

EISENHOWER

L.T. calls Fri. Nov. 18-60.

President Eisenhower is ignoring Cuban and Communist complaints - over the American flotilla now patrolling the Caribbean off Central America. Havana, Moscow, and Peking are charging - "Yankee imperialism." A charge ^{the President} ~~that Mr. Eisenhower~~ refuses to dignify - with an answer.

Some officials believe ^{he} ~~the President~~ is warning Castro - that we mean business in defending Guatemala and Nicaragua from invasion. That we won't just offer ineffectual protests - while the Cuban Dictator sends an invasion fleet out from Cuba. It's the same kind of warning that we gave Mao Tse Tung - when President Eisenhower ordered our seventh fleet to patrol the Formosa Strait.

Red China hasn't made any attempt to invade Formosa - since then. The hope is that Castro has enough ^{discretion} ~~sense~~ to do likewise, in the case of Central America.

LAOS

Around Washington, fear for the future of -
Laos. Fear that the tiny nation in Southeast Asia - may be
swept behind the Iron Curtain, ~~or~~ - the bamboo curtain.

The tip-off -- a decision by the neutralist
Premier to bring Laotian Reds into his cabinet. Souvanna
Phouma claims - ~~he~~ he just wants a wider representation
of parties. But in Washington it's pointed out how often
a coalition government - has ~~been~~ been the prelude to a
Communist coup.

CONGO

The Congo Republic has broken off diplomatic relations - with the new African state of Ghana. The High Commissioner in Leopoldville accused Ghana's Embassy personnel - of intriguing with Lumumba. Hence the order - booting them out. The Congo government has also warned Guinea and the United Arab Republic - that ~~then~~ their turn will come next, if they keep trying to maneuver Lumumba back into power.

Meanwhile - more terror in Katanga. A U N patrol today found the bodies of eighty Balubas. This ~~makes~~ makes over a hundred African natives - killed during the week - the Balubas and the Lulus - continuing their age-old *feud.*
~~tribal feud.~~

At U N headquarters in New York, President Youlou of the former French Congo - today proposed an "African summit conference" on the turbulent territory that ~~then~~ once belonged to Belgium. And the General Assembly refused to postpone debate - on the seating of Kasabubu's delegation, ~~The~~ anti-Lumumba delegation.

KENNEDY

That session in Palm Beach - must have been a
~~pretty~~ ^{rather} comprehensive affair. President elect Kennedy -
meeting with Allan Dulles and Richard Bissell of the C I A,
for nearly three hours ~~The~~ ^{on} subject ^s ranging from Cuba
to Laos. A high level discussion - involving top secret
information. And what the three ~~men~~ said to one another -
is ~~xxx~~ top secret.

They sat on Kennedy's front lawn - overlooking
the Atlantic Ocean, ~~They~~ ^{ing} talked earnestly - their heads
together. ~~Men~~ Occasionally they spread out maps and
charts - leaning over them, with ~~a lot of~~ ^{much} nodding and
~~men~~ pointing ~~of fingers.~~

~~Then the documents were carefully returned to
their folders. Dulles and Bissell left. Kennedy, briefed,
on the outstanding international issues - went back to
planning the foreign policy of his coming administration.~~

NEW ORLEANS

The word in New Orleans tonight is "interposition."
The word
~~It~~ comes from - the segregationist lexicon, ~~And~~ means the right of a state to ignore federal orders - when it thinks ~~that~~ Washington has gone too far.

Louisiana segregationists are insisting that's
it
~~the case~~ right now - in New Orleans. Attorney ~~Jack~~
Gremillion today told a federal court - that his state ~~is~~
no longer recognizes its authority in integration cases.
So the three cases before the court - ought to be dismissed.

Gremillion was - overruled. The court, holding that previous integration rulings remain ~~as~~ in effect -- unless a later verdict overturns them. And there's ~~a~~ slim chance ~~of~~ of that. Louisiana's reply - interposition. The state, acting on its own - to keep the public schools of New Orleans segregated, ~~or~~ else - ~~the~~ closed.

But the state is running into trouble - at home. Some New Orleans parents are suing - to keep the ~~schools~~ schools open. They say they want their children in their classrooms - even if they are integrated.

