

Tues. Sept. 16 - '52. L.T.-P.+G.

At the U N the Soviets have just cast another veto, against the admission of Libya. The other members of the Security Council wanted to let the new North African nation into the U N, but the Soviets vetoed.

Best of that line, and they're to be tied up beginning midnight Sunday. The word in Washington is that a long bitter strike is in prospect. However, there's a huge stockpile of coal on hand, enough for eighty days - and the walkout might continue for two months, without any emergency.

LEWIS

It looks as if ^{soft}a coal strike is inevitable.

Today, John L. Lewis made a report to his wage policy committee, whereby coal miners west of Ohio would be exempted from a walkout. But most of the mines are East of that line, and they^are to be tied up - beginning midnight Sunday. The word in Washington is that a long bitter strike is in prospect. However, there's a huge stockpile of coal on hand, enough for eighty days - and the walkout might continue for two months, without any emergency.

Next, the Taft-Hartley law - the President of the United States is expected to send a message to the A. F. of L. convention in New York, denouncing Republican labor policies, and saying that Eisenhower "has now made his peace with the author of the Taft-Hartley Law." General Ike will have his own say on Thursday, when he addresses the

POLITICS

The campaign becomes a three-cornered affair, with President Truman stepping in to play his part.

Today he made an appearance before the American hospital Association in Philadelphia, and assailed General Ike for opposing the Truman National Health Insurance program. ^{For} Calling it - socialized medicine. H.S.T. hit back with a line like an echo. Saying that Ike wants to go back to the horse and buggy days." Which certainly does echo the words of F.D.R. those years ago.

Next, the Taft-Hartley law - the President sending a message to the A F of L convention in New York. Denouncing Republican labor policies, and saying - that Eisenhower "has now made his peace with the author of the Taft-Hartley Law." General Ike will have his own say ^{Tomorrow} ~~on Thursday~~, when he addresses the

A F of L convention. Which convention, however, is expected to endorse Governor Stevenson.

The General, today, was continuing his whistle stop tour - passing on into Minnesota. Greeted by a series of cheering crowds - he assailed the Truman farm policy, as a lot of confusion, which has injured the farmer. He called for consistent policies in Washington, all around. The General took further digs at the Stevenson quips and wisecracks. Saying - that he, himself, could not compete with Bob Hope.

In New York, former Defense Mobilizer Charles E. Wilson, addressing the commerce and industry Association, called for "a second era of trust busting." But, this time, against big government, instead of against big business.

~~Governor Stevenson, is still in Springfield~~
~~holding conferences. Today he had a talk with top~~

TEXAS

(In Texas, a state court issued an injunction today, barring the "Texas Democratic party" from the ballot - the Democratic faction that ~~is~~ nominated General Ike.) Testimony was that the "Texas Democratic Convention" which put Eisenhower on the ballot, consisted of only ten delegates. So, on that ground, a district Judge issued an injunction. The "Texas Democratic party" is appealing to higher courts - trying to stay on the ballot, with General Eisenhower as their nominee.

STEVENSON-MACCARTHY

(One big problem considered by Governor Stevenson today was - how to defeat Senator McCarthy of Wisconsin. It seems a tall order - considering the stupendous way McCarthy won the Wisconsin primary.

Illinois Governor
The ~~candidate~~ is being urged to invade Wisconsin - and campaign against McCarthy. Which draws a prompt retort from the Senator, who says: "I join in inviting the gag man to come to Wisconsin. The more people hear him wise-cracking about the serious problems of the nation, the greater will be the margin of Eisenhower's victory in November."

Gov. Stevenson is still in Springfield holding conferences. Today he had a talk with top officials of the U.S. Chamber of Commerce, but there

doesn't seem to have been any meeting of minds. They told him that the Truman financial policy will, as a mathematical certainty, lead the country to bankruptcy. They say the Governor was not in such humorous, comical form, today.

(In Washington, a Protestant organization comes out with applause for the Stevenson declaration that, if elected President, he will not send an Ambassador to the Vatican. That, says Glenn Archer, Executive Director of Protestants and other Americans united for the separation of church and state -- "deserves high praise.")

Stevenson headquarters denies - that General Eisenhower kissed the first baby. Last night, at a whistle stop, the General saluted a baby slightly on the cheek -- according to the old tradition of

presidential campaigners. But, from Stevenson

headquarters, we have a ~~km~~ retort -- that Adlai

kissed a baby at a rodeo in Lewiston, Idaho,

September Seventh. So he was first - with the baby

kissing.

