

L.T.-DELCO. MON., JAN. 14, 1957.

GOOD EVENING EVERYBODY:

Today President Eisenhower followed the trial of the drought - across Texas, Oklahoma, and New Mexico. A trip that will cover some forty-five hundred miles. With the President, Secretary of Agriculture Benson - and Secretary of the Interior Seton. The presidential plane - Columbine Third - flying low, so the party will get an unusual panorama, a general picture of what havoc the drought has wrought in the southwest.

Then, on the ground, today the President walked in dust up to his shoe-tops; and saw cattle and sheep - gaunt from lack of food.

At San Angelo, Texas, cowboys showed him how they are feeding spines from the prickly pear - to the cattle. It's the best thing they can get. Farmers in this area gave him a grim report. They haven't had a decent crop since Nineteen Fifty.

At Woodward, Oklahoma - the presidential party stopping to look over some of the farms; saw nothing but dry earth parched by lack of rain. At one point, Secretary Seton remarked, "This looks like Nebraska - in the 'Thirties." The year of the big "dust bowl."

Then on to New Mexico - to the town of Clovis; where farmer Ray Worell, told the President - that he managed to survive the 1930 dust bowl disaster, and hopes to survive this drought.

The President's plane landed at the Davis Monthan Air Base at Tuscon, tonight, where he was met by Arizona Governor McFarland, one-time Democratic leader in the Senate.

Mr. Eisenhower scheduled to entertain at a private dinner tonight, Senator Goldwater (R-Ariz.); Lew Douglas, former Ambassador to Great Britain, and former Arizona Governor Howard Pyle, now a White House aide.

So far, today one thing the President learned at first hand today - that the farmers want to stay on the land. Every farmer he talked to, said that the only problem is - rain. If they get it they all want to stay right where they are.

The Columbine will swing east tomorrow, for a visit to parts of Colorado and Kansas. Then back to the White House, with considerable first hand knowledge - of just what the farmers are up against - in the areas so badly hit by one of our worst seasons in a half a dozen states.

## CERTIFICATE

Oh yes, in Texas, the President was given a certificate today - at San Angelo - presented by Governor Shivers - telling how Mr. Eisenhower was born in Denison, Texas, on October Fourteen, Eighteen-Ninety. The purpose of the certificate is stated in these terms: "Lest there be any question - about Ike's native state". People of Texas, anxious to let everyone know - that the President of the United States is a native Texan.

# EISENHOWER DOCTRINE

~~Today~~ Secretary ~~of State~~ Dulles <sup>today</sup> continued to urge Congress - to approve the "Eisenhower doctrine" - and do it quickly. ~~Our Secretary of State,~~ testifying before the House Foreign Affairs Committee and the Senate Foreign Relations Committee <sup>the Sec. of State declared</sup> ~~saying~~ that Communist aggression may strike the Middle East soon. He said there is no evidence that Russia is planning an armed attack - but there is evidence, that Communism is growing stronger. Noting that this could be the decisive period in the Middle East -- ~~Secretary Dulles~~ <sup>he</sup> insisted that the Kremlin might be deterred by the "Eisenhower doctrine".

~~And -~~  
~~He added~~ that the people of the Middle East - would feel more secure. *IF This brought dissent from a few.*

~~But there was immediate dissent by some Senators.~~

Russell of Georgia and Fulbright of Arkansas both saying they think - Mr. Eisenhower should get what he wants on the subject of troops for the Middle East, <sup>are</sup> ~~are~~ not so sure the President should get the money he wants - since there is so

EISENHOWER DOCTRINE - 2

much oil money already in the Middle East. Their point being why should American money be used - when nations like Saudi Arabia are <sup>already</sup> rolling in wealth - with all that liquid gold beneath the sands of Araby.

FOOD

Meanwhile Egypt is asking <sup>US</sup> ~~this country~~ for surplus food. So announced by a spokesman in Washington - who says that the request is being studied. President Eisenhower, wanting to see whether he can deal with the Egyptian request - under the new "Eisenhower doctrine". If not, the President probably will try to use an old law - permitting him to sell food abroad for foreign currency.

## SAUDI ARABIA

Saudi Arabia put in a complaint before the Security Council of the U N tonight, charging -- aggressive action by Israel. The scene -- the Gulf of Aqaba, where the Israelis captured a couple of tiny islands from the Egyptians.

