

L.T.-OLDS., THURSDAY, AUGUST 4, 1960.

GOOD EVENING EVERYBODY:

A heavy vote today in Tennessee. Some seven hundred thousand turning out - to decide whether Estes Kefauver returns to the Senate. This primary - decisive. The winner among the Democrats - always elected in Tennessee.

During the campaign, segregationist Andrew Taylor has been charging that Kefauver is just like a northern liberal; defending - federal power in the states. Taylor, promising - to uphold state's rights.

Kefauver, retorting - that Taylor is against TVA, and public money for internal improvements. Or as Estes put it - "against - prosperity in Tennessee."

If Kefauver wins it will be his third term in the Senate and will give him seniority - on several Senate committees.

The East Germany Reds don't admit the system may be at fault. They blame officials in the Communist hierarchy for being "incompetent." Two hundred of these now given the familiar Communist treatment. Purged. Booted out of their jobs. Heraus.

MEN

The United States ~~has~~ may have - a "Burgess and MacLean" on its hands. Remember the two British diplomats - who disappeared in Nineteen Fifty One? Turning up in Moscow - five ~~ya~~ years later. Burgess and MacLean - defecting to Communism.

Tonight, the suspicion - that two ^{more} Americans ~~are~~ ^{are}

be doing the same, ~~thing~~ Bernon Mitchell and William Martin

BUTLER

Today, the butler said stiffly -- "I did not exchange blows with Mr. Jones." Well, British butlers don't usually go in for ~~punching~~ ^{rough housing with} their employers. ~~and in this case,~~ ^{In fact} the very idea is enough to shock staid old London.

The Mr. Jones is ~~an~~ ^{who is} Anthony Armstrong-Jones -- Princess Margaret's husband, ^{who is} said to be ruling their royal establishment - with a rod of iron. At least, that was how it seemed - to butler Thomas Cronin, ~~who~~ ^{do} wasn't allowed to ~~run~~ things - according to tradition. Anthony Armstrong-Jones, refusing to let the butler - handle the staff of servants - taking over that job - himself. Telling the butler - to mind his own business. "Not at all," says Thomas Cronin -- in the slightly frigid tone of a British butler.
