L.T. FRIDAY, DECEMBER 9, 1966 -- COMMERCIAL (Dallas Townsend, Sub.)

GOOD EVENING EVERYBODY:

For top Republican Presidential hopefuls -- all paths lead tonight toward Colorado Springs, Colorado; site of the two-day Republican Governors Conference -- beginning tomrrow.

Front-runner George Romney of Michigan -- one of
the first to arrive. Telling a crowded news conference
-- that he is neither discouraging" -- nor encouraging -anyone who supports him for the Presidential nomination.
Insisting, however, that reeds time -- perhaps as much
as six months -- before deciding whether to enter the
Presidential sweepstakes.

Convention-bound Governor-elect Ronald Reagan of California -- promising to be a potent factor -- "in

determining national policy" of the Republican Party.

"This is a responsibility I'm going to have to accept"

-- said he. Adding, however, that he would use his

power -- if possible -- "in such a way as to discourage splintering -- and encourage unity.

Non-Comprise tention the time forests " . Further sucception

UNITED NATIONS

At the United Nations -- Britain's plan for selective sanctions against Rhodesia -- under sharp fire today from Zambia; closest Black African neighbor -- to the rebel colony.

Zambia's Foreign Minister -- calling the British

plan "another ineffective formula." Further suggesting

it was "the final act -- in a plot to sell out the African

majority of Southern Rhodesia."

The only sure way of toppling Rhodesia's white minority government -- said the Zambian Foreign Minister -- is through direct British military intervention.

lockely though . no one bank; except for the Tiet

took frommer which ware blown to bite

Another Communist bomb plot was frustrated tonight near Saigon; the second -- in as many days.

Viet Cong terrorists attempting to float a mine toward a key bridge -- between Saigon-proper and the big American military base at Bien Hoa. Apparently intent on blowing up an ammunition convoy -- just about to cross the span.

When an alarm government sentry -- spotted the bomb.

His first shot -- a miss. His second -- a bull's eye. With a streak of orange flame shooting into the air -- and the resulting blast rattling windows throughout the capital.

Luckily though -- no one hurt; except for the Viet

Cong frogmen -- who were blown to bits.

Soviet Premier Kosygin joined French President

DeGaulle today -- in a charge that U.S. intervention in

Vietnam has seriously aggravated the conflict there;

threatening to spill the war -- into neighboring

Asian nations.

This according to a joint communique -- marking the end of Kosygin's nine-day visit to France. But how to end the war -- they didn't say. Leaving Russia committed to total victory for the Viet Cong -- whereas DeGaull's announced aim is that of a neutralized Vietnam.

FITNESS

Hello Dallas, good evening everybody:

when the average person thinks of physical fitness -- he naturally thinks of young strapping athletes, strenuous games, fifty mile hikes and so on. Ah, but that's only half of it -- says Dr. Kaare Rodahl, former Director of Research at the Lankenau Hospital of Philadelphia. The other half is explored in his new book that just out -- a book entitled "BE FIT FOR LIFE."

Dr. Rodahl asserting that physical fitness -- is a matter for all ages, even for the old -- the sedentary who have neither "the intention nor the need to change their way of life." In fact -- says he "physical fitness is so easily attained -- that it's almost laughable."

The basic fitness program prescribed by Dr. Rodahl -- begins with a series of "joint mobility exercises", as simple as turning and stretching your ankles -- flexing your knees -- limbering your arms. For a period of no more than five or ten minutes a day -- you can even do it lying in bed, if you want to. Building slowly -- to such exercises as rope-skipping, stationary bicycle riding,

wrote, in Mc bourgeris eliquatte - but touist etiquette:

Question: Should a Communist gentleman help a Communist lady with her coat? What if she's a lady crane-operator -- or a bricklayer -- his legal equal, and perhaps his physical equal as well?

Thats the essence of a great debate now raging in the Soviet press. Some letters -- all apparently from men -- complaining of what they call "meaningless gallantry" toward women. Other letters -- no doubt from the distaff side -- declaring that good manners are important -- based on respect for each other. But not the good manners found in capitalist countries, wrote one woman. Under capitalism, she said, "people trying to get to the top will stop at nothing. With a studied mm smile and icy politeness, they are ready to betray both a bosom friend and a brother. Such is the wolves! law of capitalist morality." What we need in Russia, she wrote, is NOT bourgeois etiquette -- but Soviet etiquette. Just what the difference is though, the lady had trouble explaining. And the debate roars on -- about good manners.
