

DULLES

L.T. - Delco. Thursday, June 21, 1956.

~~During his speech before the convention of the~~

~~Kiwanis International.~~ ^IIn San Francisco, today - Secretary

Dulles ~~had~~ used this phrase: "The most damning indictment

of despotism - ever made by a despot." The reference ^{being}

~~course~~, to Khrushchev's denunciation of Stalin. Secretary

Dulles said ^{that} ~~xxx~~ no one could read ~~that~~ ^e denunciation without

horror and revulsion - because it showed Stalin as brutal and

sadistic.

^{see,}
~~Then~~

[^]Dulles went on to point out - that Khrushchev
was Stalin's close collaborator - and the beneficiary of

Stalin's crimes. In other words, ^{that} ~~xxx~~ Khrushchev has fallen

heir to the apparatus of tyranny [^] that Stalin built. ~~And that~~

there ⁱis no defense within the Soviet system - against another

Stalin. Secretary Dulles suggested that if Khrushchev wants

to prove that violence is outmoded in Russia - the best way

to do it would be to allow the Russian people a free election,

and the Germans a free election!

The Secretary of State also mentioned Chinese Communism - saying that Mao Tse Tung is trying to out-do Stalin in brutality. He went on to say that we are hoping the Chinese Reds will renounce the use of Force. But that so far there is no sign they will!

TWINING

Our Air Force chief - General Nathan Twining, is on his way to attend the Moscow Air show, on Sunday. General Twining left in a DC-6 transport. At Berlin, he'll pick up a Russian navigator for the flight on to the capitol of Red Muscovy.

Before leaving today, General Twining told newsmen that the Kremlin has given him, what he called, "an interesting itinerary". Then he added: - "We will get out of the Moscow area." He not only wants a look at their planes, he wants to fly in them. Wonder if he'll have a chance to pilot any of them? And will his opposite number in Russia be invited to visit this country? General Twining said he didn't know about that.

EISENHOWER

President Eisenhower walked out of his hospital room today - for the first time since his operation. He made the trip to a corridor - where he sat in a chair, and talked with his doctors for about twenty minutes. Then back to his room. Gaining strength each day.

During the day, the President took care of more official business - including a briefing from his assistant, Sherman Adams on what happened at the Cabinet meeting this morning, with Vice President Nixon presiding.

Later this afternoon, the President conferred for forty five minutes with General Gruenther. It was the longest conference Mr. Eisenhower has had with anyone - except his family and his staff. He and General Gruenther spent most of the time talking about the problems of Nato.

The bulletins continue to describe President Eisenhower's condition as "satisfactory". Also, we hear that he has stopped losing weight. That ended as soon as

he got back to a regular diet, three days ago.

Meanwhile, Press Secretary Hagerty denies that Mr. Eisenhower has issued word ~~for~~ for the G O P to go ahead with his re-election campaign. Washington, full of rumors, had one that President Eisenhower gave a green light to the arrangement committee that will take up the problem of the August convention. But Hagerty says there has been no special word from the President regarding re-election plans.

MOLLET

The Premier of France received ^{now} three votes of confidence in the National Assembly today. Guy Mollet, still walking the political tight rope - and pushing through his pension plan.

Mollet ~~has always~~ managed ^s to get ^{his} a vote^s of confidence - because the right wing dislikes his pension plan - but approved ^s of his handling of the Algerian situation. The Communists don't like what ^{'s} happening in Algeria - but they're afraid to oppose higher pensions. ~~By starting off the~~ ^{And so -} ~~two sides~~ Mollet has managed to stay in office.

His pension plan involves a boost of four hundred million dollars ^{- affecting} ~~some~~ five million Frenchmen. ^{How to get} ~~will be affected.~~
^{that extra money?}
~~To get the money,~~ The Mollet bill ~~is~~ calls for higher taxes on income and inheritance - also on alcohol and automobiles, ^{and} ~~It also includes~~ a fifty percent increase in the tax on stock market transactions.

By skillful maneuvering, Mollet ^{won} ~~got~~ an overwhelming

~~accept~~

acceptance ^{for} ~~of~~ his pension plan. He hopes it will be a first
step toward a broad scheme of social reform.

ALGERIA

The other night we heard about the execution of two Algerian terrorists, it was predicted this would bring on another wave of terror.

In fact the "Army of Allah" - it's agents, slipped notes into French brief cases and under French doorways - warning that now five Frenchmen would die for every Nationalist executed.

Today it came. An ambush of a column of trucks. Eleven soldiers killed, 7 wounded.

Also in Algiers, in the heart of the city, gunmen fired into a crowd of Europeans - killing four and wounding many more.

As a result of these attacks - many of the French in Algeria are criticizing the resident minister more bitterly than ever. Robert La Coste had claimed that peace seemed near. Tonight the French in Algeria are beginning wondering if peace will ever come - unless the authorities take far stronger steps.

CYPRUS

London suspends its plan to offer self rule to offer self rule to Cyprus. The reason - opposition from Turkey. Opposition to any concessions that might lead to Cypriot union with Greece. Ankara claiming that if the British leave the island - it should revert to Turkey. Turkey owned it before. Greece never did, says Ankara.

The British, we hear, are disappointed because their compromise plan can't be announced before Soviet Soviet Foreign Minister Shepilov arrives in Athens, next week. London would like to take away from him one of the themes on which he is sure to harp - Cyprus.

