WALTER REED

At Walter Reed in Washington - former President

Eisenhower remains in "extremely critical" condition

tonight. Doctors reporting a recurrence of heart-beat

irregularities - said to be "evidence of a gradual worsening

of the General's condition." Indicating there's little left

now - but to wait - and hope - and pray for the best.

In Washington - also Chicago - the battle
was officially joined today. Democrat versus Democrat in the first of a series of clashes - building toward that
Democratic national convention next week.

Sitting in Washington - the party's platform committee. Hearing from opposing forces -on two of the major issues of our time: Civil unrest - and Vietnam.

Sitting in Chicago - the party's credentials committee, where McCarthy supporters were outvoted today in a key test of candidate strength. Raising the possibility that scores of would-be McCarthy delegates - will be barred from taking their seats.

CHICAGO FOLLOW DEMOCRATS

Elsewhere in Chicago - Hubert Humphrey

came down hard today - on the side of law and order.

Telling a labor audience: "We cannot condone violence

and looting and crime - we cannot condone the rule of the

jungle." Adding that as President: "I will mobilize

the resources of the nation - to put down the forces

of violence, looting and crime."

In a second Chicago address today - Hubert

Humphrey also declaring: "It is the first responsibility

of government - to provide safety of life and property
- Said Re,

and we shall do it."

SPRINGFIELD FOLLOW CHICAGO

On the Republican side - Richard Nixon
was off and running today in the Land of Lincoln.

Launching his bid for the Presidency - from the steps
of the Illinois State Capitol in Springfield. Telling a
crowd of about three thousand - "we must fight those
there things that divide us" we must cure the ills of
America - division between the races, disrepect for
the flag, inflation.

TEXAS WHITE HOUSE

More on politics - from the Texas White

House, Where the administration said "yes" to Georgia

Governor Maddox's request for a foreign policy briefing same as all the other candidates.

White House Press Secretary George Christian saying Maddox will meet with State Department officials - either Wednesday or Thursday in Washington. Adding, however, that the possibility of a personal talk with the President will depend on whether L B J has returned to the capital by then.

ATLANTA FOLLOW TEXAS WHITE HOUSE

Earlier, in Atlanta - Maddox calling himself
an "extremist" in the same sense as Paul Revere, Nathan
Hale, John Adams. Adding that he agreed with Barry
Goldwater's statement - that "extremism in the pursuit
of liberty is not a vice."

What about his chances at Chicago? They're
"very, very slim" - admitted Maddox. But just about
"as good" -- said he "as they were in the Georgia
Governor's election in Nineteen Sixty-Six."

On the war front - in Vietnam - allied troops today smashed the biggest enemy offensive of the summer. Killing more than five hundred Viet Cong -- driving hundreds more back toward the Cambodian border; finishing up a bloody battle that began this past weekend; in the village of Tay Ninh about fifty-five miles northwest of Saigon.

At the same time - to the South - another major engagement in the Mekong Delta, With troops of the US Ninth Infantry - tracking down an estimated three hundred Viet Cong. Killing more than seventy - in the battle that followed. The "take" also including twenty PO W's == as well as twenty Viet Cong for defectors.

PARIS FOLLOW VIETNAM

Meanwhile, in Paris - North Vietnam today

demanded a complete withdrawal of U S troops - from

that so-called demilitarized zone. Hanoi's Nguyen Than

Le calling U S forays into the buffer zone - a violation

of the Nineteen Fifty Four Geneva accords.

What about the rumor - that North Vietnam will soon propose mutual withdrawal from the D M Z?

Here at home - the future role of the returning

Vietnam veteran - a subject of recent speculation.

Also - some concern. However, a concern which is

apparently not shared - by the nation's foremost veteran

of Vietnam.

In Detroit - General Westmoreland asserting today that the returning G I "will make the finest citizen the country has ever known." Reason - said he: because the Vietnam veteran "has made a great sacrifice of time and effort and blood - in a cause in which he believes; and he willnot want to see his efforts - go down the drain."

Latest from Red China - an indication that

Chairman Mao's fanatical Red Guards - have apparently

outlived their usefulness. This the interpretation; at

Queen

Least - put on a broadcast today from Radio Peking.

Suoting Chairman Mao as as saying: "Our young

intellectuals and students - must go among the workers

workers and peasants; without whom - we cannot win the

fight against imperialism and feudalism."

According to China-watchers -- Mao thus bedin

telling the Red Guards, in effect, "the revolution

is over; now go home and grow up -- and don't come

back until you can handle a man's job."

Warren, lets hear from you!
