

Today President Eisenhower met with his Cabinet - for the first time since <sup>this</sup> past summer. The Cabinet members <sup>arriving</sup> ~~arrived~~ by helicopter <sup>at the mountain rendezvous,</sup> ~~into Camp David,~~ where they gathered in ~~pres.~~

Eisenhower's cabin - to brief him on their departments.

*— in the Ca cocks' ton Mts —*

The President met them as they came in. And during the walk to the cabin, he was heard discussing with <sup>U.N.</sup> ~~our~~ delegate ~~to~~ ~~the U.N.~~ Cabot Lodge, the question of the French ~~delegation~~ pulling out because of the debate on the Algerian question.

~~The President, obviously interested in knowing just how the French felt about that debate.~~

*Today's*

~~The~~ meeting lasted for almost two hours. Most of the

time was spent in reviewing events since the President <sup>left</sup> ~~became~~

*Washington for Colorado, this summer.*

~~left on September Twenty Fourth.~~ The most important report - from

Secretary of State Dulles, who <sup>gave the group a full</sup> ~~told the President and the rest~~

*account of* ~~of the Cabinet about~~ his trips to Italy, Jugoslavia and Spain,

during recesses in the Geneva meeting of the Big Four Foreign

Ministers.

As the meeting broke up, President Eisenhower expressed

his gratitude to his <sup>Cabinet - for all</sup> ~~assistants~~ <sup>complimenting them</sup> on their  
cooperation during his <sup>unexpectedly long stay</sup> ~~stay in the hospital~~  
in Denver, \*

LODGE

Cabot Lodge, returned<sup>ing</sup> to New York tonight - after that<sup>o</sup>

Cabinet meeting, ~~with President Eisenhower. Our delegate to the~~

~~U.N.~~ said he could not comment on <sup>the discussions</sup> ~~what he said privately to~~

~~except to say~~  
~~Mr. Eisenhower~~ but he did declare that the President is

optimistic about the world situation - optimistic in spite of <sup>Geneva,</sup>

~~the failure of the Foreign Ministers at Geneva.~~

*Oh yes, he did say that*

~~What about Mr. Eisenhower's appearance? Cabot Lodge~~

~~described~~ the President ~~as~~ looking<sup>ed</sup> rested and ~~in~~ <sup>took</sup> full control of

the Cabinet meeting. Our U.N. delegate summing up his opinion

in these words: "He's the same incisive Eisenhower."

BAGHDAD

The Baghdad conference <sup>of</sup> Britain, Pakistan, Iran, <sup>— wound up</sup> Iraq and Turkey <sup>ended</sup> today. The member nations issued a joint communique - repeating that they will work in harmony for peace and security in the Middle East.

<sup>U.S.</sup> ~~Our~~ Ambassador to Iraq, Waldenar Gallman, <sup>who</sup> attended, ~~the~~ ~~meeting.~~ He said that America would maintain close economic ties with the Baghdad pact nations - because we regard them as closing the "northern tier" to Red infiltration. ~~Ambassador Gallman said,~~ <sup>he told them</sup> at the same time, that we would not ~~accept~~ <sup>Join this</sup> membership ~~in the~~ defense alliance. - <sup>This was a disappointment</sup> ~~which dashed the highest~~ <sup>ment to</sup> ~~hopes of~~ the group. But they welcomed the pledge of <sup>U.S.</sup> economic assistance.

AS far as the five nations are concerned, they seemed in full agreement throughout <sup>the</sup> ~~this~~ conference. They noted that the Russians have turned their attention to the Middle East - because Nato and Seato have strengthened Europe and Asia. The purpose of the Baghdad conference - to draw up plans for keeping

the Reds out of the Middle East. Pointing out that a low standard of living is a weapon of Communism - they added that American economic aid would be a key to raising the standard of living for the peoples of the Middle East.

Before they broke up, they agreed to meet again next April, in Teheran, <sup>and</sup> ~~in~~ the meantime, ~~they will~~ try to get other Middle East nations to join their alliance.

