

RUSK

Thurs. July 6-67.

Three shouting, banner-waving anti-war demonstrators <sup>or</sup> interrupted the start of an address ~~by~~ by Secretary of State Rusk at the Lions International Convention in Chicago today. -- ~~whereupon~~ ~~the Lions delegates~~ ~~themselves joined~~ <sup>instead of</sup> the police ~~in~~ throwing the intruders in to the Lions, <sup>Lion</sup> were helped by the Lions in throwing ~~at~~ <sup>out</sup> At least one <sup>Lion</sup> delegate was seen flailing the demonstrators with his fists.

Disorderly conduct charges were placed against the three, identified as Miss Renee Schwartz, Richard Morison and Karl Meyer, all of Chicago. Mayer is the son of a former Congressman from Vermont. The trio jumped to their feet <sup>the</sup> in Chicago stadium just as Secretary Rusk was about to begin his address before seventeen-thousand Lions and members of their families.

<sup>Sec. Rusk</sup> ~~He~~ appeared unshaken by the outburst and told the delegates - "actually, I don't mind people carrying signs for peace - we've been trying to get <sup>peace</sup> ~~it~~ for years."

Then ~~Dean~~ Rusk went on to say that the road to lasting

peace is "filled with obstacles and surrounded by

*innumerable*  
~~frightful~~ dangers, but the United States cannot travel

it by ignoring its commitments to repel aggression."

*He also*  
~~And he~~ declared once again that "we shall stay in

Vietnam until the right of the South Vietnamese

people to work out their own future under a government

of their own choice - has been secured."

## CONGO

*The U N Security Council has been called into an urgent session, tonight, to consider the Congolese government's charges of aggression against its territory. Council President Makonnen of Ethiopia convened the meeting after consultations with Council members - many of whom frankly doubted that a case of "foreign aggression" exists in the current fighting in the Congo.*

*In requesting the Council meeting, Congo President Joseph Mobutu charged that Belgian, French and Spanish mercenaries were dropped by parachute at the airports of Bukavu and Kisangani, which were captured.*

*Meanwhile, the two cities themselves, in the northeastern corner of the Congo, are reported in the hands of the mercenaries and other anti-government forces allegedly favoring the return of former Premier Tshombe - who is now under arrest in Algeria.*

TIBETANS

*It's the meaning of most of our lives.*

It's a long way from the top of the world to the State of Maine - but six Tibetans are making the journey - for keeps. The six - who were driven from their homeland in the Himalayas by the Chinese Communists seventeen years ago - are due to arrive in Aroostook County, Maine tomorrow night to start their lives anew. <sup>There to</sup> ~~They will~~ be trained as lumberjacks by the Great Northern Paper Company. - ~~and~~ During the cold winters in the Maine woodlands they'll be working a climate <sup>somewhat</sup> ~~much~~ like that of <sup>land beyond the</sup> - but with a tremendous <sup>difference</sup> their native Himalayas. The six Tibetans have ~~xxx~~ been living in exile in India since Nineteen Fifty, and <sup>are</sup> ~~they're~~ the first ~~to~~ of three thousand Tibetans who've been granted permission to immigrate to the United States.

*In Tibet at 15000 ft. In altitude.*

## FLIGHT

Flying alone and armed with a secret flight plan, Sheila Scott took off today on her second attempt to break the record for a London to Capetown flight.

Miss Scott - a thirty-nine year old former actress - is keeping her exact route over Africa a secret because she was forced to abandon her first bid last week when Chad, in the African southern Sahara, refused permission for an overflight. She must fly from London to Cape Town in less than seventy-eight hours and twenty minutes - the record set by Amy Johnson <sup>way</sup> back in the Nineteen-Thirties.

