

L.T. -BUICK, FISHER. TUESDAY, JUNE 21, 1966

af

GOOD EVENING EVERYBODY:

A Twenty-One Gun salute and a royal welcome today-- for the King of the Desert, King Faisal of Saudi Arabia; on his arrival in Washington--for a Three-day state visit.

As a special gesture of friendship--President Johnson addressed the striking king from Central Arabia in his native tongue. According to Arab tradition--the President declaring: "Our house--is your house." King Faisal's house in Arabia is a stunning ultra-modern Arabian Nights palace on the outskirts of the medieval walled city of Riyadh. The King himself speaks excellent English and is no stranger in this country.

## AUSTRALIA

Opposition Labor Party Leader Authur Calwell of Australia--the victim of a would-be assassin today at Sydney. An arch-foe of government foreign policy--Calwell had just attended a rally protesting the sending of Australian draftees to Viet Nam; when his assailant stuck a shotgun in his car window--and fired point-blank at Calwell's head.

Rushed to a nearby hospital--the Seventy-year-old statesman was found to have suffered severe facial injuries. However, his over-all condition--is said to be satisfactory. The man who shot him -- who may have been mad -- was captured minutes later by police.

VIET NAM

In Viet Nam--arrested rebel leader Thich Tri Quang was flown today from his home in Hue--to a government hospital in Saigon. There to face a delegation of fellow Buddhist monks--urging him to call off his campaign against the present military government.

The answer--"never." Thich Tri Quang--refusing to listen to the monks <sup>and</sup> vowing to continue his Fourteen-day hunger strike--until the end.

As for ~~that~~ <sup>the</sup> government seige of Saigon's main Buddhist Pagoda--it <sup>is</sup> now in its Fourth Day. Some Fifteen Hundred persons trapped inside--with little food or water. Premier Ky promising to keep on holding them prisoner--until they produce the killer of a policeman.

On the battlefield--another day of heavy fighting about Two Hundred and Seventy miles north of Saigon--near the South China Sea. The toll--<sup>now</sup> at least Sixty-Nine <sup>Viet Cong</sup> ~~Communists~~ dead in Two days of battle; with American forces--attempting to turn a trap into a rout.

## BRITONS FOLLOW VIET NAM

Meanwhile, a pair of Britons were making news today--  
in both North and South Viet Nam.

To the North <sup>the aged</sup> British philosopher, Bertrand Russell ~~was~~  
heard on Viet Cong Liberation Radio, ~~urging~~ U.S. troops--to  
lay down their arms. Viet Nam--said he--" a country whose  
people are united in their hatred of the United States--as  
a foreign aggressor."

While ~~back~~ at Saigon--Lord Walston of the British Foreign  
Office <sup>was</sup> ~~winding~~ up a visit to the battle zone with a news  
conference ~~one~~ in which he predicted an end to the shooting  
war in Viet Nam--"within the next Twelve Months." Lord Walston  
asserting that the North Vietnamese now realize--they can no  
longer win the war; adding, however, that they <sup>are</sup> ~~are~~ apparently  
determined to continue the conflict--as long as possible.

SAFETY

A bill its sponser hopes will reduce highway slaughter by forcing the auto industry to build safer cars-- was approved unanimously today by the Senate Commerce Committee. The main emphasis in the bill has to do with interior safety-- some way to prevent motorists from being banged around inside their cars when an accident occurs.

Committee Chairman Warren Magnuson of Washington-- calling the bill "a lot tougher now"--than when first offered by President Johnson. However, Senator Magnuson predicts that "the industry--will be able to live with this bill"--as he put it. In fact--said he--"they'll be happy later on--that we passed it."

## INDONESIA

At Jakarta--Sukarno of Indonesia today was stripped of his last vestige of power. The nation's top legislative body--giving broad authority to Army Chief Lieutenant Gen. Suharto; to run the country as a virtual dictator--pending general elections. Though still President--for-Life--  
*seems to be*  
Sukarno officially reduced to the role of a puppet.

Adding insult to injury--the Indonesian Congress also electing *Subarno's enemy Gen.* ~~Gen. Abdul Haris~~ Nasution as its permanent chairman. In government protocol--a rank second only to that of Sukarno; who fired Nasution from his cabinet--only last February.

The new chairman--a revolutionary hero and perhaps the country's best-known soldier. Ad Defense Minister ~~at the~~  
*he was*  
~~time--the man~~ generally credited with putting down that attempted Communist coup of last October.

## DISCOVERY

For all the recent discoveries in space--here's one right on our own planet. Discovery of an Eight-Thousand-Foot mountain--capped by an active volcano with a pent up explosive force of Ten Million Tons of TNT.

Mount Rumble--as it has been christened--little more than a Hundred Miles off the Coast of New Zealand. Yet hidden from human view--for untold centuries--and still is hidden.

The reason: it rises from the floor of the South Pacific Ocean--where the water is Nine Thousand feet deep. The roar of the volcano--under a Thousand feet of water--thus reduced to a rumble by the time it reaches the surface. Hence its name--Mount Rumble.

The volcano just discovered by Zealand scientists--with recording equipment--monitoring the ocean depths for new sounds of sea life.

## MEMORY

A startling new advance in the study of geriatrics-- is reported today from Albany, New York, where Dr. D. Ewen Cameron--a government specialist in psychiatry--tells of "encouraging" experiments with a so-called "memory pill." A capsule containing magnesium pemoline--a mild stimulant to the central nervous system.

In test cases so far--the pill administered to Twenty-Four persons; all in their Fifties--all of them suffering from "severe loss of memory--due to senile or pre-senile psychosis;" of these--Dr. Cameron reports that two-thirds showed remarkable improvement--within a week.

The prime example--a Fifty-year-old executive--in forced retirement for three years because of loss of memory; but able to return to work--soon after treatment began.

Let's see, what is your name? Please pass me a memory pill! Oh yes, Warren Moran.

POLITICS

Wichita, Kansas--political news with a family twist.

Bruce Madden--Fifty-Three--filing as a Republican candidate for the Kansas House of Representatives; at the same time that his son --Twenty-One-Year-Old Robert Madden--filing as a Democratic candidate for the same office.

When asked for comment--the father saying:

"I suppose it does create an odd-looking situation--but the filings were entirely independent." For his part--the son ~~asserting~~ ~~insisting~~--"this isn't a lark." "We have a good father and son relationship"--said he--"but we keep politics out of it."

Question--who will Mrs. Madden--wife and mother of the Two candidates, <sup>who</sup> will she vote for?
