

L.T.-OLDS. FRIDAY, JULY 14, 1961.

GOOD EVENING EVERYBODY:

The United States will veto any move at the U N - to replace the Secretary General with a three man directorate. This today from Secretary of State Rusk - in a direct reply to Khrushchev. The Soviet Dictator has been pushing hard for - a U N "Troika," meaning, a board including a Communist - who could veto any measure that Moscow didn't like.

Today's declaration by Dean Rusk puts the world on notice - that the Khrushchev plan is something we won't permit. That we intend the office of Secretary General to remain as is - the executive of the U N.

Yugoslavia

The game of guessing what Khrushchev is up to - is more lively than ever tonight. Subject - Yugoslavia; The "big hello" that the Soviet boss gave - the foreign minister from Belgrade. Popovic, getting a place of honor on the reviewing stand - during the exhibition of Soviet Air power. Next to Popovic, ~~and~~ grinning broadly, Khrushchev.

with more than a touch of irony. For
A scene - ~~loaded with irony. And both of them~~

~~must have been well aware of it. After all~~ Khrushchev supported Stalin - in the attempt to stifle Tito's Yugoslavia. Popovic, supporting Tito - in his successful bid to throw off Soviet domination.

Then there's that persistent Moscow criticism - of the Yugoslav brand of Communism. Critic-in-chief -- Khrushchev. Defender of the Yugoslav faith - Popovic.

Then there's
~~and what about the feelings of~~ Mao Tse Tung

[^] The Peking Dictator has been waging an open ~~campaign~~ campaign - to destroy Tito. ^{with} Red Chinese ~~in~~ propaganda - denouncing Popovic as the ~~next~~ evil genius of - Yugoslav

"revisionism." Which in the semantics of Communism means -
the rejection of Stalinism. ~~Most~~ Experts on ^{all this} ~~the Red Block~~
believe ~~that~~ ^{has been} Mao ^{is} backing Albania - because of Albania's
hostility to Yugoslavia.

You'd think ~~that~~ Khrushchev would try to placate
Mao - by downgrading Soviet-Yugoslav friendship; Especially
since Russia and Red China have been insisting so loudly
- that there's no ideological split between them. ~~Instead,~~
~~Khrushchev seems to be deliberately insulting Mao - by~~
~~making up to Popovic. All of which increases the belief~~
~~that Russia and Red China have drifted so far apart -~~
~~there's no point in maintaining the fiction of "monolithic~~
~~unity" in the Communist empire.~~

BASTILLE

On this Bastille Day - ~~xxx~~ attention shifted away from Metropolitan France. Oh ~~yes~~, there were the usual parades - ~~led by~~ ^{such as} the big one down the Champs Elysees - in Paris, ^{before} President DeGaulle, ~~receiving the salute - on the reviewing stand. All, commemorating the outbreak of the French revolution - in Seventeen-Eighty-Nine.~~

But Berlin and Algiers - were of more significance this time. Berlin, where the ^{French} garrison paraded - in a show of force; ^{to} ~~informing~~ Khrushchev that the French are in West Berlin - to ^{stay} ~~stay~~. Algiers, ⁱⁿ ~~where~~ most of the population refused to celebrate ^{This by way of} Bastille Day. ~~A~~ passive demonstration against DeGaulle - and his program for an Algerian Algeria.

GENEVA

The Indian proposal offered at the Geneva conference - would require Laos to accept international control. This - to insure Laotian neutrality. Krishna Menon, ^{going along with} ~~adopting~~ the Communist view - that neutrality should ~~be~~ come before a cease-fire. ^{this} The reverse - of the western position. ^{however?} ~~but~~ the western delegates at Geneva - are not rejecting the Indian plan. They say they want to examine it carefully - before deciding. Their only condition - that Laos be guaranteed against a Communist coup.

ENCYCLICAL

The state document issued at the Vatican today - is full of generalities as Papal encyclicals usually are.

Pope John calling for universal social justice, but, leaving the details to be decided locally. Take the question of - a "just wage," Today an American theologian in Rome pointed out that "a just wage means one thing in Chicago, and something quite different in Naples or Caracas."

In this encyclical - the Pope, argues from divine law and natural law. Historic ideas that could revolutionize society.

