

CONGO

L.T.-Olas Mon. Aug 29 60

A dispatch from Elizabethville capital of Katanga says that civil war is now raging in the Congo. Apparently the Congo forces under Lumumba have ~~been~~ invaded Katanga, the rich secessionist province, the copper, cobalt and uranium region. A dispatch tonight says a fierce battle is on - with many casualties.

The question is, has Katanga had time to get set for Lumumba's attack? Premier Tshombe has been vowing to fight to the death, and the news from his capital is that he has blown up the bridges along all possible invasion routes, and has his forces dug in along the border.

We also hear that anti-white violence remains a threat in Lumumba's part of the Congo. American Ambassador Timberlake, has protested the incident on Saturday when eight American airmen were clubbed by Lumumba's men. Timberlake demands that the Congo government do something to prevent anything like it again.

BIKINI

At Dartmoor, in England, Brenda Belrue, an eighteen year old English beauty can't understand local opposition - to her theatrical performance.

Dartmoor is - England's famous prison, and Brenda, the star of the troupe is entertaining the inmates. One act of her show, a scene at the beach - features Brenda in a bikini.

The head of the prison, took one look at her, at a rehearsal and, said: - "This is too much." I mean too little. He pointed out that many are in Dartmoor for a long stretch, and he's sure that beach scene would be in his words: - "extreme mental cruelty."

Brenda is outraged. Says she: - "what's wrong with a bikini." Says the Dartmoor prison superintendent - it's too much! I mean too little.

JORDAN

Amman, capital of Jordan - under martial law.
Soldiers of the Arab Legion - patrolling the streets.
Tanks, stationed - in the main square. No groups allowed
on the streets.

This, following the assassination of Premier
Hazza Al-Majali. The Premier - pro-western, was meeting
with his cabinet - in Amman's Foreign Ministry Building
when a time-bomb went off. The Premier, and some ten
others - killed, and fifty - injured. The force of the
explosion so great - it wrecked the foreign ministry
building.

King Hussein - acting swiftly; throwing a military
cordon - around Amman; summoning his Arab Legion - to
maintain order. The Arab Legion has often called the
only reliable force keeping King Hussein on his Jordanian
throne.

The "declaration of San Jose" is a strongly worded document. The Organization of American States - making an unequivocal anti-Communist statement, ~~condemning~~ - Soviet and Red Chinese interference in this hemisphere.

Altho The declaration doesn't mention Castro - ~~but~~ ^{it} is clearly aimed at him. That's ~~why~~ why the Cuban delegation to the conference in San Jose, Costa Rica - walked out. All the remaining nineteen members - reaching an agreement.

Secretary of State Herter left immediately after ~~ward~~ - for Washington. ~~Our Secretary of State,~~ saying at the airport - that Castro has been indicted for his willingness to act as Khrushchev's henchman in America. And the member nations of the O.A.S. are not at all persuaded that the United States is about to attack Cuba.

The San Jose session ^{ends as} ~~something of~~ a triumph for ~~Secretary~~ Secretary Herter - who asked for, and got, a straight-forward ~~and~~ condemnation of Castro's Communism. The Herter position, summed up in - "the declaration of San Jose."

More anti-Castro plots - in Cuba. So revealed
by - Castro himself. His press, referring to - Pinar Del Rio
Province, ^{tells} ~~telling~~ of twenty-five conspirators - rounded up
today, ^{and} ~~Predicting~~ more arrests to come. The prisoners ^{are}
called "Pro-Batista" and "Pro-American". Castro, ^{today} ~~calling~~ ^{ed} on
his followers to increase their vigilance ⁱⁿ in the face of
growing internal opposition to his regime.

ROCKETS

A new kind of launching pad is being developed - for sending rockets into outer space. Commander John Drain - speaking before the Space Conference in Hannover, West Germany, says our new launching pad is - the sea. Rockets, to be based on the oceans of the world. He says the surface of the ocean is stable enough to support the biggest rockets.

And there's a lot of water. Two thirds of the planet - covered by the oceans and seas. Giving rocketeers endless strategic points - from which to fire their missiles into orbit. Also, it's easier to transport equipment - by sea. Cheaper - too.

PLANE

The crash of that French plane at Dakar, Senegal, took place in a blinding rainstorm. An Air France passenger plane - enroute from Paris to the Ivory Coast. The pilot, making ~~his~~ three runs - at the Dakar airstrip. The visibility, ^{was} so bad - he was warned off twice. Then, circling out over the Atlantic for a third try, - in a torrential downpour, and high winds, ~~The~~ plane, suddenly plung^{ed}~~ing~~ into the water - exploding. The toll - sixty three dead.