British Foreign Secretary, ~~Harold~~ MacMillan, <sup>now</sup> ~~disclosed~~

~~immediately afterward~~ <sup>^</sup> that he would fly <sup>s</sup> to Beirut - to ~~confer with~~ the ~~leaders of~~

Lebanon. <sup>This is</sup> ~~The MacMillan trip~~ interpreted as the first move to

bringing more Arab nations into the alliance. The hope being,

that Lebanon will <sup>Join,</sup> ~~be the first of the new members.~~

The British Prime Minister says that the West must continue to deliver arms to the Middle East. ~~Sir~~ Anthony Eden, telling the House of Commons - that Russia is preventing an agreement to keep arms from that tinder-box of world politics. A Laborite asked the Prime Minister whether it would not be a good idea to discuss a complete ~~arms~~ embargo - discuss it with America, Britain, France and Russia? To which Eden replied that the Kremlin has not been at all encouraging about such a conference. The Russian leaders, keeping up their pretense that they have nothing to do with the shipment of arms from Czechoslovakia to Egypt. Therefore, the West will have to offset the Red arms - with guns and ammunition to maintain a balance of power.

KHRUSHCHEV

Bulganin and Khrushchev, ~~are~~ seeing the sights in India, <sup>made a stop today</sup> - ~~with Khrushchev doing most of the talking. The Russian party stopped~~ <sup>- in Chandigarh -</sup> at the Bhakra Dam - where the chief consultant is Harvey Slocum of Alhambra, California. Khrushchev promptly engaged the American in some light conversation.

The Soviet leader <sup>Engineer</sup> told Slocum that the Russians are grateful for American help. But Khrushchev quickly added - that Russia is pushing ahead on her own. <sup>The Red Boss</sup> ~~Khrushchev~~ adding, that his country will soon pass America.

At one point in the conversation, Slocum remarked that building the dam was hard work. Khrushchev answered that his tour of India involved a lot of work too. Then Slocum remarked: "Okay, you take my job, and I'll take your job."

Khrushchev promptly retorted that he might not be given a visa - and he wanted to know whether Slocum would lift the Iron Curtain a little bit - allowing him to get into America.

Well, the Khrushchev-Slocum conversation sounds pleasant enough. But the dispatch says that Khrushchev and

Bulgarian are doing a big job of selling themselves to the  
Indians. The two Soviet leaders, repeating that all they want  
is friendship with India - and a partnership in maintaining  
peace.

EXECUTIONS FOLLOW KHRUSHCHEV

*genial*  
Khrushchev's behavior in India is in *sharp* contrast to the news from the Russian province of Georgia - the homeland of Stalin. The radio in Tiflis, the capital of Georgia, announcing that six officials have been executed in a new blood purge.

*said to have been in cahoots*  
The six ~~are connected~~ with Beria - the police chief who was ~~executed for treason in nineteen fifty-three~~ *liquidated 2 years ago*. Beria, *close associate* formerly ~~a top colleague~~ of Stalin - ~~was~~ called a traitor and *they executed him*, also many spy when ~~he fell~~. *A lot* of his henchmen ~~were~~ purged at the same time. Now ~~we hear about~~ the latest, six *Georgians* accused of, ~~what the Reds call~~, "high treason, terrorist acts, and participation in counter-revolutionary organizations."

~~This is~~ the biggest purge since the fall of Beria.

And it *brings out* ~~includes~~ all the old Communist *mumbo jumbo* ~~jargon - the typical~~ charges made against Red officials ~~before they are executed~~ *as they go before their executions*. *friendly* ~~In other words~~, In spite of Khrushchev's *genial* manner and

~~light~~ repartee - the Communist system in Russia still uses the firing squad as a standard method of dealing with those who ~~fall~~ *fall from grace*.

FOREIGN OFFICE

The British Foreign Office answers Bulganin. A spokesman, replying to the Russian leader's speech in New Delhi yesterday - when he accused the West of destroying "the Geneva spirit". Bulganin, telling the Indians that Russia wants a real peace - but the West is not quite so interested in reaching an agreement.

The Foreign Office reply is very strong. It points out that Bulganin said that Russia does not interfere with other states - although it is only Soviet obstruction that prevents the reunification of Germany. Again, the Foreign Office notes that although the Russians talk a lot about peace - the only regimes they consider peaceful, are Communist tyrannies. The Foreign Office adds that Bulganin's charge that the ~~West~~ West doesn't want disarmament - is completely false.

After the statement had been read, a spokesman for the Foreign Office told newsmen, "The point of view expressed by Marshal Bulganin - seems to us thoroughly hypocritical."

This Foreign Office statement is regarded in London as

very important - because it indicates that the British government is taking a tougher stand with the Soviets.

