

L.T.-DELCO. TUESDAY, APRIL 14, 1959.

GOOD EVENING EVERYBODY:

The latest medical bulletin on Secretary of State Dulles is not what his countrymen and free men everywhere had hoped. The news is not good. His trouble spreading. The medical bulletin describes a new attack as "malignant in the lower cervicle vertebrae."

Secretary Dulles courage is high. For as we know he is that kind of man. Courageous as he faces the staggering blow, to him - and to the West, which has depended on his guidance for so long.

HERTER

Acting Secretary of State - Christian Herter, went to Walter Reed Hospital today for a conference with his chief. He and Secretary Dulles, covering the main international problems. Discussing the procedures to be adopted at the Paris meeting of Foreign Ministers. Herter to represent us in Paris, with full authority to speak for President Eisenhower, and for America.

LONDON

The Premiers of Britain and France - ending their London conference. Macmillan and Debre, announcing - agreement on their strategy for Berlin. Some ~~facts~~ <sup>matter</sup> still ~~in dispute~~ <sup>unsettled</sup>. Debre, calling for - a firmer stand against Khrushchev. Macmillan, in favor of - more flexibility.

The two statesmen expect to iron out their differences - in time to offer a common front -- when they meet Khrushchev at the summit.

BERLIN

In West Berlin, an American spokesman said today -

"We will continue to fly as high as we please - when we please."

Repeating America's answer to - Soviet demands that our planes remain below ten thousand feet - while flying the air corridor to West Berlin.

*Another* dangerous incident *was spoken of* ~~made public~~ today. A C-97 transport - flying along the corridor. Two Soviet Migs, in attack formation - moving up from the rear at twelve thousand feet. The Migs, flying on each side of our plane - only a hundred feet from its wing tips. The Russians - then changing places. One flying over the transport - the other under it. This, described as - "a very dangerous maneuver." The harrassment, lasting several minutes.

To which the American retort is - our planes will fly into West Berlin - just as they always have. We're not recognizing *any* ~~that~~ ten thousand foot ceiling, - ~~that the Russians are talking about.~~

## ADMINISTRATION

President Eisenhower is "encouraged" by public support of his administration. So revealed by GOP Congressional leaders - following a conference at the White House.

The Republicans held a poll of their own - to see how Americans feel. Ordinary citizens, sounded out - on everything from the budget to Berlin. The results - handed to President Eisenhower this morning. The President, examining the figures - then terming himself - "encouraged."

COMMITTEE

Today's vote in the House Banking Committee - was close. The three Democrats, voting "yes" - the two Republicans, "no". The vote reflecting a Party difference - over how to deal with distressed areas of the United States.

The figure voted today - two hundred and fifty-one million. That's a hundred million under - the bill passed by the Senate. But ~~it's~~ <sup>as much as</sup> five times ~~what~~ President Eisenhower requested.

The ~~new~~ money would go into measures like - technical assistance, vocational training, and payments to the unemployed.

TAFT

*You may have*

~~I guess you've~~ heard about the President ~~of the United~~  
~~States~~ dedicating a monument to - his one-time political rival.

Dwight D. Eisenhower, paying his respects to the memory of -  
the late Senator <sup>*Bob*</sup> ~~Robert A.~~ Taft.

The monument - a bell tower near the Capitol. The  
ceremony, held in front of a ten-foot bronze statue of <sup>*Sen.*</sup> Taft.  
Along with <sup>*Pres.*</sup> ~~the~~ Eisenhower - Vice-President Nixon, Speaker Sam  
Rayburn, former President Hoover, and other Washington  
dignitaries.

After the speeches, the <sup>*Bells*</sup> ~~carillon~~ sounded atop the  
bell tower. Twenty-five small bells. And one, six feet tall -  
known as "Big Bob." The small ones chime - every fifteen  
minutes. "Big Bob" - ~~pealing~~ on the hour. America's tribute to  
"Mr. Republican" - Taft of Ohio.

