

TOKYO

Thurs. May 6 - 71

From Tokyo - a report today telling of the world's largest "coffee pot;" which turns out to be - a new sort of Japanese sauna; where the customer is packed in steaming coffee grounds - barrels and barrels of coffee grounds - for about twenty minutes; and then he's dunked in water - followed by a massage and a cold beer.

Cost of all this - about Three Bucks-American. And they say - it's supposed to get your hormones perking again. But no messing around with the girl attendants - we are told; <sup>Warren</sup> or you might get with your coffee - <sup>the</sup> one lump - or maybe two or three.

## **TIERNEY**

*This next - New York again - the final entry in a story that began earlier this week. Remember - a young truck driver by the name of Paul Tierney - betting Five Hundred Bucks that he could jump off the George Washington Bridge - and then he did?*

*Well, Paul Tierney finally succumbing today. His two hundred-foot leap into the Hudson River - having caused massive internal injuries. Doctors adding that he never regained consciousness - and thus he never even knew that he had won his bet.*

*Paul Tierney - only twenty-four.*

NEW YORK

Coming up tonight here in New York - another signal

tribute to a man who is already one of America's most

honored citizens. ~~Famed comedian~~ Bob Hope - to receive

the First Annual Dutch Treat Club Award; in recognition of

his many contributions <sup>over the years</sup> to the American way of life. ~~down~~

~~through the years~~ And this from a group whose members

include - the top leaders in virtually every field of human

communication.

## **POLLUTION**

*Elsewhere in Washington - the Environmental Protection Agency opened hearings today - on its proposed new anti-pollution standards. Director William Ruckelshaus starting out with a warning to the auto industry; a warning that the government intends to enforce its "clean air" regulations - even if it means higher prices for cars that are less efficient. Ruckelshaus adding that the purpose of these hearings - "is to find out just what sacrifices might be needed - in cost, in fuel economy, in power, in acceleration - to produce an automobile that we can live with."*

# WHITE HOUSE

~~at~~ <sup>at</sup> the White House - a visit today from Nobel Prize-winner Norman Borlaug - ~~the~~ developer of so-called "miracle wheat;" who later joined the President <sup>for</sup> a tour of the Executive Mansion's south lawn - which is fast taking on the appearance of a modern farm.

This in preparation for a special tribute scheduled for tomorrow - a tribute to modern American agriculture; <sup>exemplified</sup> as ~~represented~~ by three tractors, a field cultivator, a four-row corn planter and so on and so on. President Nixon noting that these contraptions - have revolutionized American farming. Further stating that Norman Borlaug - is "a peaceful revolutionary." The President <sup>saying</sup> ~~saying~~ that he likes to think of himself - in the same category.

CONNALLY

From Treasury Secretary ~~John~~ Connally <sup>came</sup> - a pledge

~~Today~~ that the Nixon Administration <sup>will</sup> attempt to bail out -  
financially-troubled Lockheed ~~Aircraft~~. This - said he  
by means of a request to Congress - for a Federal guarantee  
covering Two Hundred and Fifty Million in loans; which would  
then permit Lockheed - the nation's largest defense <sup>aircraft</sup> contractor  
- to finish work on <sup>their</sup> new Tristar Airbus.

~~Secretary~~ Connally adding that such a guarantee - would cost  
the taxpayers, hopefully, nothing; whereas failure to bolster  
Lockheed - said he - would mean a loss of One-point-Four  
Billion already invested.

## CAIRO-JERUSALEM

For Secretary of State ~~William~~ Rogers - the acid test today; that is, morning talks with Egypt's President Anwar Sadat in Cairo - followed by <sup>evening</sup> ~~afternoon~~ talks with Israel's Premier Golda Meir in Jerusalem.

As for what was said - still a secret, of course.

~~But~~ Rogers perhaps supplying a clue - ~~on his way stop~~ at Tel Aviv; where he said ~~that~~ his visits to four Arab capitals had convinced him - ~~there~~ "there has never been, and may not be again for a long time to come, a better opportunity" for peace. ~~Rogers~~ adding that the Israelis have met the agonies of war - and now ~~they~~ must meet the agony of making peace.

# HOUSE FOLLOW TUNNEY

~~In the same vein~~ Congressman Greene of Oregon

addressing the House today, Noting her long-standing  
opposition to the war ~~but they~~ <sup>went out</sup> saying: "I will not go on

record - in support of bands of crazies roaming around

Washington." And she added: "The right to persuade is one  
thing - the right to coerce is another." <sup>And in Congress she got a</sup> ~~Whereupon~~

standing ovation.

