

**BRAZIL**

L.T. - Alder.

Fri. July 6<sup>th</sup> - '62.

Down in Rio today - the police had to call for army reinforcements. The rioting in suburban Caxias - getting out of hand. The rioters protesting against - high prices and food shortages. Battling the police - breaking through the police lines. Then, they raced through the streets smashing store windows, and looting the shelves. Order, not restored - until the troops arrived. President Goulart promises drastic action to lower prices - and put more food in the markets. The trouble is that the President of Brazil has his hands full, ~~He's still~~ struggling with <sup>the</sup> crisis that began with his search for a Premier acceptable to the Brazilian congress.

## ATOMIC

The most powerful nuclear blast ever touched off in the United States - erupted six hundred feet underground; Hurling thousands of tons of earth and rock, high into the sky, as it burst through. Leaving a crater three hundred feet deep - and a third of a mile in diameter. A vast depression in what used to be flat desert - at our Nevada test <sup>site,</sup> ~~site.~~ Beneath that crater, ninety-five percent of the radio activity - trapped under ground.

Once released into the daylight - the H-bomb formed the familiar mushroom cloud, except that the stem was missing. - <sup>As</sup> it rose, it began to look more like a stack of inflated rubber tubes. Finally, at thirty thousand feet - turning into a white cloud, drifting away across the Nevada sky.

## ESTES

Part of the mystery surrounding Billie Sol  
Estes was cleared up today on Capitol Hill. Senate  
investigators ~~are~~ uncovering the fact - that the  
Texas Wheeler-dealer <sup>actually</sup> had two members of the Agriculture  
Department working for him. Louis Dumas and Arthur  
Stone, confessing - that they perjured themselves when  
they denied it. Now, they admit splitting sixteen  
hundred dollars given to them by Estes. In return,  
they helped him wangle - his cotton allotments.

How could two reputable officials get mixed  
up - in such a crooked game? Said Stone to the  
committee -- "once you accept the money, you naturally  
go on."

## INVESTMENT

President Kennedy's invitation to the Japanese

- is getting a quick response. The Presidential invitation: <sup>come on over!</sup> - invest in America! open a business here!

The first to do so - a couple of students at Tokyo

University. Kioshi Shima and Yoshi Gado Yonesuka -

choosing Westfield, New Jersey as the place to set up

their business. <sup>What business?</sup> The two ambitious Japanese students <sup>^</sup> are

opening a school for teaching judo.

## ALGERIA

Independence for Algeria - more of a mockery than ever, tonight. A mob, surging through Algiers, attacking Europeans and desecrating the Catholic Cathedral. In Oran, another gunbattle between -- O A S and Moslem extremists.

As if this were not enough for a government less than a week old - a force of Moroccans are said to have invaded Algeria. Making what appears to be - a grab for the Sahara oil wells.

## SPY

The following may sound - like gibberish.

Parliament opposed Charles the Second in Sixteen Seventy Nine - and so Robert Soblen may be reprieved in Nineteen Sixty Two. In Sixteen Seventy Nine, Parliament passed - the "habeas corpus act" - habeas corpus meaning literally, "you may have the body." Meaning legally - that anyone imprisoned, has a right to a quick hearing in court. The M P's of almost three centuries ago - took from the Crown the power of indefinite arrest, and by so doing, established a basic principle of modern law.

Today, Soblen the convicted spy - who fled from America to Isreal and now is in London, - appealed to that British principle. And, under the English habeas corpus act - he must be allowed his day in court, ~~The M P's of almost three centuries ago - took from the Crown the power of indefinite arrest, and by so doing~~

Several doctors have left Saskatchewan —  
to try and win a reprieve from the threat of

because of threatening letters. So revealed by Doctor  
extradition to the United States.

Soblen is also asking the British for political

asylum. Doing everything he can, to avoid being

brought here where a life sentence awaits him.

plan is revealed.

The doctors' strike has now caused such a  
crisis that the Provincial legislature may be summoned  
to a special session. The problem - to withdraw the  
medicare bill, or, to try to impose it on the  
rebellious doctors of Saskatchewan.

