

SUEZ L.T. Deles. Fri. Sept. 7 - 56.

The word from Cairo tonight is - failure. The five-man committee, headed by Australian Prime Minister Menzies - getting nowhere in its discussions with Egypt's ~~Real~~ President Nasser. Four meetings between Nasser and the committee were held - and we hear that now the crisis over the Suez Canal seems ^{more serious} ~~worse~~ than ever. Nasser, flatly rejecting ~~Secretary of State~~ ^{the} Dulles' plan to internationalize the canal. The committee, rejecting ^{Nasser's} ~~his~~ alternative plan - for an advisory council, that would still leave Egypt in complete control of the canal.

The Menzies committee will meet Nasser once again - but evidently it will be only a courtesy call - before the members pack up, and leave. Menzies himself is ~~as~~ said to be anxious to get away by Sunday.

The Egyptian press insists that the door is not closed - that there's still an opportunity for more negotiations. But the Egyptian press is also making any agreement more difficult - by a violent attack on Sir Anthony

Eden. The newspapers in the land of the Nile, calling the British Prime Minister a "criminal". And charging that he wants to start a war over the Suez Canal.

BRITAIN FOLLOW SUEZ

A dispatch from London states that the British government is sounding out friendly nations - France, America, and others - about what to do next in the Suez Canal crisis. London, apparently, undecided - until Prime Minister Menzies reports on the Cairo conference. But Prime Minister Eden is said to have several plans in mind - and is ~~xxxx~~ trying to get friendly governments to agree to one of them, depending on what the Menzies report says.

The British Foreign Office denies a rumor - that Washington is urging Britain to put the Suez dispute before the United Nations. And Russia denies another report - that the Kremlin was offering to support the Dulles plan to ~~international~~ internationalize the canal - in return for disbanding the anti-Communist Baghdad Pact. Moscow, calling this report " a malicious invention."

Another *Italy and Lebanon*
~~one~~ report that ~~is not denied~~ some governments
are urging Nasser to be more ~~conciliatory~~ conciliatory, ~~including~~
~~Italy and Lebanon~~

DESEGREGATION

Tonight's news about desegregation tells of a crowd of five hundred around the high school in Sturgis, Kentucky where yesterday, national guardsmen had to escort negro children through for their first day of ~~school~~ school. Today this was unnecessary. The negro youngsters stayed at home.

Newsmen who talked to them found that some still hope to enroll at the high school. And they also heard that some negro fathers had received phone calls - threatening them with the loss of their jobs in the nearby coal mines, if the children return.

The Kentucky National Guard has orders to stay on the job, with special instructions for next Monday. When more trouble is expected.

At the nearby town of Clay, Kentucky, negro children on their way to school - turned and went home, when they saw a crowd waiting. Newsmen found that some negro

families have armed themselves - fearful of an attack on their homes. The children all seemed pleased when photographers asked them to pose.

At the State Capitol in Frankfurt - Governor Happy Chandler has papers drawn up- ready for martial law; although he says he sees no need for it - yet. But that he's ready just in case.

There were anti-integration demonstrations in other ~~xxx~~ states - as far apart as Texas and West Virginia.

MINTON

The resignation of Associate Justice, Sherman Minton, ends an odd chapter in the history of the Supreme Court. Minton, retiring because of ill health at the age of sixty-five.

There was surprise when President Truman appointed him to the court. He was known as a New Deal Senator - who supported President Roosevelt in Nineteen Thirty Seven - during the controversy over the packing of the Supreme Court. As a result no one believed he would ever become a Justice - a member of that court. His seat in the Senate was right next to the Senator from Missouri - who later became Vice President, and then President. Lo, when a vacancy occurred - Harry Truman remembered his old colleague, the Senator from Indiana. And that's how the defender of the Supreme Court packing plan - became a member of that august body.

Who will succeed Minton? Tonight, Washington rumors are that it may be Secretary of State Dulles - or *Attorney General Brownell*.

COMMUNISM

President Eisenhower believes that American children should be taught the facts about Communism. Mr. Eisenhower, making his position clear in a telegram to ~~the~~ *a session* ~~conference~~ of the American political science association, and the foundation for religious action in the social and civil order.

These groups have both proposed ~~teaching~~ about Communism in the public schools. The chairman of this conference, Dr. William Elliott, of Harvard, says that classroom education about the Red menace is, in his words, "one of the greatest and most urgent needs."

