

EISENHOWER

L.T.-Delaware Fri. Sept. 4 - 59.

The permanent council of Nato gave its formal okay, today - to President Eisenhower's forthcoming talks with Soviet Premier Khrushchev. The approval given - with the understanding that they will discuss issues in the cold war, But - not negotiate. Meaning - that they ~~will~~ won't make agreements.

The Nato Council acted, after hearing from American Secretary of State Christian Herter. Who gave assurances - that President Eisenhower will not try to settle anything behind the backs of our western allies. No chance - of the United States "going it alone."

Meanwhile, President Eisenhower is in Scotland, taking it easy in a Caledonian castle - after his ten days of strenuous travel and busy statecraft. Today, it was golf, instead of negotiations. A local Scot, ^{was} ~~was~~ watching the Eisenhower game, ~~then~~ asked by the news reporters what he thought of the President as a golfer?

"Weel," replied the Scot, "I'd say he has gey a
paukey swing." The word "Paukey" translated as "pretty
fair."

KHRUSHCHEV

Khrushchev - going to China, after his trip to the United States. A surprise announcement ^{that} ~~which~~ he made at a reception for Ambassadors in Moscow today. Khrushchev - to give the Chinese Communists a report on his talks with President Eisenhower. Probably - to calm their fears of a turn for the better in Soviet-American relations. Which, they are said to be worried about.

INDIA

The Chinese Reds have rejected - the protest from India. So stated by Prime Minister Nehru before the New Delhi parliament.

Red China replies with a counter accusation - charging Indian troops with aggression on India's north-eastern border. And demanding that India must evacuate areas in dispute. Which the Chinese claim - are part of Tibet. The Himalayan land - that they have ~~occupied~~ *under their heel.*

Nehru, today, stated that there were "minor" differences of opinion about the frontier. Which - could be negotiated. But he repeated that the Chinese Reds must recognize the McMahon line. That part of the Indian-Tibetan border - which was established by treaty more than a century ago.

INDIA-COMMUNISTS

An uproar in the Parliament of India, today. The Communists - walking out. Protesting against the sending of military forces to Calcutta, To suppress - the wild riots that have been going on.

In the midst of a violent argument, Prime Minister Nehru got up. Replying - to the Reds. Condemning - the Calcutta disturbances. Which the Communists - are accused of inciting. This was followed by turmoil - the Reds howling, and walking out.

Meanwhile, Calcutta was quiet. With army troops - patrolling the streets.

LAOS

An appeal to the United Nations, today, by the South Asian state of Laos. With an accusation charging - that the Communists of northern Viet Nam are aiding the rebels, in battle ~~■~~ against the Laotian army.

The U N called upon-to come to the aid of Laos. Send in - an armed force to halt the Communist aggression. If the world organization does take any such military action, the United States would have to give most of the help.

In WASHINGTON, today, the U.S. government reaffirmed American support of the government of Laos.

VETO

Another presidential veto today. Tossing out the second housing bill for a billion dollars. President Eisenhower - calling it extravagant.

The one-hundred-and-forty-fifth Eisenhower veto, and it was promptly supported in the Senate, ~~By~~ By a margin - of five votes.

BONDS

The House of Representatives today, voted - to let President Eisenhower raise the interest rates on government savings bonds. But denied his request - for authority to hike the rates on long range securities which can be sold in the market.

DEMOCRATS

Signs of -national convention year. An uproar among the Democrats, - another indication that Nineteen Sixty is approaching.

In Washington, southern Democrats are hurling blasts against their national chairman, Paul Butler, who proposes - that the "loyalty rule" be put into force. That proviso - which would compel southern delegates to the national convention to make a pledge, Promising - that they won't bolt the ticket. The ^{same} "loyalty" pledge ^{that} ~~which~~ caused ructions in previous Democratic conventions. Chairman Butler wants this to be re-adopted by the National Committee, meeting in Washington on the Sixteenth.

Congressman Davis of Georgia says - Butler should be tossed out as quickly as possible. A sentiment - echoed even by Senator Sparkman of Alabama, a southern liberal. Who points out that the national chairman is on record as declaring - he'd like to see the south out of the Democratic

party. Which leads the Alabama liberal to protest: "It's pretty hard to cooperate with someone, who wants to kick you out of the party all the time."

Right you are, Senator. ^{Who} ~~I~~ never heard anybody

singing: "I love you for the kick you gave me."

SOUTH

Here's another southern protest against integration.

But - in reverse. Objections - to a family moving into a neighborhood. But it's a white family - ^{into} ~~and~~ a negro neighborhood.

In Jackson, Mississippi, eighty-two negroes have signed a petition to the county board of supervisors, Asking - that H. J. Garrett be refused a building permit. Garrett, a white man - proposing ~~an~~ to build a gasoline station, a store, and a home in the section where the negroes live. They say - they don't mind the gasoline station and the store. But they object - to the home.

1/2 "Mr. Garrett" says the petition, "has three teen age daughters. And of course, there are a lot of young colored boys in this area." The petition adding - "we do not want anything to happen which would cause any trouble."

Always a novelty, when there's a reversal of a familiar situation.

STATE FAIR

The New York State Fair - opened by a space traveler, today. The job done - by a Vanguard satellite whirling around this earth.

At Syracuse, a lady waved a wand, which picked up - a radio signal from the man-made moon. The radio signal - turned into an electrical impulse, which started the motors - controlling the gates.

The time - the moment when the Vanguard was at a point ~~in~~ nearest to Syracuse. Moving - between Atlanta, Georgia, and Bermuda, traveling - at eighteen thousand miles an hour. Two thousand miles ~~away~~ ^{out in space - Don -} - but the man-made moon opened the gates at the New York State Fair.

BARBERSHOP

A lot of people, today, must have been marveling - at a news item from Memphis, Tennessee. Which certainly contradicted the old notion - that everybody wants to be the boss. In this case, the trouble is - that nobody wants to be the boss.

For long years, A. D. Weaks - ran a barber shop. With peace and harmony among the employees - five barbers and three manicurists. All so ideal ^W that ^W in his will, the proprietor left the barber shop to them. The business to continue - with the workers as the ~~owner~~ owners.

But, alas, they've no^W put the barber shop up for ~~a~~ sale. After operating it - for only a month, ~~They~~ found the place needed - a boss.

Today, the administrator for the estate explained:

"They worked together so happily, so long - that nobody wanted to be the boss."