Apparently, <sup>Foreign Sec.</sup> MacMillan came <sup>away</sup> ~~back~~ from Geneva - convinced that it <sup>is</sup> ~~was~~ time to be blunt in dealing with the Russians. ~~and so he gave permission for~~ <sup>hence</sup> today's statement - calling Bulganin a hypocrite.

MOROCCO

Chaos in Morocco, <sup>Q Sultan. But,</sup> ~~is close to chaos tonight - the territory has~~  
no government, ~~fighting has broken out~~ in the Riff Mountains,  
~~and~~ Casablanca is in the grip of a general strike.

~~As we know, Sultan Sidi Mohamed Ben Youssef is back~~  
~~in his kingdom - trying to bring peace to Morocco. But so far,~~  
~~he's been unable to find a Premier who can restore order.~~

~~While the Sultan struggles with the government~~  
~~problem - fires are flickering~~ In the Riff Mountains, ~~Signal~~  
fires, calling ~~out~~ the Berber tribesmen. ~~It was the Berbers~~  
~~who rose in bloodstained violence last summer - killing many~~  
~~French settlers. Tonight, the French army is driving into the~~  
~~Riff Mountains - trying to stop the violence before it gets~~  
~~started.~~

In Casablanca, four hundred thousand <sup>natives /</sup> ~~Indians~~ downed  
tools today. Sullen mobs, roaming the streets. French <sup>police</sup> ~~security~~  
~~forces, patrolling the streets.~~ <sup>on patrol.</sup> Unofficial security officers,  
helping them. The native quarter, ominously quiet. The European  
sector, tense - ~~faxi~~ fearing an invasion by the natives.

Handsome Casablanca ~~seems~~ like a dead city - shops closed,  
factories deserted, schools empty. <sup>Quite a</sup> headache for the Sultan -  
who only a few weeks ago was enjoying peaceful exile in  
Madagascar.

WOODWARD

The police of Nassau County, New York, say that, as far as they are concerned - the Woodward case is closed. No reason to believe that it was anything but an accident - when Mrs. William Woodward, Jr., shot her husband to death, mistaking him for a burglar.

Mrs. Woodward <sup>who</sup> left the hospital yesterday - for the first time since the shooting, ~~but she~~ is still under medical treatment for shock. *After being*

~~Mrs. Woodward was~~ questioned for three hours ~~last~~ ~~night - the result,~~ the police <sup>say</sup> ~~statement that~~ the case is closed.

However, <sup>on this will be</sup> the final decision <sup>is</sup> up to a grand jury. ~~Mrs. To~~ *the grand jury she will tell her story - and* ~~Woodward will testify once again, and if the jury so decides,~~ <sup>perhaps</sup> then the books will be closed on <sup>this tragic</sup> ~~the Woodward~~ case. - ~~one of the~~ ~~most tragic accidents ever to hit high society in New York.~~

## PROSPERITY

The purchasing power of factory workers - set a record last month. So announced by the Bureau of Labor Statistics. Part of it, due to a rise in take-home pay, **A** factory worker with a wife and two children making an average of seventy-two dollars ~~and eighteen cents~~, after taxes. Secondly, the cost of food dropped to the lowest level in more than five years.

More money for factory workers - and food costing less.

Put the two ~~factors~~ together, and you get the biggest October to October gain since World War Two.

## ATOMIC

Atomic energy, ~~is being used~~ for ordinary heating.

So announced in Richland, Washington - where the Hanford Atomic Works decided to use the heat generated by atomic reactors - instead of letting it go to waste, Several buildings - used for the experiment. And we hear that room temperature stays at a comfortable level in the coldest weather.

The experiment, a success - and the scientists at Hanford declare that atomic energy will cut fuel costs wherever it <sup>is</sup> ~~can be~~ used. Hanford, the first step toward atomic energy for heating American homes.