To which President Eisenhower agrees, ~~with this~~
~~The President~~ Saying in his telegram - that American teachers should not lose the opportunity to teach the truth - so that American children may learn to know the difference between our form of government, and the Soviet form. *The President's* ~~Mr. Eisenhower~~
point being ~~add~~, that all Americans should be in a position to make a

choice based upon knowledge - a choice between our
republican form of government, or our style of democracy,
and Communist tyranny. So, he wants all children to
learn all about Communism.

then, Stevenson, evidently referring to the White House
conference on education - called by President Eisenhower,
especially to study the problems facing our schools.

Adlai
Today Stevenson remarked: "We already know the

facts, our need is not for facts, but for action on the

facts." *He says* In his swing through the West *he* he found

many communities, ~~in the West~~ "Indignant about the failures

of the ~~Stevenson~~ administration." *- if elected -* and he promised to put

through a sound program for solving the school problem.

~~he is elected in November~~

G. O. P.
^

In his attack on the ~~Republican party~~ today, Adlai

Stevenson concentrated on the problem of ~~educat~~ education.

The Democratic nominee, charging that the Eisenhower administration has gathered lots of facts - and then ignored them. Stevenson, evidently referring to the White House conference on ~~the~~ education - called by President Eisenhower, especially to study the problems facing our schools.

Adlai
^

Today Stevenson remarked: "We already know the

facts, our need is not for facts, but for action ~~is~~ on the

facts." ~~He says that~~ *he says* In his swing through the West [^] he found

many communities, ~~in his words~~ "Indignant about the failures

of the ~~Eisenhower~~ administration." *- if elected -* And he promises to put

through a sound program for solving the school problem, ~~if~~

~~he is elected in November.~~

PUBLISHER

The Dominican Republic closes the case of Robert Harrison - the publisher of "Confidential" Magazine, who was shot while hunting in the jungle. We already know how another hunter, Richard Weldy, was involved. Weldy, telling the police that his gun went off accidentally - the blast, hitting Harrison in the shoulder. Today Harrison told the ~~police of the Dominican Republic~~ *the Santa police* - that Weldy is right, The gun fell during an argument, hit a rock - and the blast struck Harrison.

Just another hunting accident, - ~~the~~ case, closed.

CONVICTIONS

The convictions of two American soldiers - on charges of collaborating with the enemy in Korean prison camps - were both upheld today. The cases - of Corporal Claude Batchelor, of Kermit, Texas, and Major Ronald Alley, of Bar Harbor, Maine.

Corporal Batchelor was convicted by a court martial after testimony that he ^{not only} informed on other prisoners, ^{but he} ~~RECOMM~~ recommended that one of them be shot, and, wrote a letter designed to help Communist propaganda among American soldiers. ~~He was~~ Sentenced to a dishonorable discharge - and twenty years in jail, ^{the} ~~Now our court~~ of military appeals upholds the sentence, ~~The court~~, calling the evidence against Batchelor "overwhelming".

Major Alley was convicted by a court-martial - of giving military information to the Reds, soliciting military information from other prisoners, and helping the ^uReds convert Americans to Communism. Major Alley, now serving ten years in prison. An Army review board upholds his conviction

CONVICTIONS - 2

but Alley can still go to the higher authority of the court of military appeals.

WORLD CONTACTS

President Eisenhower calls a meeting - to discuss contacts between America and the rest of the world. ~~He~~
He is ~~Eisenhower~~ asking forty-nine prominent Americans to attend. ~~They're the~~ Chairmen of committees set up to further his program - committees representing fields from agriculture and ~~in~~ labor - to aviation and television. *The* President, ~~Eisenhower~~ *is* notes ~~that~~ *says* that our national success is due mainly to individual initiative, - ~~and~~ *he* wants to put that initiative to work on an international level. *TP e* ~~This~~ conference, to discuss ways and means of bringing more Americans into friendly communication with other peoples.

ATOMIC

An atomic physicist gives us a new phrase to add to our vocabulary of technical terms. - "Clean hydrogen bomb." Dr. Ralph Lapp, using the phrase in an article in the Bulletin of the Atomic Scientists, defines it as a hydrogen bomb that does not produce much fall-out, is "clean".

