

L. T. OLDS, FISHER. FRIDAY, MARCH 20, 1964

The newest member of the American

diplomatic corps is a lady. Mrs. Katherine White -

of Red Bank, New Jersey. Mrs. White - twice elected  
**Good Evening Everybody:**

Mayer of Red Bank and later Chairman of the New

**Spring may have arrived officially -**

Jersey Highway Authority. However, she has had her  
**astronomically - but you can't prove it by the**

eye on national diplomacy for years - because her  
**Midwest where "blizzard warnings" went out for most**

father was Woodrow Wilson's ambassador to Turkey  
**of Kansas, East Nebraska, Iowa, and Northwest Missouri.**

And now she's to be - Lyndon Johnson's ambassador to  
**And -- the blizzard came: with more snow all the way**

Beaumont.  
**from Michigan to Wyoming and here in Utah where I am.**

**In the Midwest drifts six feet deep. In the Rockies**

**again closing some of the passes. In the Midwest**

**tying up rush hour traffic -- in Chicago. But**

**farmers - as well as skiers are happy about this**

**snowfall -- on the first day of spring. In the plains**

**when this snow melts -- the ground will be irrigated**

**for spring plowing.**

## AMBASSADOR

The newest member of the American diplomatic corps is a lady. Mrs. Katherin White - of Red Bank, New Jersey. Mrs. White - twice elected Mayor of Red Bank and later Chairman of the New Jersey Highway Authority. However, she has had her eye on national diplomacy for years - because her father was Woodrow Wilson's ambassador to Turkey. And now she's to be - Lyndon Johnson's ambassador to Denmark.

## ROCKET

America's land-based deterrent - is in perfect working order. The Minuteman Missile, not needing - anymore dry runs. The Air Force, calling off the tests - after today's launching. The Minuteman, blazing from its underground silo - as the solid-fuel exploded into action. The fifty-four foot rocket, arching into a clear sky - and off down Missile Alley between Africa and South America.

A thirty-minute flight that ended - when the rocket landed in the target zone five-thousand miles from Cape Kennedy. The Minuteman can carry a nuclear warhead - halfway around the world. And of these, we have almost four hundred ready for action.

## SALINGER

The former White House news secretary - definitely wants to be a Senator from California. Pierre Salinger today ending speculation - with a formal announcement. He admits he's a bit late, but thinks he can attract enough support - to beat out the other candidates. Maybe an interesting primary on the West Coast. Incumbent Clair Engle has filed - for re-election. State Controller Alan Cranston - is also in the race. And now - Pierre Salinger.

**REEDY**

The White House news secretary - he's been there for one day - used his first appearance to tell newsmen about his predecessor. George Reedy, revealing - that Pierre Salinger will have neither President Johnson's support in California, nor his opposition in the Primary.

Pierre Salinger, on his own - in his initial bid to become a Senator from California.

and should the southern segregationist be the only candidate to do so he'd be entitled to the votes of the Hoosier delegation. Hence, Governor Milton's decision to enter the Indiana primary - should not be a not after votes for himself.

## INDIANA

The decision of the governor of Indiana to go to the Democratic convention as a favorite son - seems like an unusual political maneuver. Governor Welsh doesn't want his name put forward on the first ballot. He wants all of his delegation's votes - to go to President Johnson. He says that in this way he hopes to head off - another candidate, Governor Wallace of Alabama, who is about to campaign in Indiana, and should the southern segregationist be the only candidate to do so he'd be entitled to the votes of the Hoosier delegation. Hence, Governor Welsh's decision to enter the Indiana primary -- even though he's not after votes for himself.

## SILVER

The House Appropriations Committee -- has just refused to okay the minting of fifty million silver dollars. Westerners, who like to do things in a big way -- are fond of flipping silver dollars onto a bar or gambling table. And - they're running out of them.

But in Congress they now suggest - that folding money be used, and that our silver be put into - not dollars - but dimes.

## VIETNAM

An incident in Saigon points up - one of our basic problems out there. The problem of - the Red Terrorists . The infiltrators from North Vietnam who attack American personnel.

Today a military bus with twenty Americans aboard was moving through downtown Saigon. As the driver pulled to the curb to let a group of soldiers out - a Terrorist threw a can of powdered milk through the door.

At least, that's what it looked like. But inside the can was - not powdered milk - but two pounds of dynamite. Enough to have blown the bus apart - if it had gone off. Which fortunately - it didn't.

## CANCER

The latest advance in cancer research - concerns "Laser". An abbreviation of - "Light Amplification Through Stimulated Electro-Magnetic Radiation".

"Laser" - a pencil of light so strong it can penetrate steel. Doctor John Minton of the National Cancer Institute has used it - to cure cancer in mice. The radioactive light - destroying malignant cells. Can "Laser" cure cancer - in human beings? That's what Doctor Minton now hopes to find out.

## DOLLY GEE

Here's that case of Dolly Gee of San Francisco. It's not so much the fact that Dolly embezzled more than three-hundred thousand dollars from her bank in San Francisco's Chinatown. What has everybody stymied, including the judge - is her motive.

As you already have heard, she says she started embezzling thirty-four years ago - because she discovered that's what her father had been up to. The daughter, out of filial piety - trying to protect his reputation. So she filched funds - to cover his shortage. Then had to do the same - to cover herself. And from there - she never looked back. Dolly juggling accounts - since nineteen twenty-nine.

The judge - believed her story. And - offered her clemency. Only five years - for taking three-hundred thousand. A light sentence, Dick, for Dolly Gee of San Francisco's Chinatown.

**CHIMP**

Now for that celebrated artist, Pierre Brasseau - whose modernistic paintings caused an uproar at the exhibition in Gotenburg, Sweden. The critics of Gotenburg - first applauded the paintings. Then - changed their minds, and sued the artist - for fraud. Today - they lost their case. The judge, declaring that these learned critics should have recognized the truth - the first time they looked at the paintings. For you may recall that Pierre Brasseau is actually - Pete the Chimpanzee. The curator of the zoo put a brush in Pete's hand - and a canvas in front of him. Presto - modernistic art. And the critics of Gotenburg were most impressed - until they discovered that they were criticizing the work of Pete the Chimp.
