CHINA

Secretary of State William Rogers announced today st that the United States - next month at the U N General Assembly session in New York - will vote in favor of admitting Communist China to the world organization. - But, he adds, our government will fight any attempt to oust Nationalist China from its UN membership. This, of course, amounts to a major turn around in US foreign policy -- a development of global importance - coming only two weeks after President Nixon's announcement of his plan to visit Peking. However, nothing 🖛 Secretary Rogers announcement indicated whether either Communist China or Nationalist China or both - would accept or reject the American position.

APOLLO

After spending a record sixty-six hours and fifty-five minutes on the surface of the Moon, Astronauts David Scott and James Irwin **to** blasted off in their Falcon craft today - and rejoined the whilent was command ship Endeavor, orbiting more than sixty miles above the lunar terrain. Scott and Irwin carry with them some two hundred pounds of moon rock and soil samples - believed partly to be from the Moon's original crust formed more than four billion years ago. R The two Moon explorers - and command ship pilot Alfred Worden - will continue to orbit the Moon for two more days -- making additional experiments and taking more pictures. On Wednesday, - the day after tomorrow, they begin the return voyage home to a splash down in the

Pacific Saturday afternoon. Behind them on the Moon they Weawong other thinge, they leave two mementoes - their see Falcon craft

and that electric Moon buggy

APOLLO - 2

-- and that eight million dollar moon buggy --

with only only test driven sixteen miles on its 'speedometer.

ECONOMY Meanwhile here on Earth - something important, An agreement was reached today, # ending the eighteen - day old railway strike which had shut down ten lines -- causing serious cut-backs in other industries. Atthough The agreement, - which gives the railroads a new set of work rules to - improve efficiency, must be to ratified by the workers, union officials. called on striking train crew men to go back to their jobs immediately. The rail settlement came as two of the nation's largest steel producers -- U S and Bethlehem announced price increases of about eight percent to finance -- what they terment - the "inflationary wage contracts signed recently with the steel workers." The White House saying it was both "surprised and displeased" with the increases. - which Other steel producers are expected to likewise. announce.

Labor settlements in rail and **man** steel were given credit for an upturn on the New York Stock Exchange - after four **man** consecutive setbacks last week.

LOCKHEED

By the narrow margin of one vote, the Senate voted today in favor of government guarantees for two hundred fifty million dollars in bank loans to Lockheed aircraft - the save the nation's largest defense contractor from bankruptcy. The forty-nine to forty-eight vote - a victory for the Nixon **similar** administration -- assures Lockheed sufficient funds to continue work on the huge tri-star jet liner destined for commercial use.

KHARTOUM (SUDAN)

In Khartoum the capital of the Sudan diplomatic relations with Russia neared the breaking point today when the Sudanese ordered the Russian Embassy's number two man in **Himsters** Khartoum out of the country. The Bulgarian Ambassador was also ordered to leave.

DENTIST

A California dentist and his twenty-two year old son are under federal indictment in Los Angeles tonight -- named as defendants in a unique draft-immunicom evasion scheme. A Coast Guard cutter arrested fiftytwo year old Doctor Bernard Bender and kis son, Lawrence Allan, after catching up with their yacht only twenty miles off the south coast of Cuba. The indictment charges that Bender placed blades on the teeth of young men due to report for military service physicals and also allegedly supplying, with letters stating they were under going orthodontic the treatment. After being disqualified for the draft says the indictment the young men paid fees up to two hundred dollars to have the dental bands removed.

EAGLES

A Senate group heard testimony today - that more than five hundred bald and golden eagles were shot illegally - from helicopters -- over Wyoming and Colorado during the past year. A helicopter pilot - James Vogan -- said he flew more than twenty persons on flights to kill eagles over thirteen ranches. Although he says he never, personally, killed one. Some claim they had permits to shoot eagles under a predator control program to protect young livestock, especially lambs - but one official says no such permits have been issued in the past two years.

RAIN STORMS

Severe rain storms along the eastern seaboard floods - violent thunder and lightning - resulted in at least nine deaths in the Baltimore - with To five other persons reported missing. One man, drowned when we stepped into the flooded basement of his even home. The weekend storms also disrupting traffic in the New York area. Three days of driving tox rain bringing nearly six inches of water. Kin the past -The recent the any ran has caused rained to New York causing some New Yorkers to ital blame the weather on the Apollo Moon shots. "Not so", says a spokesman for the National Weather Service, "there's no connection between what happens on the Moon and the subless weather in New York. It's only a coincidence." Just the same, it seems, many monew Yorkers play it safe and carry their umbrellas to work on Moon landing days. 00 Dow, how would you like to go up and bring tack that 8 mil & moon buggy?

ALCOHOLISM - 2

alcoholics. And the head of this program of an assistant medical director boosays he became an alcoholic while working on the project and had to take the treatment himself.

ALCOHOLISM

The business world may have to change its entire approach to the problem of alcoholism -- now that the federal civil service commission has ruled it a disease -- and that employees who have it are entitled to sick leave, as with any other ailment. Over the years the federal civil service has, to a degree 🖪 set the standards for working conditions in the United States - and this may mean that, ultimately, employers will have to accept more responsibility for alcoholic workers." For instance, it may become more difficlt, if not outright impossible, to fire a hard-drinking employee simply because he fails to show up for work -- or insists on making serious blunders on the job. Some companies, however, already have rehabilitation programs for their over-indulgent workers. - the Bethlehem Steel Corporation - for example

which has one such project operated largely by recovered
