Where UPTOWN and DOWNTOWN Meet

DOWNTOWN is the financial centre of New York and of the nation. Every conceivable facility for the handling of financial business of every description is provided there.

UPTOWN is where you live—where you transact much of the business connected with your household. In the Banking rooms of United States Mortgage & Trust Company downtown and uptown meet.

All the facilities of the main office, downtown, are brought to your immediate neighborhood, uptown. The patron of the uptown office is equally at home downtown and vice-versa.

The company provides complete service, and this it offers for your convenience.

STEINWAY

THE INSTRUMENT OF THE IMMORTALS

OCCASIONALLY the genius of man produces some masterpiece of art—a symphony, a book, a painting—of such surpassing greatness that for generation upon generation it stands as an ideal, unequaled and supreme. For more than three score years the position of the Steinway Piano has been comparable to such a masterpiece—with this difference: A symphony, a book, a painting, once given to the

world, stands forever as it is. But the Steinway, great as it was in Richard Wagner's day, has grown greater still with each generation of the Steinway family. From Wagner, Liszt and Rubinstein down through the years to Paderewski, Rachmaninoff and Hofmann, the Steinway has come to be "The Instrument of the Immortals" and the instrument of those who love immortal music.

Steinway & Sons and their dealers have made it conveniently possible for music lovers to own a Steinway. Prices: \$875 and up, plus freight at points distant from New York.

THE COACHES

© Paul Thompson
RICE, OF COLUMBIA

Jim Rice, friend and adviser of countless undergraduates at Columbia, first came to the University in 1907, after having coached the Weld Boat Club at Harvard. Previous to going to the Weld, he had attained great success at the Detroit Boat Club, where he developed many champions and many title winning crews. Early in his career, he was identified with Canadian sport for many years, being a protégé of Ned Hanlan, the famous sculler. He has been coaching for thirty-two years.

© Troy
HOYLE, OF CORNELL

John Hoyle first came to Cornell in 1899, as an expert boat builder and rigger. Since that time, all of Cornell's shells, with one exception, have been of his own design and making. For more than twenty years Hoyle worked under Coach Courtney, assuming the post of Assistant Coach in 1909. He absorbed much of the Courtney system and methods, and upon the death of the "Old Man," in 1920, was made his successor.

WRIGHT, OF PENNSYLVANIA

Joseph Wright, Pennsylvania coach since 1915, began rowing many years ago as a member of the famous Argonaut Club of Canada, of which he became captain and later coach. He has the enviable reputation of having rowed more amateur races than any other oarsman in America. Wright won an American championship in 1885, and twenty years later again captured the title.

TEN EYCK, OF SYRACUSE

James A. Ten Eyck, of Worcester, Mass., has been coach of the Syracuse crews since January, 1903, three years after the organization of rowing at the University. He had previously been in charge of the oarsmen at the U. S. Naval Academy, being the first professional coach there.

© White Studio
GLENDON, OF THE NAVAL ACADEMY

Richard A. Glendon has coached the Navy Crews for twenty years. Previous to his coming to the Naval Academy, he coached the Boston Athletic Club for fifteen years. Boston is his home, and he spends his time there when not at the Naval Academy. In addition to his coaching knowledge, Glendon is also experienced in boat design and rigging.

LEADER, OF WASHINGTON

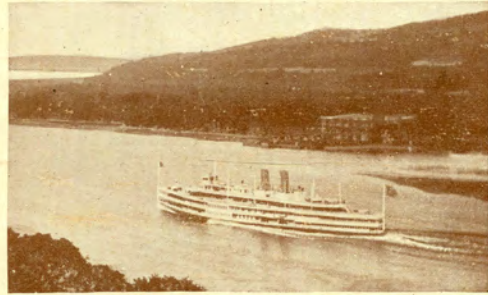

Ed Leader, rowing coach of the University of Washington crew, graduated from the University five years ago with a law degree, three times a member of the crew, twice a football lineman, and once a baseball player. He learned his oarsmanship through four years' service under Coach Conibear, Washington's first rowing coach and originator of the stroke still used by the Purple and Gold crews.

