

PLANE

L. T. OLDS. THURSDAY, MARCH 28, 1963

The Secretary of Defense claims that he will be saving Uncle Sam a cool billion dollars. How? By giving his support to - the controversial T.C.X. fighter plane.

Good Evening Everybody:

This plane, a single design - for the Air Force and the Navy. Doing away with a duplication of the two services.

In an El Paso court room today the Defense Attorney demanded - that the Jury be polled. Whereupon, each juror rose and said, "guilty". Not one convinced of the innocence of - the Defendant.

Why did the T. C. X. contract go to General Dynamics - instead of Boeing? Secretary McNamara Today told congressional investigators - that General Dynamics could do the job more cheaply. Besides a former boy wonder of lone star finance, guilty of - Navy report called the Company's debts - exorbitant defrauding farmers and finance companies.

ROCKET

The Saturn One rocket vanished into the ocean today. But its flight was successful.

The four hundred and seventy-one ton monster, tall, has a sixteen story building - developing a thrust of one and one-half million pounds. Rising from it's launching pad at Cape Canaveral, a-top an inferno of liquid flame. Arching seventy -seven miles toward space - in seven minutes. Then plunging into the sea.

The test - A-OK, Saturn One on its way to becoming - a work-horse of our space program.

INTEGRATION

THE TENSION IN GREENWOOD, MISSISSIPPI ,IS DUE TO
VOTERS REGISTRATIONS.THE NEGROES OF THE TOWN,GATHERING AT THE
LEFLORE COUNTY COURTHOUSE-TO REGISTER. WHICH-THEY DID.

BUT WHEN THEY STARTED TO MARCH AWAY FROM THE COURT-HOUSE-
THEY WERE ORDERED TO DISPERSE. THEY REFUSED-AND KEPT ON
MARCHING. WHERE-UPON, THE GREENWOOD POLICE-TURNED LOOSE A POLICE-
DOG. THAT CAUSED THE GROUP TO BREAK UP-~~APART~~. IN FACT, THERE ARE
REPORTS OF -MARCHERS BEING BITTEN.

VOTING RIGHTS FOR NEGROES , NOT COMING EASILY-TO GREENWOOD
MISSISSIPPI.

STRIKE

If New Yorkers feel as if they are on a Merry-to-round just when they thought their newspapers would be on the stands again - the photoengravers interposed a veto. The rank and file, defying their leadership-voting to stay out. Mayor Wagner, resuming his now familiar role - setting up one more meeting between the strikers and the publishers.

Will the newspaper strike - really end tomorrow? New Yorkers are so skeptical by now, that many of them are saying - they'll believe it when they see their papers again.

NOTE

THE SOVIET REJECTION OF THE LATEST AMERICAN PROTEST-
ISN'T LIKELY TO CAUSE AN INTERNATIONAL INCIDENT. WASHINGTON
REPEATS THAT TWO SOVIET RECONNAISSANCE PLANES-DID INDEED FLY
OVER ~~XXXXX~~ ALASKA. BUT NOW THE BELIEF IS- THAT THE RUSSIAN PILOTS
WERE LOST. LOST IN THE HEAVY MIST THAT SO OFTEN COVERS BERING
SEA- WHEN THEY STRAY ^{EB} INTO THE AIR SPACE ~~over~~ ^{over} OUR *largest, our*
FORTY-NINTH STATE.

CUBA

There's an odd twist in the news from Cuba. Only a few weeks ago, the Russians pulled out their long range bombers. Tonight Castro is threatening to bring in - long range bombers. Raising the delicate question of whether the bearded dictator might ask Moscow for them, and whether Khrushchev would try to return the offensive weapons - that we have said we will not permit in the Castro domain.

You might think that we have Castro and Khrushchev - in a real dilemma. The administration doesn't want - a war scare in the Caribbean - hence is anxious to put a stop to those minor Cuba exile raids - the shooting up of Soviet ships in Cuban harbors.

