TORI LiT:PGMOM api. $20-153$
Good Eve. Ev-Tody:-
The second day of prisoner exchange has
begun in Korea. The daily proceedings over there begin
at nine arm., Korea time -- which is afternoon and
evening over here. The second batch includes thirtyfive Americans; twelve Britons; three Turks; and, fifty South Koreans -- and the scene at Pan Mun Som is much the same as yesterday. Liberated captives laughing and joking, some weeping with happiness, others/solemn mood as they pass through "rrectom gate". some of the south Koreans glum and sullen -- as if they had been indoctrinated with Communism.)

There seems to be some indication that the Reds may be holding back American prisoners -- some in worse condition than those now being set free.

This -- based on stories told by liberated Americans.
For example, corporal Kenyon Wagner of Detroit, has this to say: "There are sick people still left in the hospital. And some of them are sicker than I am. I was very astonished when they plekedme." A Turkish soldier declares that a mana

## cost in

number of ailing prisoners were left behind when the convoy set out from the Yalu River camp where he was onthes confined. $x$ There seems to be no explanation -. except on the assumption that the Reds, in for propaganda reasons, are sending back the captives Who are in the best condition.

The oontraditions about indoctrination continue - some Americans declaring that no attempt pas made to feed them Communist propaganda. Others --telling how they were given daily classed in Red indogtisinatigh. The practice poems to have been
aliferent in various camps,

## POTTO KOBE

A sour note vas sounded tonight by the Chinese Red xi radio -- charging that prisoners handed over to the Communists are in bad shape. The statement is made by the British Commaist new reporter, Allen Winnington of the London Daily Worker. He is quoted as saying that the Communist sick and wounded looked like victims of Iasi

 Which sounds like Red propaganda resuming its old familiar ways -- blasting with irresistible diatribes.

## SORRAGYR

The Navy announces that a U.s. Destroyer
was hit by a shore battery -- a number of sailors injured. The Destroyer JaMEs E. EYEs got into a duel with enemy cannon along the Korean East Coast, near the port of Wonsan -- when a shell sanded on the main deck, exploding and ripping a three foot hole. The blast went off just behind a gun crow, and one man was rounded serious in. Others -- injured s11Filat.

Today, the Red shore guns at Yonsan were blasted by the giant cannon of the Battleship MEY JEREEY. Which steamed right into the harbor, and blazed away with sixteen inch guns. (Azomethe fighting is at a virtual standstill today, only one minor clash reported

The latest -- dispatch telling of
B-29 attacks at points near the routes taken by the prisoner convoys. Eleven super-forts blasted a Red airfield at a town which was ane of the stops for the convoys.

Which might indicate that the immunity has
 the captives have been brought down to Pan Kun Jon. The Reds were using "Freedom Road" for a svarining transport of military supplies -- and obviously, we vouldn't let that go on forever.

## ecol

Moscow continues its mild and peaceful
tone -- with soviet newspapers featuring 0.8.
Ambassador Charles E. Bohlen. Today, the new Ambassador presented his credentials to soviet President Emery Voroshilov, and the two exchanged customary courteous expressions, emphasising their hope that a peaceful settlement of all international difficulties can be attained. hook hopes are given
a front page play in Russian newspapers.

JIPRAN
The count of the votes in Japan today shows Premier Yoshida winning a victory. But, his party does not gain an outright majority in the Tokyo parliament -- though it comes 0 t the strongest by far.

Japan went to the polls yesterday, following a
series of political disputes, largely -- because of

Yoshida's pro-American policy. so now his liberal party
wins one hundred and ninety-nine seats in the Lower

House. The Progressives, the strongest rival party,
take only seventy-two. A string of other groups --
with smaller figures down the line.
Yoshida -- to stay on as Premier, forming some sort of coalition.

One oddity of the election was the defeat of big name candidates, whose reelected into Parliament had been taken for granted. One, for example, is yukio 0zaki, Dean of Japanese politics; ninety -three years

## JatㅂI -2

old and a member of the lower house ever since it was
formed back in Eighteen Eighty -rive -- the days when

Japan went western. But he lost out -- in that weekend election.

## The American Communist party is labelled

 officially -- a puppetof the soviet Union. This is the decision handed down by the subyeraize Activities control Board. After a fifteen mon study, with extended hearings.In Nineteen Fifty, Congress passed a law under which agents of foreign government are required to register. The American Communists insisted -- they were merely a political party 11ke any other. (they put up-big-azement-agatnat having to register, and proceedings were tong and completed.)

The Board now finds that the Red organization is governed by orders from soviet Russia. Which, says the Board --"has established a requirement of iron discipline throughout the world Communist movement". (the-dmerican-sads axe deepribed-ast Using the cloak of the -U.S. Gonevitution for the ootablishmant of a

## comonisy - 2

|-Atetatorsintp of the proletariat in the United-8tatesi) Co, therefore the communist party is ordered to register with 11 st ( of its officials and its members. Also -- submit a financial statement ex each year to the Attorney General.

The Communist party replies that it will
appeal to the courts rachtake-tioneace all thin the way to the Supreme Court. The Reds have indicated, in the past, that -- rather than put their membership on me public $\wedge$ record underground.

The big talk tonight goes on in the Senate.
The prolonged oratory, after taking rest over the Subject:
weekend, was resumed today. Emberexpr Tidelands 011. T/(Repubitican senator Knowland of California began proceedings by offering a proposal to limit the debate. But the consent had to be unanimous,
and In amy Democratic Senator Lister Hill objected. So, Senator Kefauver of Tennessee took the floor $\rightarrow$ to continue a speech he began on Saturday.