Planned all set for this one.
Waiting for Enigma.

The Professor explains that two types of bombs can be made - one by splitting atoms - a sort that produces a lot of fall-out. The other by fusion of atoms - with a minimum of fall-out. The fusion type he calls "a clean H-bomb". Much less destructive - because not so radioactive over a wide territory.

TYPHOON

The typhoon that caused the deaths of eleven American Marines on an Okinawan beach yesterday - hit the island full force today. Typhoon "Emma" smashing ashore with terrific winds. ~~The eye of the storm, twenty miles in diameter~~

~~lashing Okinawa with savage fury~~ So far, no more casualties

~~are reported.~~ *Okinawa all set for this one.*
~~everyone prepared for what was coming~~

Waiting for Emma.
~~after that tragedy on the beach yesterday~~

CARTOONIST

Everyone enjoys cartoons - I guess we all do.

So many will be saddened to hear of the death of Alex

Raymond - creator of "Flash Gordon". Alex Raymond,

only forty-seven, was driving his sports car near

Westport, Connecticut, when it swerved out of control,

hit a tree, and turned over. The creator of Flash

Gordon dead when pulled out of the wreckage. A

companion seriously injured.

APE MAN

A South African scientist describes a primitive
ape man - who lived in South Africa nearly a million years
ago. Dr. Raymond Dart, of Johannesburg - told a Congress
of scientists in Philadelphia - that the creature walked
like a man - but had a brain like an ape. This ape man, hunted
with bone weapons - using antelope horns as daggers - and other
bones as clubs. An ape that ^{made}~~makes~~ tools. [!]~~Sounds very close~~
to human, - if this South African scientist is ~~half~~ correct.

ROBBERY

At Nottingham, England, six men robbed a payroll car today, ~~and did it~~ in an original way. The car was on its way to a company plant - when a jeep came roaring up. The jeep, crashing into the side of the payroll car. And then the six men inside jumped out, ~~and~~ smashed the windows with sledge hammers, ~~They~~ seized the ~~the~~ money bags - jumped back into their jeep, and sped off. *All done* ~~The robbery,~~ so fast - ~~that~~ the men in the payroll car didn't even get a good look at them.

MOUNTAIN

Two climbers ~~have been~~ rescued from the slopes of Mount Rainier, in Washington. The Reverend Earle Johnson, and Don Richardson - ~~both~~ of Victoria, British Columbia. They left Tacoma Creek on Wednesday morning - to climb the mountain. But night fell when they were still at the thirteen thousand foot level. ~~They were~~ ^{afraid} ~~that~~ they would freeze to death - ~~so~~ they began flashing distress signals, with ^a ~~their~~ flashlight, and they were brought down unharmed, by a rescue party.

But ^{the} ~~our~~ two Canadian visitors haven't come off quite unscathed. ~~They're~~ ^{each} fined twenty-five dollars ^{for} climbing ~~on Mount Rainier forbidden by law,~~ after Labor Day, without special permission.

STALIN

The Kremlin takes another step in the degradation of Stalin. The Supreme Soviet decreeing that, from now on, those "Stalin prizes" will be known as "Lenin prizes". It was only a few years ago that Stalin gave his own name to these awards to Communist big shots all over the world. The winners usually receiving the "Stalin prize" - with expressions of gratitude - and praise of great proletarian leader, Comrade Stalin. But now jeering at Stalin is the order of the day in Moscow. With no more "Stalin prizes". Instead "Lenin prizes".

Retroactive too! Meaning, history again is to be rewritten! Former winners to receive certificates indicating that what they received were "Lenin prizes"!

KIPLING

Here's a follow up to a story we had the other night - about the British National Book League, trying to locate Mrs. George Bambridge - daughter of Rudyard Kipling. That Book League saying it believes Mrs. Bambridge is in America.

Well, a telegram has just reached me from Mrs. Gustavus Babson, Jr., of Batavia, Illinois.. Mrs. Babson says she believes Mrs. Bambridge lives in Halifax, Nova Scotia. So if Mrs. Bambridge is in Halifax - The British National Book League wants her help in finding "The Road To Mandalay". - the original manuscript.

"'Eathern Idol made of mud,
What they call the great god Bud'"

Henry, paging Mrs. Bambridge. Has she gone to Halifax?