ROMANIANS

A Swiss court has sentenced four Roumanian refugees to jail. ~~They are the~~ ^{These are} men who shot their way into the Roumanian Legation in Bern last year. ~~While~~ ^{In} doing ~~it~~ ^{so}, they killed a legation employee. After they were captured, they said their purpose was to protest the holding of political prisoners inside the Red Romanian Legation.

Now we have the sentence of the Swiss Court - the four Romanians to go to jail. Then, to be expelled from Switzerland.

PLANE

Air France tells of American anti-aircraft fire coming dangerously close to one of its planes, an airliner on its way from Prague to Paris with sixty persons aboard. The plane flying at six thousand feet, near Nuremberg - when American guns opened up. The plane was not hit - and continued on its route to Paris.

In Nuremberg, Army officials reply that the airliner, off its course, simply ran into anti-aircraft practice. And that the firing was stopped as soon as the Commanding Officer realized there was a plane overhead.

STEEL

The United Steel Workers are ^{still in a} deadlocked with leaders of the industry. - ~~and neither side can see any daylight ahead.~~ The big three ~~of the industry~~ - U.S. Steel, Bethlehem, and Republic - still insist on a five year contract.

^{which} ~~The Union will~~ rejects ~~that proposal.~~

^{said} Today, a management spokesman ~~remarked~~ "We are miles apart." And a union spokesman said that the talks would probably continue right down to the deadline - June Thirtieth, when the contract expires. ^{Then - a strike of} ~~if no agreement is hammered out~~
~~by then the steel industry is faced with the threat that more than six hundred thousand workers, will walk off their jobs.~~

REISEL

Left Wing Union leader, Harry Bridges, has the power to cut our strategic lifeline between San Francisco and Hawaii. He hear this from Labor Columnist Victor Reisel - who was blinded in that vicious attack a few weeks ago. Victor Reisel told the Senate Internal Security sub-committee, that Harry Bridges can shut down both San Francisco and Honolulu so tight that it would take both the Army and Navy to reopen them. And that Bridges has tried to extend his control to New York and New Orleans - but so far has failed in that. But if he ever succeeded, then we would be a fine national predicament.

Reisel's testimony was released by the sub-committee - as it prepared to open hearings on Communist infiltration of the waterfront.

²
These two Defense Department Security Agents who invaded Senator Lehman's office on Wednesday - were looking for wire tapping apparatus. ~~The point is that~~ The Senator's office is next to a room - where a sub-committee has been hearing secret testimony about ~~EMX~~ our air power. The two agents say they were looking for hidden listening devices.

They say
~~and they claim that~~ the Senator's Secretary, ~~Mrs. Mildred~~
made no
~~Akins, didn't make any~~ fuss about their inspection ~~as soon~~ *— when*
as she saw their credentials.

But, some Senators, *including* ~~don't accept that explanation.~~
Lyndon Johnson of Texas, charging ~~that~~ ² the agents ~~were~~
with ..
~~guilty of what he termed,~~ "typical bureaucratic flatfoot
stupidity."

FOREIGN AID

The House Foreign Affairs Committee today voted unanimously - to launch an investigation of our Foreign Aid program. Chairman Richards of South Carolina to direct the investigation. The committee to report its findings to the House by February First.

The investigation is in line with the President's suggestion that Congress study foreign aid from top to bottom - the better for the legislators to understand why so much money is needed - for Foreign aid.

NATIONAL DEBT

The House approves a reduction in the ceiling of our National Debt - a three billion reduction. This is *another* victory for the administration - the House, acting after testimony by Secretary of the Treasury, George Humphrey.

HIGHWAYS

A Senate House Conference Committee agrees on a new highway program. It's to be "pay as you ride". This means that building of roads will be limited to money in a special road fund. This may run construction beyond the planned thirteen years. The cost is expected to be around thirty-two billion.

CRASH

Venezuelan officials, in New York, are searching for the cause of the tragic air crash, the airliner that plunged into the Atlantic, with a loss of seventy four lives. They promise to continue their investigation as far as it is humanly possible to do such things. Our government has offered to help, although technically we have no authority - because the plane went down off the Jersey Coast, beyond the twelve mile limit.

MARILYN MONROE

The screen's dazzling blonde to marry again.

Marilyn Monroe, - this time to playwright Arthur Miller.

This word came today from Miller - in Washington, where he was testifying before the House Committee on Un-American Activities. Miller refused to name persons present at a meeting of Communist writers that he attended. Between sessions, the playwright was less hesitant about talking, and told reporters that he and Marilyn expect to get married within the next few days after which she'll be off to London, to make a movie. Her intended husband may have to stay behind. He may not be able to get a passport.

HEIRESS

In Spokane, Washington, Mrs. Lucille Gallegos inherits more than one hundred and fifty thousand dollars. Mrs. Gallegos is an Indian -- and she gets the money for uranium rights on her tribal reservation. Altho' the squaw is delighted, of course, her happiness is tempered by the fact that she's in the Spokane jail. Charge-drunk - and disorderly. But she says she'll go on a real spree - a spending spree - as soon as she finishes her sentence. She may be in the jug, but Henry, the Squaw has 150,000 bucks.