Acting Chairman Congressman Durham of North

Carolina will not confirm this. He'll say - it's an

H-bomb. But ~~will~~ that he does have to say sure sounds

like it. The super-test will, in his words "open up

the gravest era in the history of the world."

ATOMIC

The news brings impressive word, even startling - about the next atomic blast at Eniwetok Atoll. The acting chairman of the congressional atomic committee says: "If ~~they are~~ successful, there'll be an explosion greater than any that has ever been set off before." Which certainly would sound like the hydrogen bomb, a test of which has been predicted.

Acting Chairman Congressman Durham of North Carolina will not confirm this. Wont say - its an H-bomb. But ~~wixkxk~~ what he does have to say sure sounds like it. The ^{is} super-test will, in his words "open up the gravest era in the history of the world."

MOSCOW

Tonight's dispatch from Moscow says that all diplomatic observers in the Russian capital believe the agreement between the Soviets and Red China includes a number of secret clauses.

The text, as made public, presents only two definite points. One - that the Soviets turn over to the Chinese full control of the Chanchun Railway, in Manchuria. Which merely carries out a previous arrangement. The other - that the Russians will continue to occupy Port Arthur, that vital strategic harbor. Although - Port Arthur was to have been given back to the Chinese.

Western diplomats in Moscow believe the Soviets must have promised large economic and military aid. Otherwise, the Chinese would not have agreed to let the Russians retain Port Arthur.

Today the Soviet Press was full of the signing of the new pact. Stalin was at the ceremony - together with most of the politburo. Today, he gave a farewell banquet at the Kremlin for the Chinese envoys, headed by Foreign Minister Chou-en-lai - marking the close of the long drawn out palaver in Moscow.

the "gimmick".

In the last two weeks, more MIGS were shot down than in any previous four weeks. Forty-five in fourteen days - within the previous record for one whole month was forty-one, last April. Thanks to the gadget, the gadget.

A tragic disaster is announced - six marine cargo paratrope jets flying in to a Korean mountain. They were on their way back from a combat mission, when bad weather closed in. All the planes in that area were instructed to make a detour and come into another field.

KOREA

The news from Korea confirms our story of yesterday - about the gadget. They say the sharp increase of enemy jet planes destroyed is because of a new device for air battle, which it gives American pilots a tactical advantage over the MIGS. It's a secret, the Korea news dispatch merely calling it - the "gimmick".

In the last two weeks, more MIGS were shot down than in any previous four weeks. Forty-five in fourteen days - while the previous record for one whole month was forty-one, last April. Thanks to the gadget, the gimmick.

A tragic disaster is announced - six marine corps panther jets flying into a Korean mountain. They were on their way back from a combat mission, when bad weather closed in. All the planes in that area were instructed to make a detour and come into another field.

All did, except the flight of six. They were speeding in single file, "follow the leader" formation. Clouds blanketed the summit ahead, and they all flew into the mountain, one after another - at terrific velocity. No survivors - in what the Air Force calls the "worst aerial accident" in the history of the Korean war.

the Tehran government for all losses incurred by British economic action in the oil dispute. London has been able to prevent the sale of Iranian oil - product of the nationalized oil fields. London has likewise blocked Iranian assets in Britain.

Moreover, Mossadegh requires that the Anglo-Iranian oil pay a debt of more than one hundred and thirty-seven million dollars. Britain denies any such amount.

In return, Iran would pay compensation on the basis of company assets in Iran. Britain wants

IRAN

(Today in Teheran, Mossadegh made his declaration to the Iranian Parliament, the Majlis. He threatened to sever diplomatic relations with Great Britain, unless the British accept Iranian demands.

These, as Mossadegh outlined them, sound fantastic. The Anglo-Iranian Oil Company to compensate the Teheran government for all losses incurred ^{as a result of} British economic action in the oil dispute. (London has been able to prevent the sale of Iranian oil - product of the nationalized oil fields. London has likewise blocked Iranian assets in Britain.

Moreover, Mossadegh requires that ~~the~~ Anglo-Iranian oil pay ^{what he terms} a debt of more than one hundred and thirty-seven million dollars. Britain denies owing any such amount.