ACCARDO

The verdict on Anthony Accardo - is ironic.

Touch Tony, often called the heir to Al Capone - was caught on an income tax charge, the same thing - that tripped up Capone. Tough Tony, like Scarface Al, going to jail. A Chicago court giving him six years - plus a fifteen thousand dollar fine.

They say the Underworld Lords of Gangland have become much more careful - since Capone's time. But they caught Accardo napping it appears.

Peter O'Toole who has been a messenger boy, sailor, reporter, editor, and actor, fills the bill. In the theatre - only three years, he already has won the Paris Festival Award - and been named Britain's actor of the year.

The scenarios are expected to roll - in Jordan, in February. The movie saga, finally getting around to one of the most dramatic figures of our time. The

LAWRENCE

A dispatch from London states that it's to be Peter O'Toole, not Marlon Brando - for the leading role in the film - "Lawrence of Arabia," based on my Lawrence book and other material. O'Toole, a young Shakespearean actor - getting the part so many big stars had wanted.

American film producer Sam Spiegel who made the Bridge on the River Kwai, told his scouts to look for "someone more than just an actor." He now thinks, Peter O'Toole who has been a messenger boy, sailor, reporter, editor, and actor, fills the bill. In the theatre - only three years, he already has won the Paris Festival Award - and been named Britain's actor of the year.

The cameras are expected to roll - in Jordan, in February. The movie moguls, finally getting around to one of the most dramatic figures of our time. The

Prince of Mecca, Lord of Damascus, uncrowned King of
Arabia - T. E. Lawrence, who put into one spectacular
career enough material for several technicolor epics.
Perhaps the most glamorous figure of our era.

surely his team can survive competition from Walter
O'Malley and the Dodgers. The American League hasn't
decided - whether to accept. But they're listening
attentively to this friendly voice from Chicago. As
a League spokesman puts it, "Mr. Finley's offer is very
impressive."

BASEBALL

An insurance man from Chicago wants to put another baseball team - in Los Angeles. Charles Finley, telling the American League - he's willing to put five million dollars into the operation. That much to make sure ~~that~~ his team can ^asurvive competition from Walter O'Malley and the Dodgers. The American League hasn't decided - whether to accept. But they ^are listening attentively ^a to this friendly voice from Chicago. As a League spokesman puts it, "Mr. Finley's offer is very impressive."

AIR FORCE

The latest Air Force pilot to be grounded - is the Air Force Chief of Staff. General Thomas White - excused from flight duty. No longer required ~~xxx~~ to pilot a plane - at least four hours a month. Reason - the Air Force has to curtail the number of its flying officers. So the grounding of General White - opens a place for ~~xxxx~~ someone else. The Air Force Chief of Staff -- making way for a junior officer.

DEER

Here's the story of - the hounds, the deer, and the housekeeper. Mrs. Christine Rose, of Concord, Massachusetts, was in the kitchen - when she heard the front door bang open; and a clatter of little hoof beats - along the hall. When the housekeeper poked her head out of the kitchen - and saw a deer careening down the hall, into the bathroom.

A moment later - up came two hounds in full cry. They raced around the living room, barking loudly, until they picked up the scent - and headed for the bathroom. Meanwhile, the deer was slipping all over the bathroom, trying to get a footing on the tile floor.

Finally, the deer managed to get through the bathroom door, bolted past the hounds, into the living room, took a flying leap some twelve feet into the air - and crashed through the picture window. The hounds, following - in hot pursuit. All three - disappearing into the woods, Dick. And that's the story of the little hoof beats in the hall.

BOOKS

Some San Franciscans are claiming their city is the domicile of the world's champion borrower of library books, and not returning them on time. His name John Kennedy - a card holder at the San Francisco public library, who turns up regularly - taking out his quota of books.

But this Jack Kennedy doesn't bother too often about bringing them back. Every week - more becoming overdue. So, the library called in the jendarnes, who found a hundred and seventy five library books - neatly stacked in this Jack Kennedy's flat.

At the moment he owes the library, in normal overdue fines, three hundred and fifty dollars.

But - to get back to - outside -