# TUNNEY FOLLOW MOSCOW

*Here at home*  
~~reverse side~~ from

Congressman Tunney of California  
- a long-time foe of U.S. Vietnam policy; ~~he said,~~ *was sayin'*

~~nevertheless~~ that this week's anti-war protestors - had  
actually hurt the cause of peace.

~~Now see?~~ By committing "foolish and useless" acts -  
said Congressman Tunney; acts which have proved - "an  
affront to many;" with the result - said he - that "they have  
alienated a great many people - who have long been working  
for peace."

MOSCOW

~~At the same time - Moscow - a Kremlin's eye~~

~~view of protest developments - The Soviet Communist Party~~

By the way in Moscow  
newspaper <sup>A</sup> Pravda ~~was~~ contending that Washington has been

turned into "a big concentration camp." Adding that "the whole

world now sees what the American military are doing in their

own country - converting it into a police state." ~~which~~ <sup>Proves</sup>

~~says Pravda~~  
- ~~and is today~~ "that what was done in My Lai yesterday - can

happen in the United States tomorrow." That - from the

Kremlin.

## PARIS FOLLOW WASHINGTON

Meanwhile, another Thursday - another session of peace talks in Paris; with the U.S. attempting to draw from the Communist side - some sign that it, too, is willing to withdraw its troops from South Vietnam.

*But the Hanoi representatives are*  
~~no longer as expected though no longer~~

~~the enemy~~ calling this - "an absurd proposal." ~~Adding~~ That U.S. aggression in Vietnam - is the basic cause not only of U.S. anti-war protests but also U.S. dollar troubles."

WASHINGTON

*Would you call this*  
~~Here on our own shores~~

"the last of the Mayday Tribe"? ~~so~~ so it would seem. At any rate, the Tribe's attempt to stage another last-ditch protest march - fizzling out today. In the face of a chill rain ~~drawing~~ only a handful of die-hard demonstrators.

And now this: The Pentagon <sup>*is*</sup> withdrawing from Washington - the last <sup>*of the*</sup> ~~last~~ troops brought in for the demonstrations. <sup>*Today*</sup> ~~there~~ <sup>*were*</sup> observers, noting it was so calm - <sup>*that*</sup> even the tourists were coming back.

# SAIGON

*From Saigon - a new withdrawal timetable - maybe.*

*This in the form of a report - from United Press*

*International; a report that all American troops - with the*

*exception of about six thousand advisers - will be withdrawn*

*from Vietnam as of November of next year. <sup>P</sup> The new*

*schedule, if such it is - <sup>is</sup> attributed to, quote, <sup>"a</sup> high-ranking*

*military source<sup>s</sup>. " <sup>So far on this -</sup> ~~although no~~ no confirmation ~~or denial~~.*

*Indeed, ~~Although~~ the White House saying that such a source--*

*was "speaking from a foundation of a total lack of  
knowledge."*

## MOON

Everyone knows about "old wives' tales." Now - some "old moon tales;" as compiled by the American Institute of Physics - which suggests that some of them may just be true. As, for example, an old proverb from the mountains of Southern Appalachia - which says, and I quote: "When a circle is around the moon - count how many stars are in it - and that's how many days of bad weather will follow?" What if there are no stars? Why, that means "dry weather" - we are told.

The "moon-<sup>struck</sup>~~struck~~" are also said to believe: That a child born under a tiny crescent moon - will be a girl; that fence posts set when the moon "is wrong" - will probably be wobbly; also, "if you dig a grave under a full moon - you'll have to get more dirt to finish filling it." All of which have yet to be validated - or invalidated - says the Physics Institute. Adding simply that mountain people "go by the moon - just as a preacher goes by the Bible."

May 7-71

~~Just across the way another "ping" today in the~~  
~~spirit of "ping-pong diplomacy," with~~ <sup>HP</sup> Treasury Secretary  
John Connally <sup>today</sup> ~~issued~~ a series of new directives; ~~thereby~~  
lifting a virtual ban - on all dollar transactions with Red  
China.

This - said Connally - a "first step in implementing  
President Nixon's <sup>recent</sup> decision" ~~of last month, hopefully~~ <sup>to</sup> clearing  
the way - for a resumption of Sino-American trade. And ~~now~~  
~~that~~ <sup>to put</sup> ~~it would~~ seems - the ball ~~is~~ once again ~~squaring~~ in Peking's  
court.