The Democrats deny its a filibuster --
intended to talk the Tidelands Bill to death. Today, Senator Lister Hill argued: "Let this debate go on just a little bit". Last week, the Senator spoke for three days straight -- his little bit. Senator Taft retorts: This has developed into an ordinary

## filibuster".

(The Democrats claim that their marathon oratory is rallying public mes sport for their effort to defeat the bill that would give Tidelands 011 to the states.)

BUDGET
The Budget Bureau announces $\mathrm{fg}_{\mathrm{g}}$ sashes in figures presented by former Presidentriuman. The budget that he handed to Congress called for one hundred and Ex fifty six million dollars to be devoted to 1 flood control, and power and navigation projects in the Pacific northwest. That now has been cut to One Hundred and Twenty Million, a slash of more than thitty-five million.

Similar projects in California are marked cut financial program for a slash. The Truman puget called for fortyeight million -- which the Budget Bureau now cuts to something more than thirty-iour million, thirteen and a hall million dollars less.

The Republican Administration trimming the Truman budget -- as the G $O$ promised.

## MOVIES

The plight of the motion picture industry was pictured at a Congressional nearing today. The Movies are tr -- "desperately sick". So say top leaders of the industry, in a joint statement. They want congress to exempt motion picture theaters from the twenty percent admission tax. If the tax Thu day that
is not removed, more than five thousand theaters Will be forced out of business in the next twelve months. Nearly thirty percent, would here to close.
Appearing before the Mays and Means

#### Abstract

Comiltiee of the House of Representatives, they flame

it all on television -- just as you'd expect.
Their statement reads: "Assured, by the purchase of a television set, of what was equivalent to a free motion picture show in their living room -millions of Americans made the pleasant discovery that there is no place like home.
"The impact on movie theater attendance
was devastating" the statement continues.
"In those metropolitan areas tn which
soon became saturated with television, theater business dropped more than forty percent. (In the so-called fringe areas, we whet television reata reception was not so good, theater business went off twenty-two percent."

So say the spokesmen for the film industry
and they add - that, if the tax on admissions
18 removed, they are merit confident the movies can get the competition of television.

## AVALANCHE

Each year along about now I seem to spend a little time in avalanche country -- in the high mountains here in the Vest. Last winter, there were more tragedies than usual. Some twenty lives lost, twenty buried under the snow that came roaring down in the Rockies, the Sierras and ranges in between. Four of those killed were skiers, at Bun Valley -an avalanche in January, fifty-Two. One was found at the time. And $I$ was wondering about the other three. Ho news came over my press wires indicating they were ever found. But, I have just learned that when the snows melted in the spring, the bodies were found in May. $\mathbb{P}$ But more important, I've learned that the danger of this happening again at sun valley Is now much less. Avalanche study, comparatively new science. Our number one avalanche center -and school too, you could call it, is at Alta, here int. Utah, in the Wasatch, from where I have just core.

Monty Atwater the number one avalanche expert, and Felix Koziol, local head of the U.S. Forestry Service,

AVALANCHE - 2
have been telling me how at Sun valley new ways have been found to protect the crowds of sports enthusiasts who go into the mountains in winter, and on their own tabes some chances.

Here in the Wasatch Mountains these two
experts and their associates have just been shooting down great cornices that develop along high ridges. The of their ways of control avalon the

Apparently there have been far fewer of them
this winter in our high western mountains. But here at
Alta there was one avalanche that took everybody by
surprise. It ripped out an entironew path. Ali
Engen, most famous of all American skiers, was asleep in max corner room at the Alta Lodge, with his wife and son. The avalanche swept down the mountain shorty before dawn, stE sideswiped the lodge, and cruck ed in the walls of one room in which the Engens were asleep. They had quite a time digging themselves out in the darkness. Which would surely be a terrifying experience, to be in bed asleep; and then suddenly awakened by the crash of walls and the

## AVALANCHE - 3

and the roar of an avalanche sweeping over you.
Monty Atwater showed me one of his new instruments which records snow falla and water content. He has gone so far with his studies that now he nearly always knows when avalanches are a threat. And this edrawce information te means safety.)

EISENHOWER

From the vacation White House, at Augusta, Georgia we have an example of high courtesy. This following a game of golf yesterday -- between President Eisenhower and Senator Taft of ohio. Those two onetime antagonists, at the Chicago Convention, continue their rivalry on the golf course. So who wont The answer leaks out only today.

Yesterday -- blank secrecy. The news
reporters tried to get a line on the Presidential
and Senatorial golf -- but no information. The secrecy made them deeply suspicious. They figured -the President and the senator shot such atrocious golf, they were ashamed to admit the scores.

That was the first report on the news wire today, but it was followed by a disclosure --

II that the President had shot an eighty-six. Which, -and, mighty good for any casual goffer, ma for him is magnificent, (He had gone to Augusta, to get back into his old golfing form -- and this max vas it --so he was proud and elated.)

This leak of information comes from Bobby

EISENHOWER - 2
Jones, that mightiest of golfers back in another
day, who is a close friend of the President. Bobby
Jones explains why there was all that secrecy. The the
President refused to give out that EisenhowerTaft golf score, because the Senator shot way up
 in the nineties, Badtenough, to embarrass him ind
 sariturned the whole thing into a state secret. But, that Presidential 86 ! That' enif to cause us to burst into song'