ISRAEL

Two Israeli generals - punished for "breach of discipline." <sup>Held</sup> Responsible for ~~that~~ <sup>the other day - the one</sup> call-up order <sub>λ</sub> that provoked a war scare in the Middle East. Only three units - involved in the call-up. But the first announcement gave an impression of a general mobilization of Israeli reserves.

The men responsible - Generals Zorea and Harakabi.

Both now transferred - to other duties.

## TIBET

Tibet's phony-Chinese Panchen Lama - receiving a hero's welcome in Peking. And why shouldn't he? After all, he's Mao Tse-tung's hand-picked puppet. And today the Panchen Lama got an official greeting - from Red China's Premier, Chou En-lai. The Chinese Reds are now trying to appease world - after the scandal caused by their treatment of the Dalai Lama.

The Panchen Lama has decreed - a cut in some Tibetan taxes. This - an effort to stop the rebellion. But we hear the fighting - goes on. With fifty thousand Khamba mountaineers holding out in those wild mountains. The Chinese Communists, fanning through Lhasa-searching for concealed weapons. Screening home-owners. Rounding up suspects. And jamming broadcasts - from India.

In New Delhi, Prime Minister Nehru announces that he'll confer with the Dalai Lama later this month. Nehru, still officially neutral - but sympathetic toward the god-king from the Roof-of-the-World.

ISRAEL

Two Israeli generals - punished for "breach of discipline." <sup>Held</sup> Responsible for ~~that~~ <sup>the other day - the one</sup> call-up order <sup>λ</sup> that provoked a war scare in the Middle East. Only three units - involved in the call-up. But the first announcement gave an impression of - a general mobilization of Israeli reserves.

The men responsible - Generals Zorea and Harakabi.

Both now transferred - to other duties.

## KENYA

A dispatch from Kenya - brings back a lot of memories. Jomo Kenyatta - released from jail. They call him - "Burning Spear." Jomo - so long in the news - when he led the Mau-Mau uprising a few early years ago.

Jomo Kenyatta, captured in Nineteen Fifty-Two, now - freed. But ordered to stay - in a frontier town. The British, keeping an eye on - "Burning Spear" of the Mau-Maus.

SATELLITE

*We hear that*

~~The~~ instrument capsule from Discoverer Two - probably will not be recovered. Something ~~was~~ wrong with - the ejection device. The capsule, returning to earth, too far to the north. No hope that the ships and planes based on Hawaii - will find it. The chances of anyone else spotting the capsule's parachute - ~~very~~ *small indeed,*

But Discoverer Two ~~is~~ - a success. Our fifth artificial satellite - going into orbit on schedule. Zooming over ~~the~~ the Poles - every ninety minutes. Sending back radio signals - from outer space.

The latest Atlas experiment - not so successful. The missile, blowing up over Cape Canaveral *with a lot of* showering debris. ~~over~~ ~~the area.~~

## SURVEY

The world's biggest "aeromagnetic survey" getting under way in Canada. Sixty thousand square miles of Ontario - to be mapped from the sky. A large scale map - of the whole area.

The purpose - to locate new mineral deposits. Gold, copper, zinc, and so on. Ontario mining already produces *Many* millions, every year. *And* Some Canadian mining engineers predict - the figure may double, after this "aeromagnetic survey".

## FARMER

Down Under, the Aussies are asking - will Stanley stay? Stanley Yankus - a farmer from Michigan, fed up with Washington red tape, too many reports - to fill out; too many questions - from the Agriculture Department, deciding - farming in Michigan is no good. Of to Australia - looking for a farm. Also asking about - Australian red tape. If he doesn't find any - he's going to buy a farm. Then bring the Yankus family all the way from - Dowagiac, Michigan.

There are great opportunities in Australia - an empty continent - most of it. If you want a frontier life Don, Central Australia is the place. The Out Back - the Back of the Beyond.

## FRUIT

Now here's something new - in gardening. The Egyptian Ministry of Agriculture, referring to - "geometrical fruit." Experiments to produce - straight lines, instead of curves. If the experiments pan out - the farmers of Egypt will be raising - square melons and oblong oranges. Maybe even - triangular apples.

What's the point? Cairo says - "geometrical fruit" will be easier to pack. No waste space - if your melons are square instead of round.