## TRAIN

A commuter train crashed into a gasoline truck at a grade crossing in East Germany today == killing at least ~~fifty-five~~<sup>79</sup> passengers and seriously injuring fifty-four others. The truck exploded on impact, sending a shower of burning gasoline on four double decker train cars and <sup>also on</sup> a near-by station, which was completely burned out. The accident occurred at a crossing near Magdeburg. First reports said the barriers to control traffic at the crossing were not lowered when the train passed.

DANES

*There's to be a Danish invasion of the U. S. A.*

*Over eight hundred descendants of the Vikings ~~are~~ coming to visit us -- ~~as~~<sup>as</sup> a part of ~~President~~<sup>the</sup> Eisenhower's People to People program.*

*Danes in all walks of life, farmers, shopkeepers, teachers, engineers, truck drivers, laboratory technicians, students, ~~even~~ brick layers, ~~and~~ a Danish mail man, and maybe even an actor to play Hamlet the gloomy Dane. Over here they'll stay in American homes. The idea is to get acquainted with the American way of life.*

*Wonder if they will all drop in on General Ike at his Gettysburg farm? At any rate, it will be an unusual invasion.*

LEE

Federal Communications Commissioner Robert E.

Lee announced today that he has resigned his twenty-seven thousand dollars a year post to enter private business. Lee - who has been F C C Commissioner for the past fourteen years - says he has sent President Johnson a letter, asking that he not be reappointed to a third term - although the President has not yet responded to the request.

The fifty-five year old Lee says his reasons for resigning are ~~strictly~~ strictly financial - and that he will receive a salary in ~~private~~ private business that will at least equal his present one with the government. In addition, he ~~will~~ will receive a sixteen-thousand dollar a year pension from the commission.

## SPACE FOOD

It may look like toothpaste, but that space-food  
the astronauts <sup>feast on</sup> ~~gobble down~~ while ~~they're~~ in orbit could very  
well be a dinner of shrimp cocktail, chicken, vegetables and  
butterscotch pudding. Colonel Omar Werntz of the Air Force  
logistics command told a meeting in Denver that space-  
foods must be able to withstand extreme temperatures,  
~~etc~~ almost pure oxygen atmospheres and tremendous  
shock. And he said developments in space-age food have  
already contributed toward modernization of our food  
industry.

## WELLS

The bucket brigades have gone into action in the southern Maryland town of La Plata -- because the water wells have run dry. The community's fifteen hundred residents are carrying buckets of water to their homes -- carrying water just as hundreds of thousands do in Hongkong, from emergency tank trucks. Fire department tank trucks are also stationed at various points around <sup>this dry Maryland</sup> the town. Before the wells ran dry yesterday, La Plata consumed an average of one hundred thousand gallons of water a day. Relief is expected from a portable filtration plant which is being driven in from nearby Fort Belvoir, Virginia, <sup>a plant</sup> ~~is~~ capable of producing five thousand gallons of ~~water~~ water an hour. From what source the dispatch doesn't say.

## HEAVYWEIGHT

Last October, when Sylvan Scolnick went to

*Sylvan is a guy -- Sylvan*  
prison he weighed exactly six-hundred-and-forty-seven

pounds. He weighed so much he couldn't even walk into

the courtroom in Philadelphia to face charges in a

bankruptcy case, and had to be wheeled in on a hand truck.

But this time it was different. Scolnick has been dieting -

*and* ~~he~~ now weighs only four hundred pounds - and ~~he~~ was able

to walk into the courtroom on his own power - to face

new charges. *This time* tipping the scales *in another way --*  
~~of justice should be no~~

~~problem at all in this case.~~ that is tipping  
the scales of justice in his own favor

PATIENT

The staff at Parkland Hospital in Dallas, Texas, had quite a problem on its hand when a little, old lady showed up there, complaining of arthritis. She also began complaining that other people were being treated ahead of her. - <sup>Whereupon</sup> ~~and then~~ she went into action. First, struck the Admissions Clerk with her fist. - Then she <sup>gave</sup> ~~struck~~ another clerk ~~with~~ her elbow; - and ~~for~~ finally she bopped an orderly on the head with her umbrella.