## DOCTORS

Several doctors have left <sup>the Canadian province of</sup> Saskatchewan —

because of threatening letters. So revealed by Doctor David Beresan, who used to be city coroner at "Swift Water". Dr. Beresan, declaring - that he and his colleagues are in fear of their lives, And, will not return to Saskatchewan--until the controversial medicare plan is repealed.

The doctors' strike has now caused such a crisis that the Provincial legislature may be summoned to a special session. The problem - to withdraw the medicare bill, ~~Dr.~~ <sup>Dr.</sup> to try to impose it on the rebellious doctors of Saskatchewan.

## FAULKNER

The passing of William Faulkner takes one of the great writers of the Twentieth Century. Some call Faulkner the greatest American novelist of them all. Superior to Mark Twain and Henry James.

And how different Faulkner was! Mark Twain wrote what is usually considered the great American novel. "Huckleberry Finn", the unfolding of a boy's life on the Mississippi - in terms of major themes like freedom and social responsibility. Henry James was - the complete artist. His masterpiece, "The American" is pieced together from a multitude of details - like the weaving of a brilliant tapestry.

Faulkner? Above all, a moralist. You say what morality in those decadent characters - who have the worst vices of the South? Despite the failings of his characters - there is an essential nobility about them.

He passed away - at age 64 - in the little town

**FAULKNER - 2**

If you happen to be a tourist in this country with which his memory will always be associated. No matter how widely he travelled - even to Stockholm, to receive the Nobel Prize - he remained an Oxford man. Oxford, Mississippi! One of the giants of our time - William Faulkner.

**TRAVEL**

*Russian*

If you happen to be a tourist in this country

- you can now visit cities like Detroit, St. Louis,  
and San Diego. These cities no longer out of bounds.  
The State Department lifting - the old restrictions.  
Doing it - unilaterally. Expressing the hope that  
Moscow will reciprocate. But, emphasizing the freedom  
of Soviet visitors to America -- regardless of whether  
the Russians continue to bar Americans from half of the  
Soviet Union.

## TRAVEL

If you happen to be a <sup>Russian</sup> tourist in this country  
- you can now visit cities like Detroit, St. Louis,  
and San Diego. These cities no longer out of bounds.  
The State Department lifting - the old restrictions.  
Doing it - unilaterally. Expressing the hope that  
Moscow will reciprocate. But, emphasizing the freedom  
of Soviet visitors to America -- regardless of whether  
the Russians continue to bar Americans from half of the  
Soviet Union.

SONG

Here's an interesting question. When does  
a song about a patriotic man - sound "indecent"  
"offensive"? When it's Joya Sherrill singing "Katyusha"  
to a Soviet audience. Joya, the song bird, of the  
Benny Goodman combo. Touring Russia they decided to  
do something Russian. The King of Swing selecting  
"Katyusha". <sup>and</sup> ~~well~~ Joya gave a rendition such as the  
Moscovites have ~~never~~ <sup>never</sup> heard before. A jassed-up  
version - with a bit of the twist thrown in. Hence,  
the clamor that is echoing across Moscow. Said one  
Soviet critic, "the song is about a man who ~~it~~ loves  
his country. But <sup>sick,</sup> Miss Sherrill makes him sound like  
Romeo on pep pills."

## SOLDIERS

We have a story tonight - about soldiers and girls. <sup>A familiar</sup> combination? - ~~not entirely unfamiliar. We~~ ~~know them to go together, in the past.~~

~~Well, This fact seems to have dawned on~~  
The London war minister <sup>tells of</sup> ~~subject~~ - misconduct by the British Army of the Rhine. Her Majesty's troops, getting into trouble - with the West Germans. Delinquency, Bar room brawls, and, so on.

Today, War Minister John Profumo told the Commons - that he is working on the problem. His secret weapon - gals from home. A feminine contingent of the Royal Army Corp. to be dispatched to West Germany.

Said the War Minister solemnly, "there's nothing wrong with the Army of the Rhine that ~~young~~ young ladies can't cure." ~~xxxxx~~ Wonder what the Frauleins will think about that. <sup>?</sup>
