

L. T. - OLDS-FISHER. TUESDAY, JUNE 25, 1963

GOOD EVENING EVERYBODY:

The tipoff on President Kennedy's visit to Frankfort, West Germany - is the shoe. Men's shoes, but more often - lady's shoes. They littered the street - after the American President passed by. The crowd, running after his car with so much excitement - that somehow they say, eople lost their shoes - not their hats - their shoes! The owners not pausing - to pick them up which would have been difficult anyway - because of the pressure from the throng of Presidential well-wishers. Forty thousand surging around his car - after breaking police lines in one place.

The dispatches say that more than a million cheered him - in Frankford - and interrupted his speech with applause twenty times when he reiterated the

the determination to defend Europe. That is to  
consider any attack on our Allies - as an attack on  
America.

... to agree that the... of the Kremlin  
wants to counteract the effect of President Kennedy's  
visit to West Berlin. He's using Ulbricht's anniversary  
birthday as an excuse - to see if he can arouse some  
pro-Soviet sentiment among the captive East Germans.

There is some speculation that Mr. Ulbricht  
is angling for a meeting with the American President.

## KHRUSHCHEV

As for the speculation about why Khrushchev will arrive in East Berlin - on Friday. The Kremlino-  
logists seem to agree that the Boss of the Kremlin wants to counteract the effect of President Kennedy's visit to West Berlin. He's using Ulbricht's seventieth birthday as an excuse - to see if he can drum up some pro-Soviet sentiment among the captive East Germans.

There is some speculation that may Khrushchev is angling for - a meeting with the American President.

Russians during the past fifteen years. Busy handling  
them Swedish and American classified information - since  
nineteen forty-eight.

The Swedish government doesn't want too much  
damage - as done by their Air Force Officer. But they  
do know that Colonel Vannerstrom is the central figure  
- in what they call the worst spy case in Swedish history.

## SPIES

The question tonight - has there been any spying? The answer - yes and no. Depending on whether you're in Stockholm - or Washington.

In other words, the American airmen brought home from Britain are reported not guilty of any breach of security, and not involved - in the Profumo scandal. They are being returned to duty - without prejudice.

As for Stockholm and the story told by Colonel Stig Wennerstroem. He confesses to spying for the Russians during the past fifteen years. Busy handing them Swedish and American classified information - since nineteen forty-eight.

The Swedish government doesn't know how much damage - was done by their Air Force Officer. But they do know that Colonel Wennerstroem is the central figure - in what they call the worst spy case in Swedish history.

## ASSASSIN

The prime suspect in the Evers murder case - claims to be innocent. Beckwith, telling the judge - "not guilty." His attorneys to attempt to prove that Beckwith was not the cowardly assassin - who shot Evers in the back. The prosecutor insists the defendant is guilty, and will ask for - the death penalty.

all of them remained orbit around the earth. And disintegrated. The fragments falling back toward the earth - disappearing in flames and smoke as they streaked through the atmosphere.

The Russians have their space failures - but never report them.

## SPACE

Four Soviet space vehicles that failed - have burned up in the atmosphere. So reported by the American Space Agency - which identifies the Soviet space failures like this. Two probes toward Mars, one Venus probe - and a Lunik that was supposed to reach the moon.

Instead of proceeding toward their targets - all of them remained in orbit around the earth. And - disintegrated. The fragments, falling back toward the earth - disappearing in flames and smoke as they streaked through the atmosphere.

The Russians have their space failures - but never report them.

X-15

I presume Joe Walker - of Edwards Air Force Base, California, is the No.1 hot pilot. Joe took his X-15 up today - more than twenty miles and hit a speed of - three thousand, seven hundred, and eighty-four miles an hour; five times - the speed of sound.

Temperature on the outside shell of the X-15 - over one thousand degrees fahrenheit. Enough to burn up - an ordinary plane. The nose and wing-tips of the X-15 - red hot. But it was built - to withstand just that kind of punishment.

A hot plane, and a hot pilot - Joe Walker and his X-15.

## WATER ~~PROBLEM~~

The Secretary of the Interior wants to do something - about water; use Federal funds to finance research at state universities and land-grant colleges.

place where Secretary Udall says the West is now near - the danger point. A severe water shortage due within the next two decades.

So let's have basic research now. Laboratories to experiment with better techniques - for using the water we already have; and field expeditions to look for natural reservoirs - underground.

## CONVENTION

Well, the two major parties to meet as far from each other - as they can. The Democrats have selected Atlantic City, New Jersey - as the place where they'll renominate President Kennedy, while the GOP will do their nominating at San Francisco.

Beryl asked - if she could take it for a spin.  
Don said - sure. Got off with Beryl - and she hasn't been seen - for 2 weeks. Says Don Parker of Ketchikan, Alaska and, "I never thought Beryl would be able to sell."  
What do you think, Dick?

CAR BRITISH GUIANA

In Hitchins, England, Beryl Parker who wanted - a car, made that clear - to her husband. Whereupon, Don Parker set to work saving his pence, his bob, and his quid - until he had enough for a big surprise. He bought the car, drove it up to his front door - and presented the keys to his wife with a flourish.

Beryl asked - if she could take it for a spin. Don said - sure. So - off went Beryl - and she hasn't been seen - for 2 weeks. Says Don Parker of Hitchins, England, "I never thought Beryl would do this to me!" What do you think, Dick?

## BRITISH GUIANA

*The phrase "another Congo" - is more applicable to British Guiana than ever. Meaning - a spiral downward toward anarchy. The need of an outside force to restore order - growing urgent. With the British cast in the role of - the U.N.*

*It looks as if only Her Majesty's armed forces will be able to prop up Marxist Jagan. An odd assignment - for the Coldstream Guards. But the historic British outfit, is already patrolling the streets of Georgetown and may have to intervene directly - if the anti-Jagan riots get any worse. If the bombing of public buildings continues in chaotic British Guinea - which tonight is reminiscent of the Congo.*

ART  
**LANDSLIDE**

Another record - for Sotheby's of London.  
The number of fatalities at Chang-Sung-Pori,  
The world's most famous auction house, snapping down  
on Kojedo Island off South Korea - may be more than a  
the art collection of millionaire René Fribourg. Doing  
hundred. The first figure of seventy-one, revised  
if in seven installments - because there's so much of  
upward - as the search continues. Many more than  
it. Beginning - with porcelain.  
that - injured or homeless.

The sales today came to - one hundred and  
The victims were caught - in this morning's  
eighty-one thousand pounds sterling. Half a million  
landslide. Heavy rains, loosening hundreds of tons of  
dollars. The first time, they say, that porcelain has  
earth and rock - on the cliffs above the town. Suddenly  
brought bids that high - at any auction, anywhere.  
the entire face of the cliff - came hurtling down, snapping  
telephone poles and trees - burying - houses, even  
filling in a nearby lake.

A shambles of death and destruction at  
Chang-sung-Pori, in South Korea.

J. T. OLDS, FISHER, WEDNESDAY, JUNE 29, 1961

**Another record - for Sotheby's of London.**

**The world's most famous auction house, knocking down the art collection of millionaire Rene Fribourg. Doing it in seven installments - because there's so much of it. Beginning - with porcelain.**

**The sales today came to - one hundred and eighty-one thousand pounds sterling. Half a million dollars. The first time, they say, that porcelain has brought bids that high - at any auction, anywhere.**

The Berliners loved it. Always a quarter of a million of them - jammed into the square before the city hall, to give President Kennedy the greatest ovation - he has ever had.

Perhaps the atmosphere on both sides of the wall dividing Berlin is summed up by the newspaper