To Determine Strokes Per Minute

The following table will be of use to spectators who wish to determine quickly the exact number of strokes per minute which any crew is rowing:

If eight strokes take	21 4/5	seconds, crew is rowing	22

ROWING AT COLUMBIA

Rowing at Columbia dates back further than any other sport. The College took it up in the early '40's, when Harvard and Yale first turned their attention to the oars. In 1871, three years after the Rowing Association of American Colleges was organized, Columbia won her famous victory at Saratoga. The year 1878 saw the 'Varsity competing in its first international meet, the Visitors' Challenge Inter-University Race, over the historic Henley course in England. Rowing with a stroke a little over forty to the minute, they accomplished the unprecedented, and were masters in the first race ever won in England by a foreign crew.

It is recorded that between 1877 and 1880 Columbia

won fifteen out of the twenty-four races entered. At Poughkeepsie the 'Varsity was the victor in 1895; in '01 pushed Cornell to break the record; and in 1914 won the Regatta.

Columbia opened the season this year by defeating the Yale 'Varsity and Junior 'Varsity crews on the Harlem River. Two weeks later, however, they lost to Princeton but defeated Penn's 150-lb. crew in the race for the Childs Cup, which had been won by the Blue and White oarsmen in 1921. Returning to the Harlem the Columbia crew triumphed over Massachusetts Institute of Technology in both 'Varsity and Junior 'Varsity events, but lost to Pennsylvania in the 150-lb. crew race.

ROWING AT CORNELL

Interest in rowing at Cornell began almost with the founding of the University in 1868. After Mr. Courtney came to Cornell in 1878 as Crew Coach, successes for the Cornell crews began. From that time until 1920, when Mr. Courtney died, his crews made comparatively good records. Cornell holds many records on the Poughkeepsie course, including the Varsity four-mile, Freshman two-mile, four-oared two-mile, and Junior Varsity two mile. Upon Mr. Courtney's death, John Hoyle took the helm and is endeavoring to follow in the footsteps of the "Old Man".

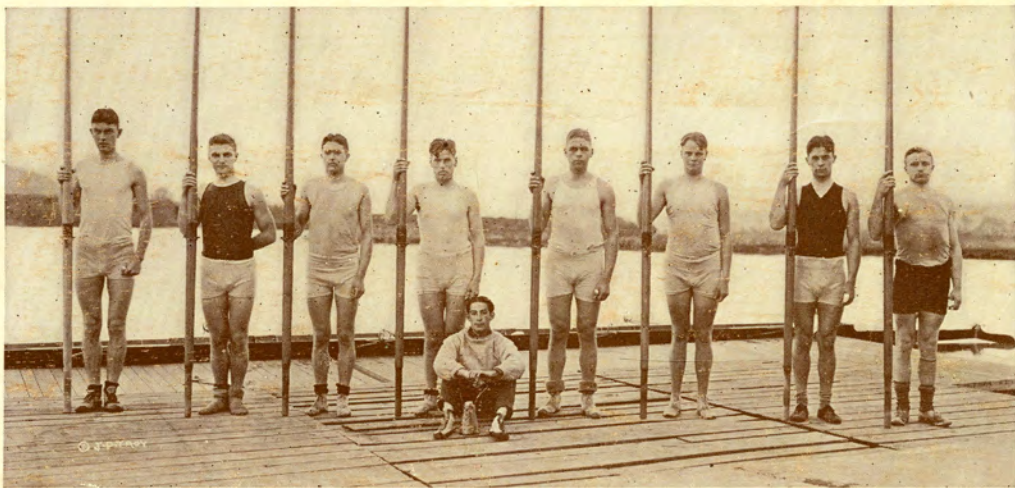

Last fall 400 candidates came out for crew, as the largest number ever registered for that sport at Cornell. The crews took to the water on May 7. The first race was the Triangular Regatta at Derby, Conn., when Cornell defeated Princeton and Yale, the former by $3\frac{1}{2}$ lengths and the latter by a still greater margin. The time was 10:11, a new record for the Housatonic River course. The Freshmen boat lost to the Princeton Freshmen by two lengths, beating Yale by the same amount. The only other Cornell race before the Poughkeepsie Regatta was scheduled with Harvard, on May 27, but was cancelled because of the high winds on Lake Cayuga.