CONGRESS

The medical bill passed in the Senate today - isn't what either party wanted. Vice President Nixon, opposing it - as too narrow in its benefits. Senator Kennedy, opposing it - because he still wants to put medical care for the aged under Social Security.

The Senate, refusing to go along - with either Nixon or Kennedy. Passing this bill by an overwhelming majority - seventy four to eleven. Now the bill goes to the White House - where ~~is~~ President Eisenhower is expected to sign it. But, no one on Capitol Hill believes - this issue is finished. All observers, agreeing - we'll hear more about medical care ~~is~~ for the aged during the coming election.

NIXON

Vice President Nixon is suffering from- an
infected knee. The G O P Candidate ^{has} enter^{ed}~~ing~~ Walter Reed
hospital where he will be for two weeks. The infection
started when the Vice President knocked his ^{knee} against a
car door. The ailment aggravated -- by the strenuous Nixon
political campaigning.

JACKSONVILLE

In Jacksonville, Florida, a federal judge has
handed down stiff sentences - following ~~those~~ weekend
riots. Whites and negroes - fighting through the streets.
No fatalities - but
~~one fatality~~ and many injured.

Judge John Santora, ^{today} passed judgment - on twenty
five white men and ~~in~~ fifty-seven negroes. Giving the
biggest sentence to Richard Parker - ninety days in a road
gang.

Parker ^{is} a student at Florida State University, ^{any}
Also - a member of the N.A.A.C.P. That's an ironic twist -
a white man drawing the biggest penalty for a negro ~~in~~ sit-in
~~in~~ demonstration. And there's more irony to it - than that.
Parker probably won't ever serve - his ~~in~~ sentence. He was
attacked in jail, by a segregationist - and badly beaten.
Tonight Jacksonville - is simmering ^{with} Negro leaders
- dropping their sit-ins for the time being. But promising -
the fight against segregation in Florida will go on. ~~But~~
A lot of segregationists - saying they're willing to fight, too.

OLYMPICS

America's first gold medal ~~in~~ winner of the Rome Olympics - had to come from behind to win. Gary Tobian, taking the three meter spring board championship - by overhauling his two opponents who had gone ahead of him. His final dive - giving him the points he needed to win, Mexico's Juan Botella, losing - when he failed to pull off ^{his} ~~the~~ tough two-and-a-half backward somersault. Placing second - America's Sam Hall. Meanwhile, the Russians are in command - of the canoeing races. Soviet athletes, paddling their canoes so well - they've taken three out of seven gold medals.

~~and~~ The United States basketball team, ^{continues its march;} ~~is running true to~~

~~score~~ Knocking off Hungary - a hundred ~~and~~ ~~seven~~ and seven to sixty-three. ^{Again led by} ~~led by our ace,~~ Cincinnati's "Big O" -

Oscar Robertson.

PREHISTORIC

The National Geographic Society tells how it took thirty years - to find a skull six hundred thousand years old. Professor L. S. Leakey, of Kenya, spending three decades in the Olduvai Gorge of Tanganyika. But it was his assistant - Mrs. Leakey, who made the great discovery.

The two anthropologists were sifting through the clay of Olduvai Gorge and were finding hundreds of artifacts - remains of a Stone Age culture: primitive weapons, rude ornaments, chipped bones - and so on.

But Professor and Mrs. Leakey were looking for - something far more spectacular; far more rare, and Mrs. Leakey was the lucky one. First turning up - a couple to teeth, later she found an entire skull, a human skull - Dick - no question about it, that belonged to a man who lived in Tanganyika's Olduvai Gorge - ^{hundred} six/thousand years ago.

BULL

It all happened in San Sebastian, Spain, in reverse. El Toro - beating the matador. In fact, he beat three of them.

The first matador, Angel Lopez, hardly had time to shake out his cape. The bull, catching him off balance at the first pass - throwing him high in the air. Angel Lopez knocked out - carried from the bull-ring. Whereupon brave Pedro Perez - took over. Pedro, lasting longer - until he got too close to the bull. One horn, side-swiping Pedro. So he, too, left the bull ring on a stretcher.

Third came Constantino Sanchez. Constantino - the reserve bullfighter. An old pro - supposed to be able to handle any bull. But, apparently this particular bull - hadn't heard about Constantino's reputation. At any rate El Toro charged ignored the cape and charged Constantino Sanchez; sending him flying - head over

heels. Constantino, the third matador - to be carried out.

By now they had run out of matadors in San Sebastian. The men of the Cape and Sword - all under repair in the infirmary. El Toro, remaining - King of the bull-ring; tonight back in his pasture as his reward for getting the better of three famous matadors.
