

PRESIDENT

Mon. Nov. 14 - '66

After ten days of rest and relaxation at his Texas ranch - President Johnson returned today to Washington. Looking fit and feeling "very good" - as he put it. Immediately tackling twenty-four hours of ~~the~~ clean up work - preparatory to his operation Wednesday at Bethesda Naval hospital.

ADD PRESIDENT

By mutual agreement - Vice President ~~Hubert~~

Humphrey will make any required Presidential decisions;

while the President is under anesthesia - or otherwise

incapacitated. The understanding - similar to that in

effect between the last two Presidents and their Vice

Presidents; <sup>is</sup> now in the form of a constitutional amendment -

in the process of being ratified by the various states.

## SPACE

Another spectacular day in orbit - ~~today~~ - for Gemini Space twins Jim Lovell and Buzz Aldrin. The big achievement - a series of unobstructed pictures of the sunrise - and the stars of the Milky Way. Taken by space walk champ Aldrin in an hour-long open hatch space stand. While command pilot Lovell performed the difficult task - of keeping their crippled space craft on an even keel.

The problem - same one that has plagued the Gemini-Twelve since early Sunday. A mal-function affected rocket-control in three of the space capsule's eight stabilizing thrusters. With resulting loss of fuel, ruling out the possibility of another rendezvous with their orbiting Agena target rocket.

In the alternative - Astronauts Lovell and Aldrin settling down tonight ~~for~~<sup>for</sup> their last full day of flight. Routine chores including the dumping of garbage

**and excess equipment - that have accumulated during the mission. "After this one" - radioed Gemini-Twelve - "you can call ~~on~~ us the litter-bug flight."**

**LODGE**

*Here at home - an assessment of the war - today  
from Henry Cabot Lodge - U S Ambassador to Viet Nam.*

*An assessment - both proud and cautious, as contained  
in a copyrighted interview in U S News and World Report.*

*Lodge observing that American military might -  
has scored tremendous success against the "army of North  
Viet Nam and the main force battalions of the Viet Cong."*

*To the point said he - where there is very  
little doubt about the outcome of the military situation.*

*But "~~when~~ we have beaten" these forces - said  
Lodge - "we have simply won the opportunity to get to the  
heart of the matter. And that - ~~is it~~ <sup>he added</sup> - "is more than  
a hundred and fifty thousand terrorist guerrillas - highly  
organized throughout the country."*

VIET NAM FOLLOW ~~KK~~ LODGE

As if to underscore Lodge's remarks - a new surge of Communist terrorism - today - in Viet Nam itself. The most brazen attack - in Saigon, Where Viet Cong infiltrators blew up an ammunition bunker - barely a hundred yards from the quarters of Lieutenant General Lewis Walt - U S Marine commandant in Viet Nam.

The <sup>^</sup>communists ~~was~~ evidently using a satchel charge of plastic explosives - to set off the arms cache. Though there were no casualties - the resulting blast ~~was~~ <sup>was</sup> enough to damage <sup>Gen.</sup> Walt's bungalow - giving him his second close ~~to~~ brush with death in recent weeks. The General riding in a helicopter only last ~~month~~ month - when he was nicked by a piece of shrapnel ~~from~~ <sup>from</sup> enemy ground fire.

Meanwhile, on the fighting front - a saturation bombing attack today, by ~~these~~ <sup>two</sup> ~~big American~~ B-fifty-tuos, on suspected Viet Cong positions - in war zone "C", Near the ~~to~~ Cambodian border. This the same area -

**VIET NAM FOLLOW LODGE - 2**

**where a Communist battalion ambushed a force of U S  
infantrymen over the weekend - inflicting heavy casualties.**

## LONDON

*In London - confirmation at last of persistent reports - that Soviet Premier Kosygin will visit Britain early next year. The official announcement - from British Prime Minister Harold Wilson; who said that Kosygin will arrive in Britain on February Sixth - following a visit to France and another to Turkey.*

*Wilson adding that a "maximum amount of time during Kosygin's visit will be spent on talks." These said he - to deal chiefly with Viet Nam - and also a search for methods of halting the spread of nuclear weapons.*

*Altogether - a hopeful sign that Russia is seeking increased cooperation with the West - despite the continuing war in Viet Nam.*

ADANA

A mob of some six thousand Turks - ~~went~~ <sup>went</sup> on an Anti-American rampage today in Adana - Turkey's fourth largest city. After failing in an attempt to lynch eight U S airmen - all negroes - accused of behaving improperly toward local women.

