

ATTACHE

L.T.-Olas. Fri. Oct 5, 1962

The expulsion of our naval attache from Moscow -
Soviet retaliation for the two Soviet spies ~~that~~ we expelled.
Retaliation - the usual Kremlin practice. The American Embassy
in Moscow has been ready for something like this - ever since
those Two Russians at the U N were picked up by the F B I.

The American caught in the middle - Commander Raymond
Smith. He's accused by the Russians - of engaging in espionage
during a visit to Leningrad. Given until Monday - to be out
of the ~~Soviet~~ Soviet Union.

Washington
~~Our State Department~~ denies the charge, ~~of spying~~
and protests to the Soviet government - that Commander Smith
was treated abusively by ~~the~~ the Soviet police.

COMMUNISM

The Kremlinologists of the free world are keeping a close watch on - an interesting triangle. A geographical triangle - connecting Moscow, Belgrade and Peking. ~~A political triangle - connecting Khrushchev, Tito and Mao Tse Tung.~~ Actually - "dividing" would be a more appropriate description.

Tonight, the alignment looks like this - Khrushchev and Tito versus Mao. The Soviet and Yugoslav dictators - cordial with one another. Khrushchev, inviting Tito to Moscow - in return for Tito's hospitality to the President of the Soviet union.

As for Tito and Mao; They're not speaking to ~~an~~ one another - except in epithets. Today, Belgrade accused Peking - of insulting the leader of Yugoslavia. The Chinese Reds, answering - by repeating the insults. ^{Again} Calling Tito - "a turncoat and a renegade."

~~I wonder how~~ ^{With} Khrushchev ^{on the sidelines watching} ~~feels about~~ the quarrel between Tito and Mao.

VIET NAM

The news of more American casualties in South Viet Nam ^{is a} reminder ^{it} ~~is~~ that the jungle war still goes on. American technicians, still in the line of fire - as they help the Vietnamese army in ~~the~~ the war against the Red guerrillas.

The latest American casualties - members of our helicopter crews. Several of the whirly birds ~~were~~ hit by Red guns - while ferrying troops across the jungle. Two of them - crashing. The ~~is~~ toll - one dead, two wounded.

~~Still~~ ^{But} the military operation ^{is reported} ~~was~~ a success.

The loyalist troops, ~~against~~ again landing - in the rear of the Reds. Winning another battle - in the campaign to drive the guerrillas from the Plain of Reeds.

FRANCE

The name echoing across France tonight - Louis Napoleon. Remember how the nephew of the great Napoleon - got himself elected President of France in Eighteen Forty-eight? Then, staged his coup d'etat - by imprisoning his opponents and appealing to the French people? Result - Louis Napoleon, becoming Emper^{or} of Napoleon the Third.

Something similar is happening in France right now - if you can believe DeGaulle's opponents. Or rather, it won't happen if they can prevent it. They've rejected DeGaulle's hand picked Premier - by a vote of no-confidence. Now, they want to head off DeGaulle himself - when he goes to the people of France. ^{they say} Head him off - before he too becomes an Emperor.

DeGaulle's supporters are making - the obvious retort. Insisting that Louis Napoleon - did not believe in democracy. And that DeGaulle - does.

YEMEN

In Yemen, both sides agree - that somebody has been "annihilated." Just ^{who}~~one~~ - isn't clear. Radio broadcasts, reporting to originate in the capital city of Sanaa - contradict one another. The first, declaring - that the military junta is still in power. The second, claiming - that the junta has been overthrown by the new Imam of Yemen. Both broadcasters, using the term "annihilation."

So what does "annihilation" mean in Yemen, ~~in~~
ⁱⁿ ~~on the~~ southern ^{western} ~~coast~~ of the Arabian [?] peninsula?

MISSISSIPPI

Federal authorities believe ~~that~~ this is the critical weekend - in Oxford, Mississippi. If there is no serious trouble - they ~~can~~ think there won't be any later on. The decision, up to the old grads - who are taking part in homecoming week. The football game was shifted to Jackson - *to avoid trouble at* ~~more effort to keep~~ Oxford; ~~and~~ *and* quiet. The authorities hope ~~that~~ the old grads of Ole Miss - 'keep it that way *at Jackson too.*

Meanwhile, soldiers and marshals - are being pulled out; *fewer armed men* ~~only the necessary minimum~~ to see that James Meredith is not molested, as he attends lectures in the now -- integrated university.

ATOMIC

The use of nuclear power for earth-moving projects - is feasible. So reported by the Atomic Energy Commission - referring to an atomic blast in our Nevada series. The device was touched off - more than six hundred feet under ~~the~~ ground. Its explosive power, so great - that it erupted through the surface of the desert. Hurling a column of earth - two thousand feet into the air. Leaving a crater, three hundred feet deep - and a thousand feet in diameter.

The most important point, with regard to peace time building projects - ninety-five percent of the radiation was trapped underground. *The AEC says* This use of atomic energy *is* entirely safe.
