POPE

47
There was a flurry of excitement today -- in Washington and here in especially New York, following Vatican confirmation of the Pope's plan -- to address the United Nations on October the Fourth.

CRIME

President Johnson met for the first time today -- with his new National Crime Commission, urging its members -- "to be daring, creative and revolutionary," In their search for reasons why increasing numbers of Americans -- are breaking criminal laws.

"Find the answers" -- said he -- and "I will try to see that corrective action is taken."

KASHMIR

With Indian officials further warning -- that India will open still another front in the East -- if Pakistan "compels it to do so."

The two new drives -- apparently in reprisal for the aerial bombardment of Fort Dworka -- near Bombay, ^{and an} ~~attempted~~ attempted Pakistani air raid -- on the Indian capital, ^{of} New Delhi, ^{that we are told was} ~~which~~ turned back within a mile of the city. ^{So} ~~say~~ say the Indians. border areas.

^{is} The Chinese note ~~the~~ ^{Of course} second in two days. ~~Increasing~~
~~the~~ fears of Chinese intervention -- on the side of Pakistan --
in its undeclared war with India.

The two notes all the more ominous -- in that they
parallel a similar series of Chinese ultimatums, ~~those~~ that
preceded the Chinese attack on India -- in their border war of
three years ago.

RUSK FOLLOW CHINA

Here at home -- first official announcement today -- of a government embargo on arms shipments to both India and Pakistan. Secretary of State Dean Rusk -- ~~farther~~ adding that the U.S. will not grant any more economic aid to either nation, ~~without~~ first consulting -- key Congressmen.

The lone survivor explaining that he and his friends -- had waited patiently for a freight train to pass. But that he was the only one who saw the second train -- coming from the opposite direction.

POTATO

5 1/2
A plan to send a potato into space ^{was} ~~λ~~ disclosed today in a dispatch from Detroit, where the Space Defense Corporation -- has developed a tiny space capsule for just that purpose.

The experiment planned in hopes of unlocking the mystery -- of what controls the rhythms of all living things on earth, ~~The~~ ^s ~~my~~ ~~te~~ ~~r~~ ~~y~~ of why we all eat, sleep, laugh and love -- in periodic cycles.

The lowly spud chosen for the job -- because its biological rhythms are few -- and rather easily defined, ~~E~~ ~~s~~ ~~p~~ ~~e~~ ~~c~~ ~~i~~ ~~a~~ ~~l~~ ~~l~~ ~~y~~ in space -- where it will be relatively free -- from the forces of the sun, the moon and the earth's gravity.

BIBLES

In Chicago -- a display of some of the world's oldest and rarest Bibles, ^{was} Presented today -- by the Chicago Bible Society.

Among the exhibits -- the world's largest Bible, ^A handwritten text -- two feet wide by three feet tall. Also the first Bible printed in English -- a first edition from the works of Martin Luther -- and twenty-nine pages from the original Gutenberg Bible.

Plus one of the few remaining copies -- of a priceless Bible printed in Fifteen-Forty-Nine. A Bible ~~once~~ commonly known as -- the "wife-beater's version" of The Good Book. So named because of a passage -- that instructs any husband with a disobedient wife -- "to take her and beat the fear of God into her head."

The line inserted slyly by a typesetter -- alas, unhappily wed. And shortly thereafter -- alas, ^{also} ~~unhappily~~ unemployed.
