

MID EAST

Fri. Oct. 3rd. 95.

Despite objections from Secretary Kissinger,
the Senate Foreign Relations Committee today voted
in favor of publishing any and all secret ~~and~~ commitments
made ~~also~~ to Israel and Egypt by U S negotiators. Idaho
Senator Frank Church - ⁱⁿ ~~is~~ announcing this ~~action~~ also
predicted ~~also, that~~ Congress, next week, will approve
the use of American technicians in the Sinai - as
monitors for an Israeli-Egyptian ^{cease-fire} ~~peace~~ agreement.

①
R The hitherto so-called Secret Commitments include
assurances of U S military assistance to Israel if
needed, ^{and} a U S pledge not to ~~even~~ recognize the
P L O as long as it refuses to recognize Israel; also
~~and~~ assurances of economic assistance to Egypt; all of
which was previously leaked to the news media -
so we knew about this.

TURKEY

Congress today completed action on legislation
~~that particularly~~ ^{to} lifts the current embargo on the
sale of arms to Turkey. ~~And~~ The White House says
the U S now ^{hopes to} ~~will seek~~ negotiations ^{the} ~~restoring~~ ^{ation of those} twenty-
six American bases ^{- get them back in} ~~in Turkey to full operation~~ operation.
The Turkish ^S ~~government~~ curtailed ^{on} ~~these~~ operations
when Congress imposed the arms embargo following the
Cyprus dispute ^{and the} ~~charging~~ that Turkey had used the
U S arms illegally.

And now this in -

FORD

Turn his record
President Ford, ~~ran his~~ string of vetoes

to thirty-nine ~~today~~ - this time setting aside a three billion dollar school lunch bill. The President saying federal subsidies should not be extended to families who don't need them. The veto, however, does not abolish the existing school lunch program which will continue pending approval of a new one.

JOBS

For September at
National unemployment ~~dropped to~~ its lowest
level in seven months. ~~during September - with some~~
Some
one hundred ^{and} eighty thousand laid off workers returning
to their jobs.

STOCKS

The New York Stock Market today scored its best gain in more than a month - ~~the Dow Jones~~
~~Average rising~~^{up} more than eighteen points, ~~to eight one~~
~~three.~~ A brighter interest rate picture was regarded
as a factor in the rally.

NEW BRIEFS

Republican Congressman ~~Robert~~ Michel of Illinois says the federal government's student loan program may have been ^{quote} "taken for some five hundred million dollars" by unscrupulous training schools."

In Vancouver, Canada at least sixteen workers were injured when an explosion ripped a grain elevator complex on the waterfront.

And in Kansas City, striking firemen - seeking more pay refused to answer fire alarms. So Policemen and public works employees went into action as emergency fire fighters.

WEATHER

Snow ~~fell~~ today in New Hampshire, ^{over the Presidential Range;} freezing
weather ^{as far south as} ~~griped north~~ western Arkansas. - ~~and~~
The mercury ^{hit} ~~fell to~~ record ^{low} ~~low~~ from New England
to the deep South. ~~It was~~ Twenty-six degrees ^{in the}
~~and chilly~~ ^{mountains} at Beckley, West ~~Be~~ Virginia; ~~and~~ also at
Slippery Rock, Pennsylvania. - ^{That of course is the} home of the do or die
Slippery Rock College football team.

FOUNTAINS

We know from history that Ponce de ~~de~~ Leon wandered ~~and~~ through most of Florida and a good part of the American south - searching for ^{that} a legendary Fountain of Youth. ~~And~~ now we're told ~~that~~ our Spanish explorer ^{with the musical name} may have been ~~several~~ ^{5 or} hundred miles off ~~his~~ course - and ~~perhaps~~ should have conducted his ~~fruitless search~~ search in a ~~tiny~~ valley in southern Illinois. ~~At least~~ Wayman Presley ^{says so. Presley} ~~who is age~~ seventy-nine, ~~himself - thinks so,~~ a retired mail carrier, ~~Presley~~ used to wonder why so many people ^{the} in Water Valley ~~and~~ Pleasant Ridge community lived so long - an Illinois Hunza. ~~to such ripe old ages,~~ He decided to investigate and his theory is that some two hundred springs - bubbling out of fossil limestone formations - provide ^{almost insures} the water that ~~provides~~ longevity. ^{He hopes} ~~Presley is hoping~~ ^{this. I wonder} ~~some scientific group~~ ^{its} will pursue ~~his theory~~ ^{his theory} further if some of our listeners will immediately take off for this southern Illinois Shangri-La? And now this

DANCING

Overland Park, Kansas, - hoping to acquire fame ~~in the world~~ as the "belly dancing capital of the world" is host to more than a hundred ladies who seek acclaim in a wiggly and shake marathon. ^{That is} They'll ~~will~~ try to belly-dance for at least six hours - and thereby winning a mention in the Guinness Book of World Record. One ~~dancer~~ dancer ~~says~~ says she also wants to help liberate the belly dance from ^{what she terms} its erotic ~~innuendo~~ and somewhat ~~sex~~ seamy background. Adding:

"Dignity is very important to the belly dancer."
Wonder if any in our radio audience knew this?

3/4
And now for CBS