Saudi Arabia now claims that, on January fifth, eleventh and twelfth -- Israeli planes and torpedo boats attacked the nearby shore of Saudi Arabia. Attacks-- launched from those two islands.

# CABINET

Tonight, Britain has another Cabinet. Prime Minister Macmillan and his colleagues - taking the oath before Queen Elizabeth at Buckingham Palace. Immediately afterward, Her Majesty left for a vacation in the country. The new Cabinet immediately took up the problem of the Suez Canal.

## DISARMAMENT

At the United Nations, our delegate has made new proposals about disarmament. Cabot Lodge, describing a plan that would turn all atomic energy to peacetime purposes. The only condition Lodge insisted on - we must have a foolproof inspection system. We are still not willing to take the word of the Russians - on a <sup>NY</sup> thing as vital as disarmament.

The Soviet delegate used his time mainly - for an attack on the "Eisenhower doctrine" - which has nothing to do with disarmament. The Russian, saying President Eisenhower wants "American imperialism" in the Middle East - while the Soviet Union is a friend of the Arabs.

~~After that propaganda stunt~~ <sup>Then</sup> the Soviet delegate produced the old Communist line on disarmament - calling for an immediate ban of nuclear weapons - without any check on the Russian end of the agreement.

## DILLON

A top Ambassador to enter the State Department - if the Senate gives its approval. Today, President Eisenhower nominated Douglas Dillon, retiring from the embassy in Paris, to be Deputy Under Secretary of State for Economic Affairs. Dillon had been representing us in Paris since Nineteen Fifty-Three. Before that he was an investment banker, so should feel at home, handling the economic problems.

## TAXES

The House Ways and Means Sub-Committee proposes - a cut in some sales taxes. The plan calls for bringing down the price on things like refrigerator parts and truck leases. The cuts, to come to about twenty million dollars a year.

But part of this would be made up - by increasing taxes on other things - for example, ~~amusement~~ amusement devices line pin-ball machines.

PHOTOGRAPHER

The American Legation in Budapest reports - another American has been arrested by the Kadar regime. Georgette Chapelle, a photographer from Milwaukee - picked up by the Red police inside the Hungarian border. <sup>Mademoiselle</sup> ~~Chapelle~~ ~~Georgette~~ Chapelle has been three weeks in Austria - shooting pictures of the refugee camps. She tried to get a Hungarian visa - and was refused. So she paid a Hungarian one thousand dollars - to guide her into his country by a safe route. <sup>Telling</sup> ~~she told~~ friends in Vienna she expected to return in two or three days <sup>off she</sup> went. <sup>IF</sup> <sup>When she failed to return</sup> ~~she never returned. So~~ our Budapest Legation was informed. And we now hear that the Kadar government admits - <sup>that</sup> <sup>from Milwaukee is</sup> ~~it is holding~~ Georgette Chapelle in jail. Our Legation, rebuffed in its attempts to have her released.

KREMLIN

A British newspaper reports that Khrushchev has moved all secret work of the Soviet government - out of the Kremlin. The London "Daily Express" gives the reason as - fear that Western agents may be listening in on Kremlin conferences - by means of a device called an "electronic ear" - that can pick up conversations a mile away. According to the British newspaper, the Russians have <sup>ing</sup> developed an "electronic ear" <sup>are</sup> ~~they're~~ afraid ~~that~~ the West has <sup>one</sup> too. <sup>(- I mean has one - not two,</sup> ~~And so there's~~ no more secret work in the Kremlin <sup>- according to Lord B's</sup> ~~if we can believe the~~ London "Daily Express".

## ZWICKER

Here's a story that reminds us of headlines - two years ago. A dispatch from Washington, stating that President Eisenhower has asked the Senate to approve the promotion of General Ralph Zwicker - to the rank of Major General. General Zwicker, who figured so prominently - in those Army-McCarthy hearings of Nineteen Fifty-Four. Senator McCarthy told the General he was, in McCarthy's words, "not fit to wear that uniform" - because Zwicker refused to say who ordered an honorable discharge for Major Irving Peress, who appealed to the Fifth Amendment, when his loyalty was questioned.

