L.T. FRIDAY, NOVEMBER 4, 1966

GOOD EVENING EVERYBODY:

For President Johnson -- a free-swinging, news conference today at the White House. The LBJ ranging far and wide -- on topics foreign and domestic. On purpose or not, stirring up enough controversy to last at least the next two weeks -- during which he'll take a vacation.

Pirst question of course, reflecting national concern
about the President's forthcoming operation. Nothing to worry
about -- said he -- just a little stitching. Said the
President "most people in this room -- probably have faced
considerably more problems."

Amenities disposed of -- the President ready to fire away
-- in rapid succession -- he raked the press for careless
reporting -- derided the reliability of Barry Goldwater as
an election prophet -- asserted that more troops will be sent
to Vietnam as needed -- warned the Communists not to press
their luck in Korea -- thoroughly denounced

criticism of the Warren report - and suggested that since Pope Paul wants the United States to stop bombing in Viet Nam - he ought to try to get Viet Cong terrorists to stop their bombing, too.

All this leading up to a rare personal attack on EXRI an old political foe. The President blasting Exercise Mixon for casting doubt on a stated Manila decision, to the effect that U S forces will leave Viet Man within six months after settlement of the war, there.

campaigner, one who finds fault with his country
and his government - at election time every two years.
The President adding of Mixon: "He never did really
recognize and realize what was going on when he had
an official position in government. Now he is out
talking about a conference - that obviously he is
not well prepared on or informed about."

The President concluding that "Mr. Nixon

the wrong "kind of impression - in the hope that
he can pick up a precinct or two - or a ward or two."

Townst New Mixon, meanwhile, on the campaign trail
today at Waterville, Maine where he expressed surprise
- "at the temper and tome" of the President's remarks.

This said Wines Showing that the President
himself - "is unfamiliar with our position in Viet Man."

After months of delay - the United States

and Russia today signed a long-awaited air agreement dan

official ceremony - in Washington. Thus

the way for direct commercial air service between

Hew York and Moscow, - probably as early as next spring.

Pan American ANN World Airways - to be the American carrier - reciprocating flights by Aeroflot-the one and only Russian airline.

Perhaps even more important than the pact itself - the fact that it marks the first major U S and Russian agreement - since America become heavily involved in the war in Viet Wam. As such - tim it's seen by some as a possible portent - of future cooperation between the two countfies; including - hopefully - eventual agreement on effective nuclear control.

3

has clearly defeated Red China's bid for our supremacy in the Communist world. So says the Soviet Communist party newspaper Pravda - in one of the most confident statements it has ever made a supremacy that current Sino-Soviet song controversy.

Provide declaring that in Chine in rejecting

Moscow leadership - "expected to engineer a split

in the world communist movement," and thereby

"win some parties over to its side." Pravide asserting

flatly, however, that "these expectations - have not

and could not come through."

*the communists of the world reject the dissentious
line of the Chinese Communist leaders; openly

mult declaring themselves - against such action.

VIETNAM

News today of another fire -- aboard a U.S. Aircraft carrier. The second -- in less than two weeks.

The Franklin D. Roosevelt on station off the coast of Vietnam, was hit by a dudden flash-fire in a storage compartment containing paints, oil and hydroulic fluid. The fire lasting only fifteen minutes -- killing seven and injuring fourteen.

Back on shore -- the Viet Cong hurling a series of humph wave assaults at U.S. infantrymen; sixty miles northwest of Saigon. We're told, however, that the G.I.'s -- "stopped 'em cold."

End result: The Americans confiscating enough rice -to feed an entire Viet Cong division, for a full year.

UNITED NATIONS

SPACE

For the one hundred and fourth time -- a Russian vete today at the United Nations. Killing a small-power resolution -- aimed at easing border tensions between Israel andSyria.

Hard on the heels of that American space '
spectacular of yesterday, the amazing flight of a

Titan Three C rocket - a surprising announcement
today from Moscow. The Soviet News Agency Tass
reporting that Russian scientists - secretly launched
an entire space laboratory some time last month.

According to Tass - an unmanned, automatic and highly sophisticated space vehicle; powered by a new gas-plasma ion engine. Its main surprose, apparently - to test the uses of electricity in outer space. What happened to Tantar-One -- whether it burned up in the earth's atmosphere-- whether ended up in orbit about the sun - or patterns. Findings to be published in due time - sayd Tass - through the Soviet Academy of Sciences.

WEATHER

On the weather front -- New York's turn today to bear the brunt -- of the autumn cold frost. A so eight to twelve inches of snow along the shores of Lake Rax Erie; with a prediction of another six inches -- tonight.

From Smyrna, Georgia - the sad story today of a millionaire many times over who asvertheless has just been placed on relief. The gentleman in quesion seventy nine year and old Otto Orkin; who made a fortune in pest control -and managed to hang on to most ofit. Only to end up 'a needy' person, as defined by local welfare. The problem the fact that a few months ago - Orkin suffered a disabling illness. His wife - later assigned to act as his personal guardian. Whereupon the entire Orkin fortune - an estimated five million - was tied up in complicated litigation.

Mrs. Orkin has had to pawn some of her jewelry and the bills keep piling up. But now at least - they'll have enough to eat. As "needy" persons - the couple entitled to government surplus foods - free of charge.

RIO DE JANEIRO

lot of coffee in Brazil. In fact, too much. Which accounts for this next from Rio; de Janeiro:

that four hundred and sixty million coffee man trees will be chopped down over the next four months.

Cooperating coffee growers to receive funds from a bank of Brazil - to replant their fields with food products - principally wheat and form. This an effort to reverse an ironic situation - to which Brazil, be the world's largest coffee producing nation - yet find it necessary to import most all of its other foodstuffs.

The coffee cut back " likely to cause a Mo - Mo - Mo - say Brazilian officials. Surplus crops in recent years - bulging warehouses with an estimated sixty-five million warehouses of coffee beans, Enough they say - to last at least four years, and a-l-u- Mon.