EDWARD P. MITCHELL, *Captain*

C. GORDON COOKE, *Manager*

ROWING AT PENNSYLVANIA

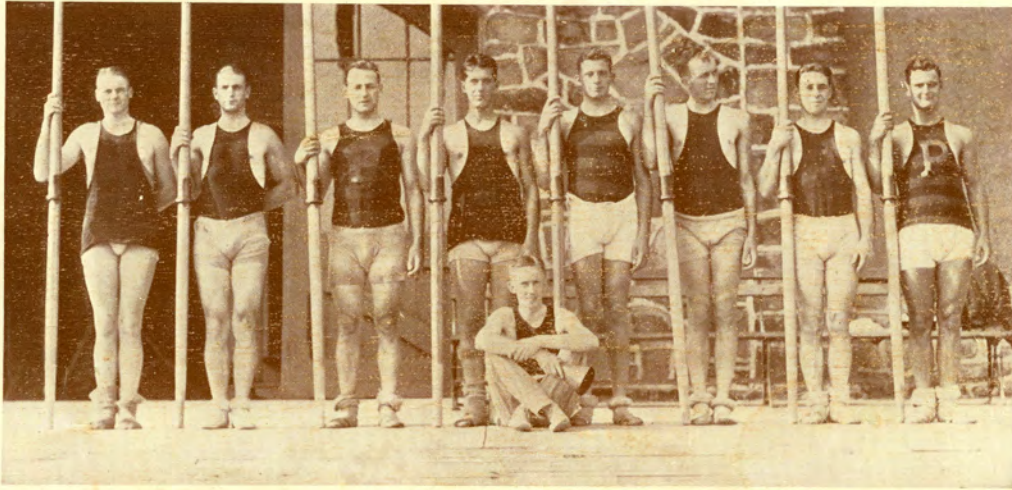

Rowing at Pennsylvania began in 1854 with the formation of the University Barge Club, at that time a distinctly Pennsylvania organization. Intra-mural races were held each year until 1872, when the formation of the College Boat Club brought forth the first effort to have an organized crew representing the University.

For Pennsylvania, the first important series of inter-collegiate races were those for the Childs Cup, between Pennsylvania, Columbia, and Princeton. Between 1879 and 1891 Pennsylvania won eight, and lost only two. In six of the Inter-collegiate Regattas started in 1880, and composed of crews from Pennsylvania, Princeton, Cornell, Wisconsin, Bowdoin, and Wesleyan, Pennsylvania won twice, was second twice, and third once.

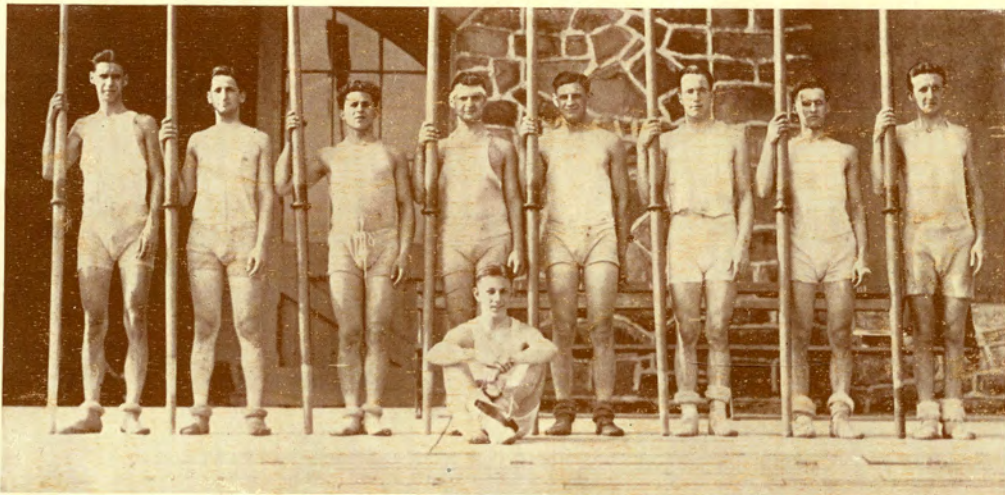

The first Inter-collegiate at Poughkeepsie were held in 1895. That year the Pennsylvania crew was wrecked, and took third place during the next two years. In 1898, 1899, and 1900 the Pennsylvania 'Varsity won the Regatta. In 1901 the 'Varsity crew competed in the Henley Regatta for world honors defeating the London Rowing Club and the Thames Rowing Club, and being beaten by a scant length by Leander.

