.

And yet, in every Steinway, no matter what the style or size, regardless of mechanical limitations, reposes the inimitable evidence of Steinway manufacture—the quality, which as Ernest Hutcheson has said "converts a machine into a soul."

Any new Steinway piano may be purchased with a cash deposit of 10%, with the balance extended over a period of two years. Used pianos accepted in partial exchange.

Prices: \$875 and up—plus freight

THE COACHES

© Underwood and Underwood

RICE, OF COLUMBIA

James C. Rice first came to Columbia in 1907, after having coached the Weld Boat Club at Harvard. Previous to that he had attained remarkable success at the Detroit Boat Club, where he developed many champions and many title winning crews. Rice is a protégé of Ned Hanlan, the famous sculler, and has been coaching for 32 years. There is but one way to row, he maintains, and that is in the manner that comes most natural.

© Troy

HOYLE, OF CORNELL

John Hoyle first came to Cornell in 1899, as an expert boat builder and rigger. Since that time, all of Cornell's shells, with one exception, have been of his own design and making. For more than twenty years Hoyle worked under Coach Courtney, assuming the post of Assistant Coach in 1909. He absorbed much of the Courtney system and methods, and upon the death of the "Old Man," in 1920, was made his successor.

WRIGHT, OF PENNSYLVANIA

Joseph Wright, Pennsylvania coach since 1915, began rowing many years ago as a member of the famous Argo Club of Canada, of which he became captain and later coach. He has the enviable reputation of having rowed more amateur races than any other oarsman in America. Wright won an American championship in 1885, and twenty years later again captured the title.

TEN EYCK, OF SYRACUSE

James A. Ten Eyck has been rowing coach at Syracuse for twenty years. He has also coached for the Wachuset, Worcester, Ottawa and Duluth Boat Clubs, and at the U. S. Naval Academy. Of international reputation, he has developed numerous amateur and professional single-scuttlers, among them the two fastest amateur scullers of the world, E. H. Ten Eyck and F. B. Greer.

GLEDON, JR., OF THE NAVAL ACADEMY

Richard J. Glendon has been Assistant Coach under the tutelage of his father, Richard A. Glendon, for the past four years. In this capacity he has placed winning "plebe" crews in the Henley Regattas of the last three years. Upon the retirement of his father in 1922, he was made Coach. He is maintaining the same stroke and standard of oarsmanship as originated by Glendon, Senior.

© Gowán (Seattle)

CALLOW, OF WASHINGTON

Russell ("Rusty") Callow, a former Purple and Gold oarsman under the great Hiram Connibear, graduated from the University of Washington in 1916. After graduation he was superintendent of a lumber mill, where he won the confidence of his loggers just as he has won the confidence of his crew in his first year as coach. Callow succeeds Ed Leader, now coach at Yale.

The Seaman Varsity Challenge Cup.

To the Victor

goes the Seaman Varsity Challenge Cup which was designed for us by Charles Dana Gibson and executed in silver at this establishment in 1898.

We have been making trophies for Sporting Events for more than half a century.

We would be very glad to submit designs and prices of trophies for every occasion.

ROWING AT COLUMBIA

Rowing at Columbia dates back further than any other sport. The College took it up in the early '40's, when Harvard and Yale first turned their attention to the oars. In 1871, three years after the Rowing Association of American Colleges was organized, Columbia won her famous victory at Saratoga. The year 1878 saw the 'Varsity competing in its first international meet, the Visitors' Challenge Inter-University Race, over the historic Henley course in England. Rowing with a stroke a little over forty to the minute, they accomplished the unprecedented, and were masters in the first race ever won in England by a foreign crew.

Between 1877 and 1880 Columbia won 15 out of

the 24 races entered. At Poughkeepsie the 'Varsity was the victor in 1895; in '01 pushed Cornell to break the record; and in 1914 won the Regatta.

Columbia opened the 1923 season on April 28, by defeating the Pennsylvania and Princeton 'Varsity and Junior 'Varsity crews in the Childs Cup Regatta on the Schuylkill. The following week the 'Varsity lost to Yale, and defeated Pennsylvania, on the Housatonic, at Derby. In the same Regatta, the Junior 'Varsity took second place against the Penn and Yale Junior 'Varsity oarsmen. Returning to the Harlem on May 19, the Columbia crews triumphed over M. I. T., in both 'Varsity and Junior 'Varsity events, but lost to Penn in the 150-lb. and Freshman races.