The Arctic regions of Canada ~~are~~ calling for ~~a vast~~  
~~system of roads and railways into~~ <sup>to open up</sup> the wilderness. A dispatch ~~from~~  
from Edmonton <sup>says both</sup> ~~reveals that~~ the Yukon and the Northwest  
Territories ~~both~~ <sup>more up to date</sup> want ~~a completely new approach to~~  
~~transportation along the Arctic Circle.~~ <sup>so</sup>

~~These frigid territories declare that the great~~  
~~obstacle to development of natural resources - is not the~~  
~~weather. they say they can move lumber and minerals. - as seen as~~  
~~the roads are built. It's believed that agriculture can be~~ <sup>also to the</sup> <sup>al resources</sup>  
~~developed in~~ <sup>of</sup> the McKenzie River valley. - <sup>Open up the</sup> ~~as seen as the~~  
~~Canadian Arctic! Take it out of~~  
~~transportation problems has been licked~~  
~~deep freeze~~

~~The proposal for building the roads and the railways~~  
~~was advocated strongly at Edmonton - and the Northern~~  
~~Territories say they hope that Ottawa will give some attention~~  
~~to the problem - the problem of bringing Arctic land into~~  
~~closer contact with the rest of Canada.~~

## DUCKS

On the shores of Lake Michigan, ~~they were busy today -~~  
~~rescuing ducks.~~ <sup>h</sup> Hundreds of migratory birds, <sup>unaware</sup> ~~came down onto an~~  
~~on an~~ oil slick. ~~Soon they were~~ helpless - ~~and~~ they began to die from  
exposure and drowning - unable to fly because of the sticky oil  
~~mess~~ on their feathers.

~~As soon as the danger to the ducks was realized,~~

~~Inhabitants of the area began to pour onto the beach. They~~  
brought ~~in basket~~ baskets, and <sup>(rescued hundreds.</sup> ~~carted the victims off by the~~  
~~corn was even dropped by plane,~~  
~~dozens. Some even brought trucks down to Lake Michigan. The~~  
~~Humane Society sent in a Piper Cub - to spread bushels of corn~~  
~~over the beaches, for the ducks to eat.~~

~~The result, hundreds of ducks were saved - although~~  
~~many others died before they could be saved from that oil slick~~  
~~on Lake Michigan.~~

SINGER

Here's a follow-up to the story we had the other night, about ~~the world's most famous~~ <sup>the</sup> opera singer, ~~we heard~~ <sup>and the</sup> federal marshal - that ~~then how a summons had been~~ served on Madame Maria Mene-ghi-ni Callas. The prima-donna reacting just as a prima-donna should - showering insults on the man who had the impudence to serve her with a summons.

Well, today's story is that the Chicago court was all ready to deal with the case of Madame Callas <sup>TP</sup> ~~who is the~~ <sup>it appears to be a</sup> principal in a salary dispute. But the court might just as well not have waited - because the <sup>prima-donna</sup> ~~never turned up.~~ <sup>did not appear.</sup> In fact, she's in Italy - preparing to sing in Milan, <sup>the</sup> foremost opera soprano to appear in the most famous of all opera houses, La Scala.

Apparently, Madame Callas doesn't care what the court does. But the threat from Chicago is - proceedings for contempt. The singer, to be indicted - if she ever condescends to return to Chicago.

BURGLAR

They <sup>got</sup> arrested a burglar in Camden, New Jersey, today -  
and it's about time. <sup>But</sup> It took three burglar alarms <sup>to land</sup> ~~before they~~  
~~picked up~~ Lacey Williams, in a warehouse of the Fuller Brush  
Company.

Williams told the police he broke into the building on  
Sunday. He touched off a burglar alarm - which brought the police  
on the run. <sup>That time he</sup> ~~But Williams~~ hid under a pile of empty cartons - and  
was not discovered. He stayed there for seven hours - and then  
decided to try to get out. <sup>whereupon</sup> ~~of the warehouse. But~~ he touched off  
the alarm again. The police came back on the run - and Williams  
scrambled under ~~these~~ cartons again. ~~For the second time, the~~  
police <sup>again</sup> searched <sup>in vain.</sup> ~~the place, without finding a thing wrong.~~

The burglar stayed where he was until this morning.  
Then he made one last try at getting out. <sup>Once more he</sup> ~~And, as usual, he~~  
touched off the burglar alarm. As usual, the police appeared.  
This time, they decided to search the warehouse - carton by  
carton. And finally they came upon Lacey Williams - who, of  
course, was hiding in his usual place.

By that time, the burglar didn't seem to mind ~~about~~  
being arrested. ~~He~~ <sup>Hugh</sup> says ~~he's~~ <sup>that he's</sup> just glad to see the last of that  
warehouse - where it seems ~~that~~ you can't get in or out, without  
touching off the <sup>at</sup> burglar alarm. He's had enough of hiding under  
the cartons - with the police walking around only a few feet away  
1/2 from him.