How much effect will the document have? Catholic philosophers believe - a great deal, in the long run. They point out that Pope John is following - an established tradition of the Church, begun by Leo the Thirteenth, who called for social justice - in Eighteen-Ninety-One, an encyclical that lead to many movements -

ENCYCLICAL - 2

for reform. Its often said that Leo saved the Catholic nations from Communism - in the Twentieth Century.

Because the masses would have been much worse off in our time - if he had not insisted that Catholics develop a social conscience.

Forty years later, Pius the Eleventh - restated the problem, with a warning about Communism. Fight it - by establishing a decent standard of living for all peoples.

Now, another Papal encyclical. This time an exhortation by Pope John-the-Twenty-Third.

FIRE

Tonight California firefighters are struggling to save - Yosemite National Park. Cutting a wide belt through the forest - between Yosemite and the Sierra Nevada mountains, where two forest fires are raging. One, near

Sonora ¹⁸⁴⁹ in the Gold Rush country. ~~Was~~ (Home of the Mother lode - and Sutter's Mill, where you can still see relics of - the Forty-Niners. ^{and} Where the towns have names like - quartz and Rawhide.)

one so far has devoured
This ~~fire has already chewed up~~ twenty six

thousand acres of timber. The other, destroying - thirty-eight thousand acres, ~~Plus~~ - two small hamlets, ~~And~~ - scores of tents abandoned by campers.

RAIN FOLLOW FIRE

With California hit by forest fires-much of the rest of the country is getting too much water. A steady downpour - from the Rockies to the Atlantic, from New England to the Southwest. In Texas, three inches of rain - within three hours. The Guadalupe River now some three feet above it's flood crest. Bull Creek Canyon near Austin, a wall of water crashing down - causing damage to the tune of hundred thousand dollars.

Tonight the weather man predicts violent thunder storms in the central plains - and throughout the middle Atlantic states. Raging fires on the West Coast, drenching rains in the Mid-West and East.

GOLF

If you are a golfer you of course have been following the news ~~dispatches~~ from England about the British Open. The final two rounds were scheduled for today, had to be cancelled. Rained out. American hopes seem to depend almost entirely on Arnold Palmer. Yesterday I was interested in the name of one American golfer I had never heard of -- Joe Ezar of Miami, Florida. I asked Joe Kirkwood about him today, Kirkwood who as ~~was~~ all devotees of the sport know is one of the most famous ~~fix~~ golfers of all time, along with Harry Varden, Bobby Jones, of Atlanta, Walter Hagen, Sarazen, Snead and two or three others. Kirkwood told me the following story about Joe Ezar, who has been in England playing in this British Open.

He said Ezar used to ~~be~~ caddy for him. After he had put on his extraordinary trick shot show, Ezar would say where is your next date? And when Kirkwood arrived ~~xxxxwherexhis~~ at that city there was Joe Ezar on the platform waiting for him. Puzzled about this, after some time he asked

him how he managed to do it. Whereupon Ezar told him that he ~~was~~ always found out what Kirkwood's pullman space was, got on the car when the power was outside ~~of~~ on the platform, and hid under the berth, pulling Kirkwood's baggage in after him. Then, in the morning, when the porter took the bags out of the car, he'd slip out the other end.

- Dick - has climbed the
And now Joe Ezar ~~is far enough along in the~~ golf ~~world to be~~ *heights,* appearing in one of the most important of all golf competitions, the British Open.

HEROINE

7 year old

Tonight Orinda, California, has a heroine. - ~~seven~~

~~years old.~~ Little Kimberly Dakis was at the family swimming pool - when her father ^{dove in and banged} ~~struck~~ his head on the ~~bottom~~ bottom.

~~After a dive, The elder Dakis~~ knocked unconscious. ~~In~~
~~danger - of drowning.~~

^{The 7 yr. old}
~~Whereupon, his~~ daughter plunged in - to the rescue.

The fifty pound girl, grabbing her two hundred and fifteen pound father around the waist - sinking to the bottom with him. Somehow she kicked over to the side of the pool - and with a tremendous effort pushed to the surface. ^{There} She wedged her father half in and half out of the pool - and ran into the house shouting for help. They are

^{saying that} the most spectacular job of life saving - they've ever had. ~~in Orinda.~~ The town, saluting ^{7 yr old} ~~Miss~~ Kimberly Dakis. -

~~seven years old.~~ And s-l-u-Monday.