In return, Iran would pay compensation on the basis of company assets in Iran. Britain wants

From Kenya, East Africa, word of a new blood-compensation on the basis of rights to which the company is entitled - not physical assets alone.)

It had been expected that Mossadegh, in his message to the Iranian Parliament, would reject the offer recommended by Prime Minister Churchill and President Truman. But he goes further than that, presenting demands - and threatening a diplomatic break with London, if they're not accepted.

This occurs in the Kukuyu tribe. The secret society known as - "Mau Mau". In killing the white man slash their bodies to draw blood. The oath - sworn with blood. It binds the members of "Mau Mau" to acts of terrorism against the foreigners - until these are driven out. There are, in Kenya, some thirty thousand Europeans and about a hundred thousand Arabs and Indians. There has been a recent wave of crime - the

TRIBE

From Kenya, East Africa, word of a new blood-curdling secret society. This one, important enough to send the Attorney General for the Crown Colony and the Chief Native Commissioner to London - to discuss the situation with Colonial Secretary Oliver Lyttleton. Weird secret societies are an old story in Africa, and this new one is not large. But the central feature is a fantastic oath, sworn in blood - to drive out the British and other foreigners.

This occurs in the Kukuyu tribe. The secret society known as - "Mau Mau". In taking the oath they slash their bodies to draw blood. The oath - sealed with blood. It binds the members of "Mau- Mau" to acts of terrorism against the foreigners - until these are driven out. There are, in Kenya, some thirty thousand Europeans and about a hundred thousand Arabs and Indians. There has been a recent wave of crime - the doing of "Mau - Mau."

At present, the secret society is limited to the Kukuyu tribe. But the fear is that it may spread throughout East Africa.

TYPHOON

Word has come through from Wake Island, which had been completely cut off - by a typhoon. The devastation is described as - fantastic. Ninety percent of the buildings and installations on the island flattened off by winds that raged at one hundred and forty-eight miles an hour. Half of the island inundated by giant seas. The run-ways of the great Pan American World Airways base - damaged so badly, that planes will have to be detoured via ^{some} other island, until the havoc is repaired.

G.F. Maxwell, a Pan American official on the scene, radios - "All personnel must be evacuated." About two hundred and thirty -- eighty-nine of them Americans. Others - workers from Guam and the Philippines. No lives lost - thanks to a typhoon disaster plan, which had been prepared.

At Lock Haven, Pennsylvania, today, they hailed

for the others.

Jackie, his father and two other men were flying
from Philadelphia to Newcastle, when they were caught in
a blinding storm ^{over the mountains of} ~~and over~~ Pennsylvania.
The plane ran out of gas, and crashed - shattered in
pieces. Everyone injured - and they lay in the stars
all night.

Three so badly hurt - they couldn't move.
Ellery Adams had broken ribs - but was able to walk.
Jackie had a broken ankle. So at daylight, the father
picked up the child, and started off to look for help,
trudging down the mountainside. Down a logging trail.
But he couldn't make it, ~~not with broken ribs.~~

BOY

At Lock Haven, Pennsylvania, today, they hailed the bravest boy. A tough, gritty hero - a six year old. Survivor of an air crash - Jackie Adams went hobbling on a broken ankle along a mountain trail, summoning rescue for the others.

Jackie, his father and two other men were flying from Philipsburg to Newcastle, when they were caught in a blinding storm ^{over the mountains of} ~~and wind over Pennsylvania, Mountains.~~ The plane ran out of gas, and crashed - shattered to pieces. Everyone injured - and they lay in the storm all night.

Three so badly hurt - they couldn't move. Ellery Adams had broken ribs - but was able to walk. Jackie had a broken ankle. So at daybreak, the father picked up the child, and started off to look for help, trudging down the mountainside, down a logging trail. But he couldn't make it, ~~not with broken ribs. He~~

became exhausted, had to put the boy down. Then - collapsed.

The six year old said: "Don't worry, Dad, I'll get help."

Whereupon Jackie Adams, with his broken ankle, went limping down the logging trail. Kept going, until he came to a highway. A fire warden spotted him - and Jackie directed him to where his father lay.

The air crash survivors were rescued - all expected to recover. They say that Jackie never whimpered once, only saying - that his ankle hurt.

Nelson, The doctor who set the ankle says: "The most courageous boy I ever met."