General Zwicker is now stationed in the Far East.

In Washington, an Army spokesman termed the General's ~~an~~ nomination for promotion - "strictly routine."

## HUMPHREY BOGART

The death of Humphrey Bogart removes one of the most colorful actors in the history of Hollywood. *A spectacular career in ~~Edury~~. A top* ~~He had been~~ a star ever since Nineteen Thirty-Two - when he made "The Petrified Forest". *Followed by* ~~After that, came~~ triumphs like "Virginia City", and "High Sierra" and "The Maltese Falcon." ~~He won~~ an Academy award for "The African Queen," *and so on.*

In most of his pictures, he played the part of the tough guy. *Actually he was gentle and known for his generosity.*

In Nineteen Forty-Five, he married one of Hollywood's top actresses - Lauren Bacall. Hollywood cynics predicted the marriage wouldn't last - but it turned out to be one of the happiest in the movie capital.

Humphrey Bogart had been suffering from cancer for over a year - when he died this morning in Hollywood, at the age of fifty-six.

## VIRGINIA

The port of Hampton Roads in Virginia - may take over the commerce that now passes through New York. So says a Belgian shipping executive, Leon Velhurst - who is in this country inspecting our seaports. ~~In particular,~~ He wants to promote greater commerce between Belgium and Hampton Roads.

Velhurst says that the Virginia port has facilities - for handling the largest ships. Secondly, New York has become too expensive for European business to use. ~~That's why this~~ <sup>Hence the</sup>

Belgian expert thinks ~~that~~ Hampton Roads, Virginia, is the coming seaport of our east coast. *Wonder if this will bring a boom at Hampton Roads?*

## DOCTOR

In Eastbourne, England, a court today heard testimony - about what may turn into one of the most sensational murder cases in the history of British crime. The court, trying to determine whether there is sufficient evidence - to prosecute Dr. John Adams.

Today, three alleged victims of the doctor were mentioned. He was accused of making a narcotics addict out of one of his patients - Mrs. Alice Morrell - then killing her with an overdose. Also accused of murdering Alfred Hullett - by causing Hullett to have a heart attack - with a heavy dose of morphine. And finally, the cherubic medico is charged with making an addict out of Mrs. Hullett - who also dies of an overdose. And perhaps scores of other patients - possibly more than one hundred.

In each case mentioned - Mrs. Morell and Mrs. Hullet - Dr. Adams was a beneficiary in the victim's will. Mrs. Morrell and Mrs. Hullett - each left him a Rolls Royce limousine. Alfred Hullett left him stocks.

One reason for suspecting Adams - he had Hullett and Mrs. Morrell cremated - after falsely testifying that he had no financial interest in them. Mrs. Hullett would have been cremated - except for the coroner.

Today the court heard how Dr. Adams called the coroner - and asked for a private post-mortem. The coroner asked, "When did the patient die?" According to the transcript - the doctor who looks like a cupie dill replied: - "She's not dead yet." The next day, Mrs. Hullett died - her case, called suicide. The coroner, then refused to allow the cremation Dr. Adams had requested.

The case shows signs of becoming utterly fantastic. Scotland Yard has ordered the exhumation of other patients. All Britain is asking how many of his patients did the Eastbourne doctor hurry along to their graves.

## INDIANS

At Salamanca, New York, the Iroquois are on the warpath - after a fashion. The Seneca tribe of the once mighty Five Nations - defying the Federal government, in a manner of speaking.

The authorities want to take part of the Seneca Reservation - for a flood-control dam. The Senecas say go away Pale Faces. They say they'll stand by their treaty with Uncle Sam - signed back in Seventeen Ninety-Four. That treaty states that the Iroquois have a right to their reservation land - "as long as the Allegheny River flows - and the sun and moon do shine."

The Senecas today were pointing out that the Allegheny River has not stopped flowing and the Sun and Moon have not stopped shining. Therefore, the treaty is still in force. And they intend to stay on their reservation. Meanwhile, they are appealing to the judgment of the court to abide by that treaty of

Seventeen Ninety-Four - made in the days when the

Iroquois were the mighty warriors who ruled all the

way from the Atlantic to the Great Lakes. Yes, Henry,

the Allegheny river still flows and the sun and moon

still shine.