ROWING AT CORNELL

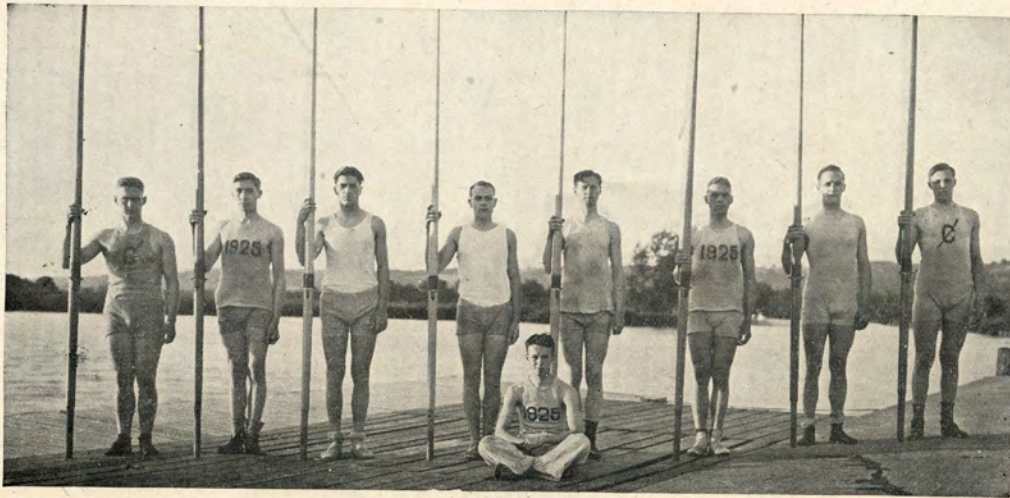

Interest in rowing at Cornell began almost with the founding of the University in 1868. After Mr. Courtney came to Cornell in 1878 as Crew Coach, successes for the Cornell crews began. From that time until 1920, when Mr. Courtney died, his crews made comparatively good records. Cornell holds many records on the Poughkeepsie course, including the 'Varsity four-mile, Freshman two-mile, four-oared two-mile, and Junior 'Varsity two-mile. Upon Mr. Courtney's death, John Hoyle took the helm and is endeavoring to follow in the footsteps of the "Old Man."

The registration for Crew last fall was not as large

as in the preceding year, but included most of the 'Varsity and Freshman oarsmen who participated in the races at Poughkeepsie last June.

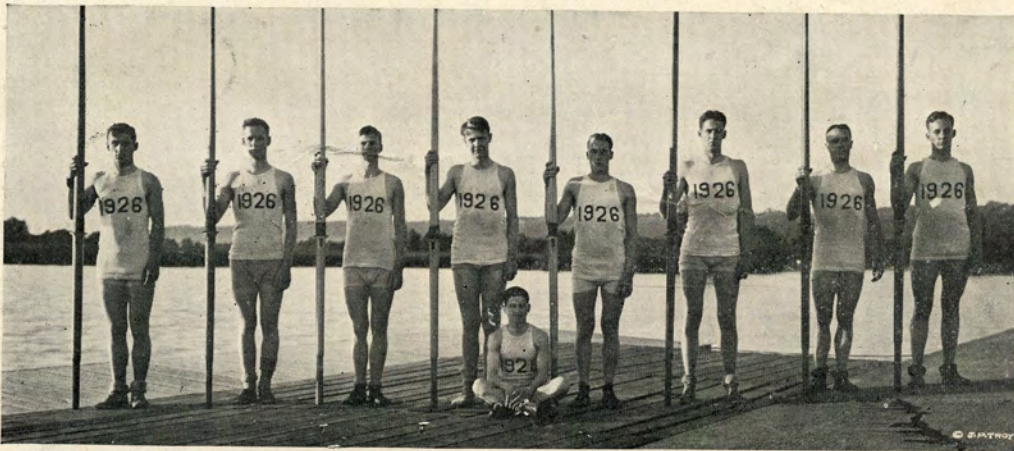

In the Triangular Regatta on Lake Cayuga Cornell finished second, Yale leading by two lengths. In the second race of the season, Cornell won from Harvard on the Charles by $1\frac{3}{4}$ lengths, the conditions for rowing being very unfavorable. The Freshman boat in their first race of the season finished first, leading the Yale Freshmen by three lengths and Princeton by a greater margin. One week later on the Charles, they led the Harvard Freshmen to the finish with a lead of three lengths.

EDWARD WHEELER, *Captain*

CHARLES VICTOR BARRY, *Manager*

ROWING AT PENNSYLVANIA

Rowing at Pennsylvania began in 1854, with the formation of the University Barge Club. The first important series of intercollegiate races were those for the Childs Cup, between Pennsylvania, Columbia and Princeton. Between 1879 and 1891, Pennsylvania won eight and lost only two. In six of the Intercollegiate Regattas, started in 1880 and composed of crews from Pennsylvania, Princeton, Cornell, Wisconsin, Bowdoin, and Wesleyan, Pennsylvania won twice, was second twice, and third once. The first intercollegiate at Poughkeepsie, were held in 1895. That year the Pennsylvania Crew was wrecked, and took third place during the next two years. In 1898,

1899 and 1900 the Pennsylvania 'Varsity won the Regatta. In 1901 the 'Varsity crew competed in the Henley Regatta for world honors, defeating the London Rowing Club and the Thames Rowing Club, and being defeated by a scant length by Leander.