With the airmen quickly taken into protective custody by police - the mob venting its wrath on anything American it could find. All but destroying at least forty five American cars - and damaging the U S Red Cross center - the U S consulate and the U S Information Agency building.

Heavily armed police finally setting up barricades ~~barricades~~ in the city center - to contain the riot. In the end - arresting about thirty-five of the <sup>demonstrators.</sup> ~~demonstrators~~

The eight airmen - on furlow from the ~~largest~~ largest U S military installation in Turkey - at nearby Incirlik.

## CALCUTTA

For the second time in a week - a violent outbreak of religious strife today in India. The latest incident - on the outskirts of Calcutta.

A Hindu religious procession passing a suburban mosque - when a congregation of Moslems came streaming out ~~to~~ after prayers. <sup>Some</sup> Pushing and shoving leading to a battle royal, 'Till police arrived at the scene and dispersed the ~~thre~~ two groups with teargas. However, the battle later rejoined - in another section of <sup>the city.</sup> ~~the city.~~ Both Hindus and Moslems turning on the police - when the latter arrived again to put down the riot. Police finally forced to open fire - killing at least three and wounding several others.

## COURT

~~States~~ In Washington - the U S Supreme Court <sup>today</sup> refused ~~to~~ to intervene in the case of Mark Wendell Painter. Young Mark - you <sup>may</sup> recall - the eight year old son of a California photographer who was denied custody of the boy - <sup>— the photographer —</sup> on the grounds that he was "unstable, unconventional, arty, bohemian, and probably intellectually stimulating."

The high court, by today's ruling - thereby upholding a lower court decision to the effect that Mark would be better off - in the "stable, conventional, middle class" surroundings provided by his grandparents - an elderly Iowa farm couple.

Another ruling today by the Supreme Court - in sharp contrast to past policy; that of throwing out convictions of Civil Rights demonstrators - charged with violating local laws. By a vote of five to four - the court now upholding the conviction of thirty-two negroes arrested for ~~trap~~ trespassing, when they refused to break up a

***Nineteen Sixty-Three demonstration on the jail house  
lawn at Tallahassee, Florida.***

NEW YORK

The case <sup>for</sup> advertising <sup>NRA</sup> presented today in New

York, by President Vincent Wasilewski of the National Association of Broadcasters, In answer to what he called "sharp and persistent criticisms of advertising from high Washington officials - over the past few months. Wasilewski asserting that advertising contrary to common belief - does not contribute to high costs - but rather keeps prices down - by ~~taxation~~ encouraging - mass production. At the same time - said he - advertising generates immense benefits - which are subsidiaries to its main purpose. As for example, underwriting the expenses of virtually all American information media, radio, television, newspapers and magazines.

Wasilewski concluding that "when advertising is threatened - all media are mutually threatened.

## WASHINGTON

*The threat of extinction - rapidly closing in on the railroad ticket taker. According to this next - a Washington report - on the latest in automated commuter railroad equipment.*

*It's a new magnetically - en-coded train ticket = about the size of a credit card - yet big enough to contain seven hundred bits of data. As such - the key ingredient in a new system - for validating fares at stations rather than on commuter ~~grains~~ trains. The card simply dropped in a turn-stile which - reads it and automatically ~~etc~~ cancels one fare.*

*The system tested for a year - on the heavily travelled Long Island Railroad, ~~proving~~ Proving its worth - in speeding up rail operations. Also showing that it is counterfeit-proof - and the card itself will even survive the family ~~washing~~ washing machine.*

*Just one catch - that may save the old style ticket taker for a few more years. Broad scale application of the new system - is said to be ~~very~~ <sup>inexpensive</sup> expensive.*

## PRINCE

Here's a little item that falls under the heading -  
of "my how time flies". Britain's Prince Charles, ~~is~~  
12 eighteen years old, as of today. A full-fledged man - by  
royal standards. Fully qualified to assume ~~the~~ British  
~~rule~~ <sup>rule</sup> - in the event of his mother's death or abdication - ~~and to~~  
10 without his father having to act as regent.

Queen Elizabeth herself is only forty - and  
in obvious good health - which makes the ~~young~~ young Prince's  
right of succession largely academic. Ah, but perhaps more  
important to a young man of eighteen - is the fact that he  
can now drink legally in a pub - he can get a license to  
drive a car - and his weekly allowance increases  
automatically to sixteen ~~the~~ hundred dollars a week.

Not to mention the additional ~~likelihood~~ likelihood  
that his mother will soon proclaim him - the Prince of  
Wales. Ultimate honor - for the <sup>(eldest)</sup> ~~eldest~~ son of a reigning  
14 British monarch. ~~And~~ - s - l - u - t - m.
