

Israel - will withdraw its forces from Egypt.

And - will cooperate with a United Nations police force. So

announced at the U.N. tonight - with Israeli Ambassador ^{Aba}Eban

transmitting this information to Dag Hammarskjold, Secretary of

the U.N.; Israel - agreeing to abide by the U.N. demand.

Earlier in the day, the word was - that Israel was defiant. Fortifying - a line ten miles east of the Suez Canal.

Underscoring signs - that the Israeli government intended to hold all the territory that Israel seized in the short war.

Particularly - the huge Sinai peninsula.

All of which was accompanied by ominous word of Soviet aircraft landing in Syria. Russia - sending a number of Migs to that Moslem country. Heightening the threat - of Soviet ~~interest~~ intervention in the Middle East, unless Israel pulled out of Egyptian territory.

Tonight's news eases the crisis - no end. The U.N. asked Israel to withdraw from Egyptian territory. President Eisenhower urging Prime Minister Ben-Gurion to abide by the

U.N. demand. So now Israel agrees.

The United States is urging haste - in sending that police force to the Suez area. The word from Washington being - that the United States, as a last resort, might be willing to contribute U.S. troops to the international military units. But any such contribution would have to get Congressional approval - according to declarations that President Eisenhower has made repeatedly. The plan is to organize the U.N. police force out of soldiers from the smaller nations. Keep all the big powers out - especially the Russians.

Meanwhile, the Israelis are having difficulties with all those Arab refugees in the Gaza Strip - people who lost their homes in various parts of Palestine. Today's dispatch tells of thousands of refugees - lunging and surging against the barbed wire around the U.N. food distribution center. Israeli troops - having to fire over their heads to restore order. But we are told that the refugees are being cared for, adequately.

Adding to the troubles - attacks by Arab "suicide
commandos" from Jordan. Who made a series of raids on
communications between Jerusalem and Tel Aviv. Dynamiting
buildings and waterlines. Attacking vehicles on the main
Tel Aviv road - with hand-grenades and machinegun fire.

OIL

The countries of Western Europe are feeling the Middle Eastern flare-up, in terms of - oil. Today, Britain, France, North Ireland and Denmark ordered restrictions on petroleum consumption. While other nations studied their oil situation - anxiously.

The Suez Canal - blocked by the turmoil of war. The British believing - it will take at least a month to clear the waterway of ships, which were sunk by the Egyptians in the Canal. Tankers taking the long route around Africa - slowing shipments. Saudi Arabia - shutting off the flow of oil to Britain from the great Saudi Arabian oil fields. ^{With} ~~What~~ some fear - that other Arabian oil producing states ~~may~~ may follow suit.

HUNGARY

Hungarian resistance - appears to have turned into something like guerrilla warfare. The patriots are still fighting, although their main headquarters appears to have been captured by Soviet armored forces. The ~~city~~ ^{area} south of Budapest, from which the chief rebel radio had been broadcasting. But - silent, all day today.

In Budapest, sporadic fighting in the rubble of the city. Today, the United Press in Austria received a ~~smuggled~~ smuggled letter, sent out by defenders of a military barracks at Budapest. Saying - only nine were left. The nine - signing the letter. Which stated: "We will vanish, because ^{we are} ~~we are~~ only a small number. And because we are alone and poor. But we are determined to fight against Soviet slavery." The letter making this appeal: "Public opinion of the free world, please insist that your parliament members and your representatives at the United Nations - approve help for our country."

Brave and pitiful - are the only words to describe the hopeless appeal from the hero-patriots.

The fighting goes on through swamps and forests around uranium and coal mines near the Yugoslav border. And, today, at the Austrian border, thirty-eight insurgents were in battle with three Russian tanks. Getting clear - and coming across to freedom.

Altogether, Hungary is nearing a state of chaos - and one report is that Moscow is ready to throw out the new puppet Premier Kadar. Because his regime has not been able to quell the revolt.

And here's another report - which sounds unlikely. Radio Moscow says the American "Crusade for Freedom" has been dropping paratroops and supplies to the Hungarian patriots.

At the U.N., tonight, the General Assembly is debating a condemnation of Soviet action in Hungary. One country after another - demanding the removal of Russian troops.

~~XX~~

Tonight, President Eisenhower ordered the admission of five thousand additional Hungarian refugees to the United States, as soon as possible. Patriots, fleeing from the Red terror in Hungary.

FRANCE

Rioting in France - still going on. This time, the Communists, in a reaction against attacks on Communist buildings. Yesterday and today, crowds in various parts of France went storming - with denunciations of the martyrdom of Hungary. The Reds, in Paris, making a counter-demonstration, which got them into a battle with the police.

EISENHOWER - VOTE

President Eisenhower has rolled up the biggest popular vote in history. Breaking - his own Nineteen Fifty-Two record. When 34,000,000 people voted for him. This year, the total vote for both Parties was considerably less. Yet today's accounting showed the President with 34,000,000.

In Nineteen Fifty-Two he got fifty-five per cent of the popular vote. This time, fifty-eight per cent.

