

*Good Evening Everybody:*

*If you happen to have a suitcase with a false bottom covered with tea leaves - you must be a Chinese Red bound for the Soviet Union. Moscow says that's how Peking's propaganda - is being smuggled across the Central Asian border. The comrades from Red China, opening their bags - for the Soviet Custom Officials. But neglecting to declare - what's below the tea leaves in the false bottom. Namely - pamphlets castigating Khrushchev, and promoting the ideology of Mao Tse Tung.*

*The worst offenders, according to Moscow - students who are said to be - inveterate propagandists. Flaunting their version of Leninism - even to their Moscow professors. And if there's one thing a Moscow Professor doesn't like - (this just might apply to*

professors elsewhere) - it's an undergraduate who talks back.

**Result - a warning from the Soviet government that all students from Red China may be booted out of the Soviet Union.**

In fact, Mr. Kennedy calls this agreement with the Russians - "not only safe, but necessary".  
What if the Soviets - violate the treaty? President Kennedy says we are fully aware of - that possibility, and ready to take action - should Khrushchev break his word again. What kind - of action? The President lists eight provisions - that we have already made available from continued underground testing - in the maintenance of our testing program in the Pacific

## NUCLEAR

*President Kennedy's letter read to the Senate today was sent in the hope of convincing the lawmakers that the Nuclear Test Ban Treaty is so heavily in our favor, that our national self-interest demands - ratification by the Senate.*

*In fact, Mr. Kennedy calls this agreement with the Russians - "not only safe, but necessary". What if the Soviets - violate the treaty? President Kennedy says we are fully aware of - that possibility, and ready to take action - should Khrushchev break his word again. What kind - of action? The President lists eight provisions - that we have already made. Everything from continued underground testing - to the maintenance of our testing-ground in the Pacific.*

## MAFIA

*The Italian government is taking steps to put an end to one of the sinister organizations of our time - the Mafia. Rome, deciding to grant more power to the Carabinieri who are on duty in Scicily, home of the Mafia. Authorizing the Carabinieri to get tougher - with the Mafia.*

*According to all reports the Mafia has that island - in a tight grasp. The ring leaders conducting a reign of terror - robbery, extortion, kidnapping. Their agents, bound together - by the dark code of the Scicilian Vendetta. Meaning - sudden death for informers.*

*Mussolini for a time suppressed - the master criminals of Sicily, and the present Italian government also hopes to do it - with The Carabinieri.*

## ALABAMA

*The pattern of segregationist demonstrations in the Alabama schools appears to be - more noise than violence. The noisiest today - West End High in Birmingham where white students milled around, waving confederate flags and shouting epithets - when two negro pupils arrived for class. But - there was no attempt to prevent them from entering the school. The crowd, breaking up - when they were turned back at the police line. There was a rock thrown through the car window - the car bringing the two negroes to school. Then there is the white boycott of West End High, with less than four hundred in class today - out of an enrollment of almost fifteen hundred. Still, that's more than there were yesterday.*

## TYPHOON

Typhoon "Gloria" was not moving fast - when it hit the island of Formosa. But that's the reason why Chiang Kai Shek's island - is so battered tonight.

Violent typhoons usually roar through in a hurry. But "Gloria's" forward rate was only six miles an hour. As if to make sure nothing escaped. And - not much did. The whirling winds were about a hundred and sixty miles an hour. Nearly three times what it takes - to make a storm at sea officially a typhoon. Down went buildings - and bridges. Also thousands of palm thatch huts were swept into the China Sea.

Rain - on a scale Formosa has not seen in the history of its weather bureau. Twenty one inches of rain - in thirty-six hours. Today dozens of streams were pouring over their banks, inundating hundreds of villages. The city of Taipek under two feet of water.

In the harbor - hundreds of small craft snapped their anchors, and - were washed out to sea.

**TYPHOON - 2**

**A ten-thousand ton freighter rammed others  
as it drifted from one side of the harbor to the other.**

**The toll of injured and dead - running into  
the thousands. Homeless - hundreds of thousands.**

**Typhoon Gloria pays a visit to Formosa.**

cleaner than it was thirty years ago. One reason  
industry now has a better program of smoke control.  
Not so many chimneys pouring columns of black smoke  
into the sky.

This industrial improvement, supplemented  
by the switch from coal to oil - to power homes.  
Also, there's the diesel engine, that's cleaner - than  
the old steam engine it replaced.

Fog, smog and smogel. Phoney -  
Mr. Schulze.

## AIR

We've heard much about the increasing pollution of the air of our big cities. But there are those who say it isn't so.

Erwin Schulze, of the American Iron and Steel Institute, insists that the air we breathe - is cleaner than it was thirty years ago. One reason - industry now has a better program of smoke control. Not so many chimneys, hurling columns of black smoke - into the sky.

This industrial improvement, supplemented by the switch from coal to oil - in private homes. Also, there's the diesel engine, that's cleaner - than the old steam engine it replaced.

Fog, smog and smoke! Phooey - says Mr. Schulze.

JOHNSON

21  
The American Vice President toured Oslo today - as if he were a candidate running for the Norwegian Parliament. Lyndon Johnson, shaking hands - kissing babies. Talking about freedom, equality -- and the good life. Quite a change from - the usual Norwegian style. The tall Texan, a little more flamboyant -- than the Scandinavians.

But, Lyndon Johnson came up with - a Norwegian model. Said he - "I'm just going back to the free-wheeling days of the Vikings."

## PARK

The following puzzle should be easy - for anyone who has been following the Senate sub-committee on public lands. "What has the sub-committee in common with - the farmers of Manhattan, Kansas?" Answer - opposition to the Secretary of the Interior.

We've already had the story of Secretary Udall suggesting - that sixty thousand acres of Kansas prairie be ~~set~~ set aside for a national park. The Secretary, provoking a story protest -- by the farmers of the Sunflower State. One of whom even ordered the Secretary of the Interior - off his property.

Well, the subcommittee goes along with - the farmers. Voting unanimously to shelve - Udall's National Park Bill.

DRUG

**The latest miracle drug - is Penta-Zocine.**

**Kills pain - as effectively as morphine, and not**

**habit forming.**

**Penta-Zocine - was described today - by**

**Doctor Arthur Keats of Baylor University, telling the**

**American Chemical Society - that the drug has been**

**tested on thousands of Baylor students, all of whom**

**found it - a powerful anodyne and none became addicted.**

**With Penta-zocine no fear of creating - drug addicts!**

**Feeling any pain Dick - have some Penta-Zocine!**

Quite a spectacle, the lady talking about

a hair rinse - to the salon on Capitol Hill. A lot

of whom don't bother about their hair - because they

haven't got any.

Leonora - Kersell? The Missouri Democrat

is a brunette - with no intention of turning into a

blonde.

## COSMETICS

*"To be a blonde - you must suffer, a little bit". A beauty parlor in Baltimore defends itself against a suit - by a brunette who asked them to turn her into a blonde, and says she felt afterward that she had been scalped.*

*All of which takes us - to Capitol Hill in Washington. Leonore Sullivan, urging her colleagues in the House - to see that all cosmetics are put through a safety test. Allowed on sale, only after an okay - from the Federal Drug Administration.*

*Quite a spectacle, the lady talking about a hair rinse - to the salon on Capitol Hill. A lot of whom don't bother about their hair - because they haven't got any.*

*Leonore - herself? The Missouri Democrat is a brunette - with no intention of turning into a blonde.*
