INTRODUCTION.

Although America played no part in the last and greatest crusade in the Holy Land, the only record of the deeds of the Australians, New Zealanders, Irish, Scotch, English, French and others who drove the Turks from Jerusalem was obtained by an American mission sent out by the President of the United States. This is not in any sense an historical account of the liberation of the Holy Land and the war in the land of the Arabian Nights, for if I were to tell you of nothing but the achievements of the Tenth Irish Division it would take many hours, and it is merely my privilege to accompany you tonight on a short trip to Palestine and Arabia.

FILM - Sea, Map - Gibraltar - Malta - Sea.

I would like to have you close your eyes for a moment, and try and forget that you are here in this theatre, and come with me on a magic carpet, out to ~~the~~ land of history, mystery and romance. Imagine yourself on board this steamer leaving - (Plymouth, Liverpool or nearest port). After skirting south along the coast of Europe, we will make our first stop out here in the centre of the Mediterranean at this little island of Malta. From Malta we journey on across/<sup>to</sup>the mouth of the Nile in Egypt and up to Cairo. From here in the land of the Sphinx and the Pyramids we will cross the Suez Canal, and this great desert of the Sinai Peninsula to Beersheba, Gaza, Jaffa, and then to the Holy City. - (Note:-
