

L.T.-DELCO. TUESDAY, JUNE 9, 1959.

GOOD EVENING EVERYBODY:

There was an important meeting at the White House today - to discuss the problem of inter-service rivalry. President Eisenhower, calling in - his top military and civilian advisers, telling them he wants an end to - the bickering between Army and Air Force. That question - which service has the best missile? The Army, defending its Nike-Hercules. The Air Force, just as sure about its - Bomarc.

At the White House today - the President and his advisers talked over a master plan for air defense. A master plan that would, among other things - decide that missile controversy.

This meeting, the high spot of - a full work day for President Eisenhower. After which, he flew to Atlantic City - for tonight's address before the American Medical Association.

GENEVA

87
The Geneva conference has reached the stage of -
ultimatum and crisis. The ultimatum - drawn up by the West,
and handed to Gromyko. Britain, France and America telling
him - either come to an agreement on Berlin, or forget about
that summit conference. The minimum demand by the West - a
Soviet guarantee of our rights in West Berlin.

The crisis - a twenty-four hour delay, requested by
Gromyko. The Soviet Foreign Minister - consulting Khrushchev.
If Gromyko doesn't return to the conference table with some
real proposals - it's likely the Foreign Ministers will break up.
With nothing accomplished.

Just
the
Most Western diplomats in Geneva believe - that's how
the Geneva conference will end.]

MOSCOW

The all Communist session in Moscow is over.

Khrushchev and the East German leaders said to have reached full agreement - as why shouldn't they? Do puppets ever talk back - when at the Kremlin?

Following this negative vote in the Politburo - the French are accusing Britain and America - of taking an anti-French line.

NATO

The French plan for Nato - turned down by Nato.
DeGaulle's representative in London proposing - global
strategy, instead of regional planning. The six hundred
delegates - saying "No" to that.

The point is, that DeGaulle wants a bigger role
for France in the international organization. And he
demands - full sharing of atomic secrets.

Following this negative vote in the Nato Council -
the French are accusing Britain and America - of taking
an anti-French line.

ERHARD

In West Germany, a political battle is shaping up - over Chancellor Adenauer's decision to stay on. The Minister of Economics - attacking the decision. Erhard, returning from America - learning of Adenauer's turn-about when he saw the newspaper headlines.

Erhard, popular choice of the Christian Democratic Party - to succeed Adenauer. Now preparing to challenge Adenauer - for the leadership of the party. And maybe for the job of - Chancellor of West Germany.

All Cubans who own more than a thousand acres *are* ordered to file a report within ninety days. This, the latest in - Castro's land reform. The Premier of Cuba, threatening to prosecute - anyone who refuses.

~~At the same time, Castro announces - he'll tour~~ *will tour rich*
Pinar del Rio Province. ~~That's the~~ center of opposition - to his policy of redistributing ~~the~~ land. The leader of the anti-Batista revolution, promising to use his personal popularity - to stifle ~~the~~ criticism that is becoming louder every day.

MILTON EISENHOWER

STEEL

The United Steel Workers will return to - separate bargaining with each steel company. So announced by the head of the Union, David MacDonald - who charges that steel management is trying to provoke a strike.

SUBMARINE

The U.S. Navy calls its new submarine - "the deadliest ship ever built." The "George Washington," length - three hundred and eighty feet, dead weight - five thousand tons, cost - ten million.

What's so special - about this sub? The "George Washington" is armed with - Polaris missiles. Sixteen 2-stage rockets - carrying nuclear warheads, and can fire them while submerged, hit a target fifteen hundred miles away. "The deadliest ship ever built."

SOUTH AFRICA

More segregation - in South Africa. Apartheid - as it's known in Capetown. Meaning - strict separation of the races.

Committee two weeks ago. The judges ruling ^{that} Chiang Kai-shek's
athletes don't ^{not} represent the Chinese people. But adding ^{that} the
Nationalist Chinese could be admitted as representing Formosa.

and
~~Well,~~ an application has arrived - from Taipei, ^{Formosa,}
The Committee, reading it - then rejecting it. Reason - the
form uses the word "China" instead of "Formosa." The Nationalist
Chinese, styling themselves - " the Republic of China Olympic
Committee." A title the ~~IX~~ International Committee - refuses
to recognize.

We are always hearing stories about - the farmer's daughter. From Naples comes the story of - the farmers' wives - and "the potato price riot."

Neapolitan "Murphys" as we used to call them, selling for lira equivalent to half a cent a pound. The farmers sore - and the farmers' wives going into action.

Today fifty senoras - attacked the local market, storming in - knocking down clerks who got in their way.

The clerks, rescued by the police. Tonight, the irate ladies of Naples are still in possession of the market.

Firing a barrage of potatoes at anyone who approaches.