Pennsylvania abandoned rowing during 1917, but established two course records during the next two years, one in the Childs Cup Race in 1918, and the other at Yale in 1919. In 1921 the crew defeated Yale and in the Intercollegiate Regatta, defeated Syracuse and Columbia. Last year the Penn crews won 8 first places, 4 seconds, and 3 thirds. To date this year they have lost 3 races to Navy; won 3 and lost 3 to Columbia; won 2 and lost 1 to Yale; won 1 and lost 1 from Harvard; and won 4 from Princeton.

SYRACUSE

1923 'Varsity

JULIUS HOWARD, *Captain*

PAUL MOORE, *Commodore*

ROWING AT SYRACUSE

Rowing was organized at Syracuse University in 1900 under the direction of Mr. E. R. Sweetland. Handicapped by inexperience and poor training conditions, the first Orange crews were not very successful. In January, 1903, James A. Ten Eyck, of Worcester, Mass., was engaged to take charge of crew work. Under his able guidance, Syracuse forged rapidly to the front, and in 1904, the 'Varsity eight won the Poughkeepsie Regatta, repeating this performance in 1908, 1913, 1916 and 1920. The 1920 'Varsity, after winning at Poughkeepsie, lost out by only a few feet to the Navy oarsmen in the Olympic tryouts at Worcester. The Junior 'Varsity and Freshmen

boats also have a goodly number of victories marked up.

This year about 150 'Varsity men and 250 Freshmen reported for Crew. Daily workouts were held in the rowing tank, the only one of its kind in the world.

On March 15 the crews took to the water of Onondaga Lake, only to be forced back to the rowing tank several times because of weather conditions. The first race was held with the United States Naval Academy at Annapolis, on May 19, the 'Varsity, Junior Varsity, and Freshmen crews competing. Although the Junior Varsity was the only boat that won their race, the 'Varsity and Freshmen Crews put up and lost hard-fought races.

HUGH MIDDLETON, *Manager*

ROWING AT WASHINGTON

The University of Washington has won a high place in the rowing world and within the past few years has come to be a team to be watched in all regattas. Washington has won first place eleven times in dual and triangular regattas with California and Leland Stanford. This year's crew is notable for acquiring the Pacific Coast title with a seven-length victory over California on April 21. A second regatta was held with Wisconsin on Lake Mendotta on June 16,

when Washington won by a safe margin. Rowing critics believe that this year's eight is as fast as that which put up such a good fight at Poughkeepsie last year and was only defeated by the Navy. The Puget Sound country is situated with ideal climatic conditions for crew, and Coach Callow is able to turn out on Lake Washington the year around. He spends his entire time as rowing coach and is fortunate in having a large crew house which at one time was a government aviation hangar.

ROWING AT THE U. S. NAVAL ACADEMY

Rowing was first taken up at the Naval Academy in 1855. From that time until 1899 professional coaching was not enjoyed by the Midshipmen Crews. Navy men did the coaching during part of this period; at other times Yale men came down and assisted. Mr. James Ten Eyck, who is now coach at Syracuse University, was the first professional to be employed. He worked with the Midshipmen for three years without any decided success, as the time that his system demanded was not available at the Naval Academy.

Richard A. Glendon came in 1902 and was very successful up until the time of his retirement in 1922. He was succeeded by his son, Richard J. Glendon, who had assisted his father in coaching for four years previous to his appointment as Head Coach. Glendon, Jr., has followed in the footsteps of his father, and the crew has had a very successful season under his guidance, defeating Pennsylvania on April 21 over the Henley distance; Harvard and Princeton at Princeton, N. J., on May 5; Syracuse at Annapolis on May 19, and Massachusetts Institute of Technology over the Henley distance on April 28.

Greater Gift Hath

No Man---

It's not always the team in the best condition that wins. But being fit as a fiddle doesn't hurt their chances any.

As in the field of sport, so in the business of life. Fine, physical condition is the prime requisite to "get there."

Thousands of people are learning the new way to robust, enviable health. Two or three times a day they are eating—

FLEISCHMANN'S YEAST

—the fresh, natural food that makes you fit and keeps you fit. It is the richest known source of Vitamin B, on which health and vigor so largely depend.

It keeps the body free of poisonous waste—corrects that dread ill—constipation. Enables you to eat more and get more benefit from the food you eat.

Your grocer has it. Ask him.
