Class of '61 Plans Yearbook

Joe Bruck, editor, reports that the first volume of The Reynard, the yearbook of the lay students at Marist College, is in preparation and is currently on schedule. Under the guidance of Brother Paul Octavius, moderator, and with the assistance of his second-in-command, Tom Erts, Joe is directing all phases of activity and

Enrollment Up

In comparison to the number of applications received last year in the month of February, The Admissions Board reports a substantial increase of about 75% in the total number of students seeking entrance for the fall semester. Of course this percentage in no way predicts the number of students that will be enrolled next year, but it is an adequate estimate of the school's expansion.

The present student enrollment in the day division totals 237; of these, 107 are student brothers. In the evening division there are 287 students registered and this includes those following courses in the Continental Classroom. The rate of growth seems invigorating when you think in terms of the present freshman class as being twice as large as the class last year and eight times as large as the freshman class four years ago.

Statistics is not the sole means of measuring the future growth of Marist College. The student attitude is the most assuring method, and the feeling of the students for the college is the most optimistic sign of progress. It is a 'pioneering' attitude, a will to succeed, that will push Marist over the threshold and on to the road to success.

co-ordinating the efforts of the various staff departments. Heading these divisions are: John Donnelly—Literary editor assistant—Ed Wilsenski; Frank Kolarik—Business manager; assistant—Bernie Matthews; Don Lozier—Photography editor; and John Woods—Art editor. The departments of these men are staffed by members of all the classes, not only to provide more help for the great amount of work necessary for a successful yearbook, but to give invaluable experience to those who will a year or two later be coping with the same problems in their own senior publication.

The Reynard for this year will be approximately 128 pages in length, and it is planned that the first half of the book, or 64 pages, will be ready by the first week of April. The remainder of the book will have a deadline a week or two after graduation, to allow for the inclusion of many events that will occur near the end of the school year. At present, about 28 pages have been completed and are ready for printing. To take advantage of lower printing rates, the entire book will not be published until the summer months, and will be distributed in early October of this year.

Some of the objectives planned by the Seniors for this first Reynard are pages printed in color, representation of the entire student body by individual photographs, and a \$2000 advertisement subscription by local concerns.

Editorials:

It is the customary practice of college newspapers to illustrate in their first publication of the year the editorial policy which will be followed and maintained throughout each succeeding issue. We of Reynard's Record do not feel inclined to make such a statement of policy. Since the fundamental purpose of editorials is the forthright, fair, and truthful expression of opinion concerning day-to-day events, we feel it is in the best interests of campus and paper to meet each deadline with a new and fresh appraisal of the current situation.

In place of a standard editorial policy, we would like to set up a statement of journalistic ethics and principles which will guide our conduct in subsequent matters.

Reynard's Record is a responsible newspaper.. The paper will always strive to be intelligent, balanced, and mature. As the official student voice of Marist College, we seek to take no position which would be detrimental to our school. At the same time, as a newspaper, we are responsible to the student body to state at all times the truth as we see it.

The paper will print all legitimate news that occurs on campus. In the future, we intend to print all that happens—not as everyone might wish it had happened but as it actually did happen.

Our feature articles are the personal opinions of the writers who sign them. The editors take responsibility for the accuracy and good taste of the articles—but not their opinions.

Since it is a human, a very human organization, Reynard's Record cannot promise that our judgment will always be the best. We cannot even say that we will always live up to these principles with absolute rigidity. But we can and will promise this one thing—We will try.

Letters to the Editor

Dear Sir:

In view of our latest defeat, at the hands of the New Paltz J.V.—in which the Marist five became three—more than a few have asked, "What has happened to our team?"

Let us analyze the situation. There are no more than ten players participating actively. Furthermore, it seems as if the same five or six—"the Marist five and sub"—play the entire game. Br. Gerard points out that attendance at practice is very sporadic, and for many reasons; lack of transportation, lack of time, and lack of interest. On one particular night I happened to drop in at a team practice, there were not even five active players. However, the following night at the New Paltz gym, seven play-

ers were present, but only two of them had been to practice the day before.Clearly, some sort of discipline is in order.

Allowing for some attrition, (we lost twenty per cent of our team in January), and for the inconveniences, we can say that the team has made a strong showing. I understand that a few new players have swelled the ranks and I hope that they will enhance our striking power, With added energy and faculty and student support, we can climb out of the ranks of the 'ALMOSTS', and chalk up a superb Marist effort to which we can all raise a stein.

Intramurals

The intramural basketball program got underway last week with the freshmen boarders and the day hop I teams splitting a pair. The boarders won the first game by a score of 80-39, while losing the second 61-42. High scorers for the boarders in the first tilt were Bob Van Aernun-19, John de la Rosa-22, and John Romeo-14; Hugh Reynolds led the day hops with a high of 11.

The second contest saw the boarders go down in defeat at the hands of Fred Weiss' (21) and Hugh Reynolds' (20) combined play. High men for the losers were Jimmy Pizanni and Jack Callahan who each had 10 points. This week's action pits the freshmen day hops II against the upperclassmen on Monday afternoon, Feb. 20 On Tuesday, Feb. 21, the two day hop teams meet.

Math Seminars

Br. Linus Richard has announced that a series of lectures will be conducted by the senior Math majors. These seminars will be held on Thursday mornings from 9:35 to 10:20 and will be aimed at topics not covered in the regular Math courses.

The first series of lectures will cover secondary school Math and teaching methods. The syllabus for the next two weeks is as follows:

Feb. 23; Freshman algebra—Br. Daniel

Mar. 3; Geometrical system—Br. Gilles

All Math majors and other interested parties are invited to attend these lectures.
