

L.T.-OLDS. TUESDAY, JULY 19, 1960.

GOOD EVENING EVERYBODY:

Is there a draft-Rockefeller movement getting under way? The governor's backers claim there is. In fact they predict a swing toward their candidate - once they win over one more big state delegation. That is one important solid block of votes - to go along with New York.

So far no other state has declared for the New York governor, not yet. But the draft-Rockefeller movement expects this will happen as a result of popular support for Nelson Rockefeller. At any rate these enthusiasts have been rounding up signatures - on Chicago's streets. And they say they are hearing a lot more chants of - "we want Rocky:" The Governor himself doesn't seem to be impressed with all this.

Governor Rockefeller appeared before the G.O.P. platform committee - in Chicago today. Nelson Rockefeller, reading a speech, asking his party - to strengthen democracy at home and abroad. The Rockefeller prescription calls for - a strong civil rights plank; a greater rate of economic growth; and more spending - on national defense.