Pennsylvania abandoned rowing during 1917, but established two course records during the next two years, one in the Childs Cup Race in 1918 and the other at Yale in 1919. In 1921 the crew defeated Yale, and in the Inter-collegiate Regatta defeated Syracuse and Columbia. This year the Pennsylvania crews have won eight first places, four seconds, and three thirds.

C. A. PAGE, *Captain*

ROBERT E. RONEY, *Commodore*

ROWING AT SYRACUSE

Rowing was organized at Syracuse University in 1900 under the direction of Mr. E. R. Sweetland. Handicapped by inexperience and poor training conditions, the first Orange crews were not very successful. In January, 1903, James A. Ten Eyck, of Worcester, Mass., was engaged to take charge of crew work. Under his able guidance, Syracuse forged rapidly to the front, and in 1904, the 'Varsity eight won the Poughkeepsie Regatta, repeating this performance in 1908, 1913, 1916, and 1920. The 1920 'Varsity, after winning at Poughkeepsie, lost out by only a few feet

to the Navy Oarsmen in the Olympic tryouts at Worcester. The Junior 'Varsity and Freshman boats also have a goodly number of victories marked up.

This year about 150 'Varsity men and 250 Freshmen reported for Crew. Daily workouts were held in the rowing tank, the only one of its kind in the world. On March 1, the crews took to the water of Onondaga Lake. The first race was held with the United States Naval Academy at Annapolis on May 20, the 'Varsity, Junior 'Varsity, and Freshmen crews competing. The Navy won all three events. Since that time the Syracuse crews have been preparing for the Poughkeepsie Regatta.

ROWING AT THE NAVAL ACADEMY

Rowing was first taken up at the Naval Academy in 1855. From that time until 1899 professional coaching was not enjoyed by the midshipmen crews. Navy men did the coaching during part of this period; at other times Yale men came down and assisted. Mr. James Ten Eyck, who is now coach at Syracuse University, was the first professional to be employed. He worked with the midshipmen for three years without any de-

cidid success, as the time that his system demanded was not available at the Academy. Glendon came in 1902 and for the past three years has been assisted by his son, who works with the "plebe eights." This year the Naval Academy Varsity Crew defeated M. I. T. on April 29 over the Henley distance; Harvard and Princeton at Cambridge, Mass., on May 6; Syracuse at Annapolis over a two-mile course, on May 20; and Pennsylvania and the Union Boat Club in the American Henley on May 27.

MIKE MURPHY, *Captain*

HOWARD MIDDLETON, *Manager*

ROWING AT WASHINGTON

In the Pacific Coast Regattas, held each year since 1907, between Washington, Leland Stanford, and California, Washington has taken first place ten times and second place three times. This year's crew is notable for acquiring the Pacific Coast title with a ten-length victory over California on April 22 and for

easily defeating Wisconsin on Lake Mendota, Wis., on June 12. Western rowing critics rate the combination as the fastest ever developed at the University of Washington and concede it to be five lengths speedier than their 1913 Washington crew, which placed third at Poughkeepsie, or the 1915 boat which finished in fifth place.

CADILLAC

¶ Eight years ago, Cadillac introduced America's first eight-cylinder automobile power plant—the V-Type Cadillac engine. It achieved an immediate and a brilliant success.

¶ To-day, the new Type 61 Cadillac is universally conceded to be

the greatest Cadillac ever produced.

¶ Not only Cadillac owners, but practically all motorists refer, in glowing terms, to its absolute dependability, emphasizing that it functions with a constancy and a certainty which suggests infallible performance.