SOVIET

SOVIET COMMUNISM APPEARS TRAPPED IN ITS OWN CONTRADICTIONS
- TO JUDGE BY WHAT IS HAPPENING IN MOSCOW. THE CONTRADICTION-
KHRUSHCHEV, ALLOWING CRITICISM OF STALIN, BUT FORBIDDING TOO CLOSE
A LOOK- AT THE SYSTEM THAT PRODUCED THE MURDEROUS TYRANT.

THE CRITICISM- ANOTHER EXPOSE BY A FORMER INMATE OF A
STALIN LABOR CAMP. BORIS DIAKOV, TELLING HOW HE SPENT TEN YEARS
IN SIBERIA - BECAUSE HE COMPLAINED ABOUT FINDING A CIGARETTE IN A
LOAF OF BREAD.

THE CONTRADICTION- KHRUSHCHEV, WARNING SOVIET WRITERS NOT TO
BLAME STALIN EXCESSES ON MARXISM. CHIEF TARGET OF THE KREMLIN - *the famous*
ILYA EHRENBURG, WHOSE ^{MEMOIRS *Just out,*} ~~MEMOIRS~~ PAINT A BLACK PICTURE OF LIFE
UNDER COMMUNISM. EHRENBURG, SUGGESTING THAT ONE MAN COULDN'T HAVE
BEEN RESPONSIBLE - FOR ALL THE EVILS OF SOVIET SOCIETY.

BRAZIL

The delegates to the Red Congress in Brazil -
are beginning to get jumpy. Nervous because they are
having so little effect on the people of Brazil. That's
the explanation of their continuing drive - to get into
Rio. They hope that attendance might be better in that
city.

But Governor Lacerda - is still sending
police in steel helmets to enforce his Rio ban on this
Communist get-together.

EARTHQUAKE

TEMPLETON

Last night's earthquake off Iceland - was as violent as the one that shook Morocco earlier this month. The difference being - that this one simply made the sea boil and surge - instead of knocking down villages. Reykjavik felt the tremors. Buildings swayed and windows crashed, but that was all.

The real damage occurred deep on the floor of the Greenland sea - between Iceland and Spitzbergen.

because he could ever put satire into his music. For example, his take-off of Wagner called - "Thru the Ring in Ten Minutes". Or maybe you preferred "Mister Bach Goes to Town".

Now Auld is Greenwich Connecticut - at the age of fifty-two. Brilliant, unforgettable - Alec Templeton

TEMPLETON

The passing of Alec Templeton - removes one of the colorful entertainers of our time. "Colorful" is an expressive term for a man who never saw color.

Alec Templeton - born blind. Also born - a musical genius. Composing his first tune when he was four. Going on to become - the legendary blind pianist of the concert hall. A colorful performer - because he could even put satire into his music. For example, his take-off of Wagner called - "Thru the Ring in Ten Minutes". or maybe you preferred "Mister Bach Goes to Town".

Now dead in Greenwich Connecticut - at the age of fifty-two. Brilliant, unforgettable - Alec Templeton.

SEA

Here are a couple more chapters in a continuing story that might be called - "Atoms and the Sea".

In Washington, the Secretary of the Interior wants to build - a nuclear powered bathyscaphe. A Deep Sea Laboratory that won't be as limited in range as the famous invention of professor Auguste Piccard.

Secretary Udall, calling for - "A sea capsule comparable to the space capsules of the astronauts". The betting on Capitol Hill is that he'll get it. So, Dick, we'll soon be going down to the sea in capsules.

TIGER

The Government of Indonesia is in the market for - big game hunters. The reason - a man-eating tiger is on the prowl in Sumatra. Apparently, a typical man-eater. Too old to catch Simians and wild goats. Turning to a less agile bill of fare. Terrorizing rubber plantations of Southern Sumatra. Killing more than twenty workers.

Jakarta is bringing in - the best antidote.

Veterans who know how to patrol the jungle. How to use high-powered rifles. And are not afraid to face - the big tiger of Indonesia. Tonight, the first Safari is out in search of the man-eating tiger of Sumatra. While I salute WANE Radio - Fort Wayne, Indiana on its 15th Anniversary - and so long until tomorrow.
