## L.T. COMMERCIAL, THURSDAY, DECEMBER 15, 1966 (Dallas Townsend, Sub.)

GOOD EVENING EVERYBODY: Did they -- or didn't they?
The debate rages tonight -- throughout the world.

charging that American warplanes have, indeed, attacked the North Vietnamese capital -- on two successive days.

Calling it another dangerous escalation -- of the war in Southeast Asia. United Nations Secretary General

U Thant -- further deploring the alleged air attacks; which might lead -- said he -- to a far "wider war."

The U.S. State Department -- for its part adding

fuel to the controversy; by stating there's a "possibility"

-- that American planes did hit residential areas of

Hanoi. Officials this evening firmly denying that plan

dropped bombs within the city limits.

U.S. pilots who took part in the action -- still insisting they hit only military targets. Suggesting the possibility that suspected U.S. bombs -- were, in reality, spent shells or missiles -- originally fired by Communist air defenses.

Parliament -- describing themselves as "gravely concerned" -- sent President Johnson a cable tonight -- urging him to stop air attacks involving main population centers.

Environ and Same wir store agreeing house Dolfostant

In Paris -- Secretary of State Dean Rusk today laid it on the line -- at a meeting of the NATO Council of Ministers.

Rusk quoted as saying the U.S. will stand firm in its commitment to Europe and NATO -- come what may in Vietnam.

Asserting, however, that the United States will not back out of the war -- even if it means jeopardizing East-West relations. The reason -- said he -- the United States can not honor one treaty -- such as NATO's -- and fail to live up to another -- such as that of the South East Asia Treaty Organization.

Earlier, the NATO ministers agreeing to a full study

-- of their Seventeen-year-old defense alliance. With

a view m to streamlining the organization -- to meet new

and changing situations. Not the least of which -
French withdrawal from NATO -- now virtually complete.

Dr. Martin Luther King was the chief witness today

-- before a Senate subcommittee studying urban decay.

Utilizing the forum -- for another strong anti-war declaration.

Dr. King charging that the United States is spending billions -- on what he called an "ill-considered" war in Vietnam; while here at home -- the "war on poverty" is "scarcely a skirmish" -- as he put it.

Dr. King adding that "the security we profess to seek in foreign adventures -- we will lose in our decaying cities." For "the bombs in Vietnam also explode at home" -- said he; destroying the hopes and possibilities-- for a decent America."

Hello Dallas, and good evening everybody:

Are you in the mood to go skiing? After telling on the air about the big snowstorm a few days ago, the one that dumped so many inches on Michigan and other states, well, I have my skis out qu and I'm all set to go.

This is the time of year when shiers get eager for their favorite sport, and, I have a suggestion for all of them. There's a fabulous new book just out.

It's called SKI DOWN THE YEARS, and it's one of the most readable shi books ever produced. If you get a copy well turn right away to page one hundred and ninety-three and take a look at that picture of Chris Young in his black evening long tails, with a suitcase in one hand, booming down the cone of Mt. Washington, on shis.

But, it's full of terrific stories including the one about Toni Matt, Toni telling how he schussed

the Headwall straight. Perhaps the number one thriller in the history of skiing. The book also tells the glorious story of how skiing came to this country, to America - and a lot about the colorful people who have made it so much fun, the Fred Iselins, the Sepp Ruschps, the Luggi Foegers, the Alf Engens, the Otto Langs, the Hannes Schneiders, the Frasers, Roland Palmedos, Averell Harrimans, and I could go on and on.

The pictures in it are "extraordinary". So three cheers for John Jay and John and Frankie O'Rear and Ski Magazine for giving us a book that will make nearly every skier howl with glee, and make him feel like doing a down-mountain jump over highways, with cars below and right over the heads of people, as the chap is doing on page seventeen. Don't miss that one! Solong,

Dr. Carl Coppolino this afternoon was found Not Guilty of murdering William Farber, a neighbor, in 1963. The jury at Freehold New Jersey deliberated Four and a half hours before bringing in its verdict. Coppolino was reunited briefly with his mother and his second wife -- then he was taken back to jail. Tomorrow he'll be sent to Florida for another trial -- on charges that he murdered his first wife in 1965.

Today's ecquittal of Coppolino in Freehold -represented the second courtroom victory in a month for
his attorney, F. Lee Bailey -- who represented Samuel
Sheppard at his second murder trial in Cleveland. That
much-publicized case today was officially closed. Following
the acquital of Sheppard on November 16th. a grand jury
now says there is absolutely no evidence to warrent the
indictment of anyone else. The Grand Jury was sharply

public that Marilyn Sheppard was murdered by the jealous wife of an alleged lover. The report declaring -- there is not one lota of evidence to support that charge. To which Bailey replies -- it's a rediculous whitewash.

One of history's greatest showmen -- died today
at Burbank, California. World-famous Walt Disney -- dying
at the age of Sixty-Five. Official reason -- acute
circulatory collapse. Flags on Los Angeles county
buildings ordered flown at half staff in tribute.

Walt Disney -- a one-time cartoonist -- who grew
to achieve fame and success in virtually every phase
of show business. Along the way -- becoming one of
the most honored figures of the Twentieth Century; his
awards including twenty-nine Oscars -- four Emmys -the Irving Thalberg Award -- the Presidential Freedom
Medal -- and the French Legion of Honor; as well as some
seven-hundred citations -- from all over the globe.

Disney first gained fame via Mickey Mouse and Donald Duck. But his crowning achievement -- the creation of "Disneyland" at Anaheim, California -- at a total

investment of more than Fifty Million dollars -- maing it easily the worlds most costly and most famous amusement park. Also -- inadvertently -- the cause of an international incident; when Nikita Khruschev was barred from the park for security reasons -- during a visit to Hollywood.

Perhaps the best epitaph to Walt Disney -- his

own words in a recent interview. The showman was asked:

"What was the most rewarding thing in your life?" His

answer: "The whole blankety-blank thing." From every

standpoint a most eminent American.