His total margin over Stevenson - 9,500,000. The count - still incomplete. So it's likely to run up toward 10,000,000. Approaching that all-time high, which President Franklin D. Roosevelt scored in Nineteen Thirty-Six. When he won by a popular majority of about 11,000,000.

SENATE

Kentucky reports - a decision in that Senate race, left undecided until now. The victory going, at last - to the Republican Thruston (correct) Morton. Nosing out - Senator Earle Clements. Who has been - the Democratic majority leader in the Senate. With only two hundred and sixty-one precincts to be heard from - Morton was leading Clements by 473,835 to 471,190. The majority - a mere twenty-six hundred. But the missing precincts are in counties where the Republican candidate is running strong. So the estimate is that his final margin will be - some five thousand.

In the other Kentucky Senate race, Republican John Sherman Cooper had an easier win. So that Kentucky has two Republican Senators, for the first time, in almost thirty years. Quite an exception to the familiar picture - of local Democrats winning out, in spite of ~~an~~ Eisenhower landslides in their states.

The election of Thruston Morton leaves the division of the Senate as it has been all along - a Democratic majority

of forty-nine to forty-seven. But there was a doubt - about who would control the Senate. All because - of that Ohio enigma, Governor Frank Lausche. Who won an overwhelming victory for the Senate - in spite of an Eisenhower avalanche in Ohio. Lausche had indicated - that he might join ^{the} Republicans in organizing the Senate. Which would bring about a tie - and the tie would be broken in favor of the Republicans - by Vice-President Nixon.

So what does Lausche now intend to do? Today, he told the United Press - he will complete his term as Governor of Ohio. Which means - he won't go to Washington until then. The new Congress convenes on January Third. Governor Lausche's term - ending January Fourteenth. And the Senate will undoubtedly organize in that interval of eleven days. In addition to ~~wh~~ all of which - Senate-elect Jacob Javits plans to stay on his job as New York Attorney General, until January Ninth, when the Republican State Legislature ~~will~~ meets to name a new Attorney General.

CRASH

A freak air crash at North Bergen, New Jersey - seven lives lost. A twin-engine private plane, lost in a fog, smashed into a television tower - and plunged in flames on the roof of a five-story apartment house. Caving in - one side of the building. Victims include the pilot, co-pilot and five residents of the apartment house.

BALLOON

A new record for altitude - in a balloon with a crew aboard. A huge sky hook balloon, with two Navy scientists aboard - riding to an altitude of more than fourteen and a half miles.

Taking off from Rapid City, South Dakota, ^{they} ~~with~~ soared way up into the stratosphere - making scientific observations with ~~a~~ elaborate equipment. Reaching the altitude of seventy-six thousand feet. **R**When - something went wrong with the balloon. Probably - a swift loss of helium. So down it plunged. Until, at twenty-five thousand feet, the two men aboard - cut ~~the~~ loose the gondola. Which came safely to earth - by parachute.

RHODE ISLAND

Rhode Island won't know who its Governor will be -
not until some time after December Fifth. The same old story -
altho
President Eisenhower swept the state, ~~but~~ ^(Democratic) Governor Dennis
Roberts is in the lead for re-election. But - what a slim
lead. With a total ^{vote} of 380,000, he has a margin of 190.
Over Republican Christopher Del Sesto.

Today, the Rhode Island Board of Elections began a
recount - which will decide if that majority of 190 stands up.
~~But~~ ^{even then} the recount will not be at all decisive. Because there are
11,000 absentee ballots, which will not be counted until
some time after December Fifth. Those 11,000 are in doubt -
~~and~~ 190 could easily be reversed. So Rhode Island will have
to wait for a month or so - to learn who the Governor will be.

ROMANCE

Governor Robert Meyerⁿ of New Jersey - sure did win.

He wasn't running for office in the political campaign - but he made the conquest. It may sound surprising to say that Stevenson won. But it's a fact.- Miss Helen Stevenson. Daughter - of the President of Oberlin College. The Stevensons of Oberlin - distant cousins of the Democratic candidate.

A highly political romance - which began last May, when Governor Meyner was at the Ohio college for a political-academic event. A mock national convention - with students and faculty going through the motions of nominating candidates. That was when Governor Meyner met Helen Stevenson, the prexy's daughter.

He was intensely interested in the ^{Oberlin} political study. And especially - in Helen Stevenson. Who promptly found herself - squired around by the handsome New Jersey Governor. Regarded - as one of the most eligible bachelors in the nation.

The romance came to a climax, with more politics than ever - at the Chicago Convention. Which he attended - and

Helen was there too. Governor Meyner all for Stevenson - Adlai, also Helen. While she was enthusiastic - about Adlai for President. And Meyner - for bridegroom.

Today, she said - at the Chicago Convention they first began talking seriously about getting married. Discussing the matter of ages. He - forty-eight. She - twenty-eight. Deciding - that the difference of twenty years didn't matter. Their engagement - to be announced after ^{the} election.

So, today, the announcement was made. The wedding to be - in January. Politically, ^{Henry -} the campaign didn't go so well - for Adlai. But romance won ~~out~~ - by a landslide.
